## LET US GO FORTH

"The torch has been passed to a new generation. . . born in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage – and unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed . . .

With a good conscience our only sure reward, with history the final judge of our deeds, let us go forth to lead the land we love, asking His blessing and His help, but knowing that here on earth God's work must truly be our own."

JOHN F. KENNEDY

# Protecting What Matters Most

# American Perspective Since 9/11

- Citizens, Industry, and Government Cooperation
- Every One Must Get Involved
- Homeland Security National Strategy
- Integrated Public / Private Solutions are the Key
- The Threat Is Real - Long Term Problem

**“History has called our nation into action. History has placed a great challenge before us: Will America – with our unique position and power – blink in the face of terror, or will we lead to a freer, more civilized world? There’s only one answer: This great country will lead the world to safety, security, peace and freedom.”**

**GEORGE W. BUSH, President  
June 6, 2002**
