

Transforming Defense

Office of Force Transformation

- *The Role of Defense in National Security*
- *The Management of Defense*
- *The Force*

As National Strategy

As Corporate Strategy

As Risk Management Strategy

Vision: Broad and Sustained Competitive Advantage

Arthur K. Cebrowski, Director, Force Transformation

Transforming Defense

...A description

Office of Force Transformation

Elements of Transformation

- ☑ Continuing process
- ☑ Creating/anticipating the future
- ☑ Co-evolution of concepts, processes, organizations, and technology
- ☑ New competitive areas/competencies; revalued attributes
- ☑ Fundamental shifts in underlying principles
- ☑ New sources of power
- ☑ Broadened capabilities base

- *New strategic context*
- *Broadened threat context*
- *Technological threats facilitated by falling barriers to competition*

- *As National Strategy*
- *As Corporate Strategy*
- *As Risk Management Strategy*

Vision: Broad and sustained competitive advantage

Transforming Defense

...Compelling need

Office of Force Transformation

New strategic context

New Theory of War based on information age principles and phenomena
New relationship between operations abroad and homeland security
New concept/sense of security in the American citizen

Broadened threat context

State/Non-State
Nodal/Non-nodal
Symmetric/Asymmetric
Traditional/Unrestricted

New technological threats facilitated by the falling barriers to competitive entry

Immediate accessibility to highly capable low cost IT
Opens key operational domains to competition: space, sea, cyberspace

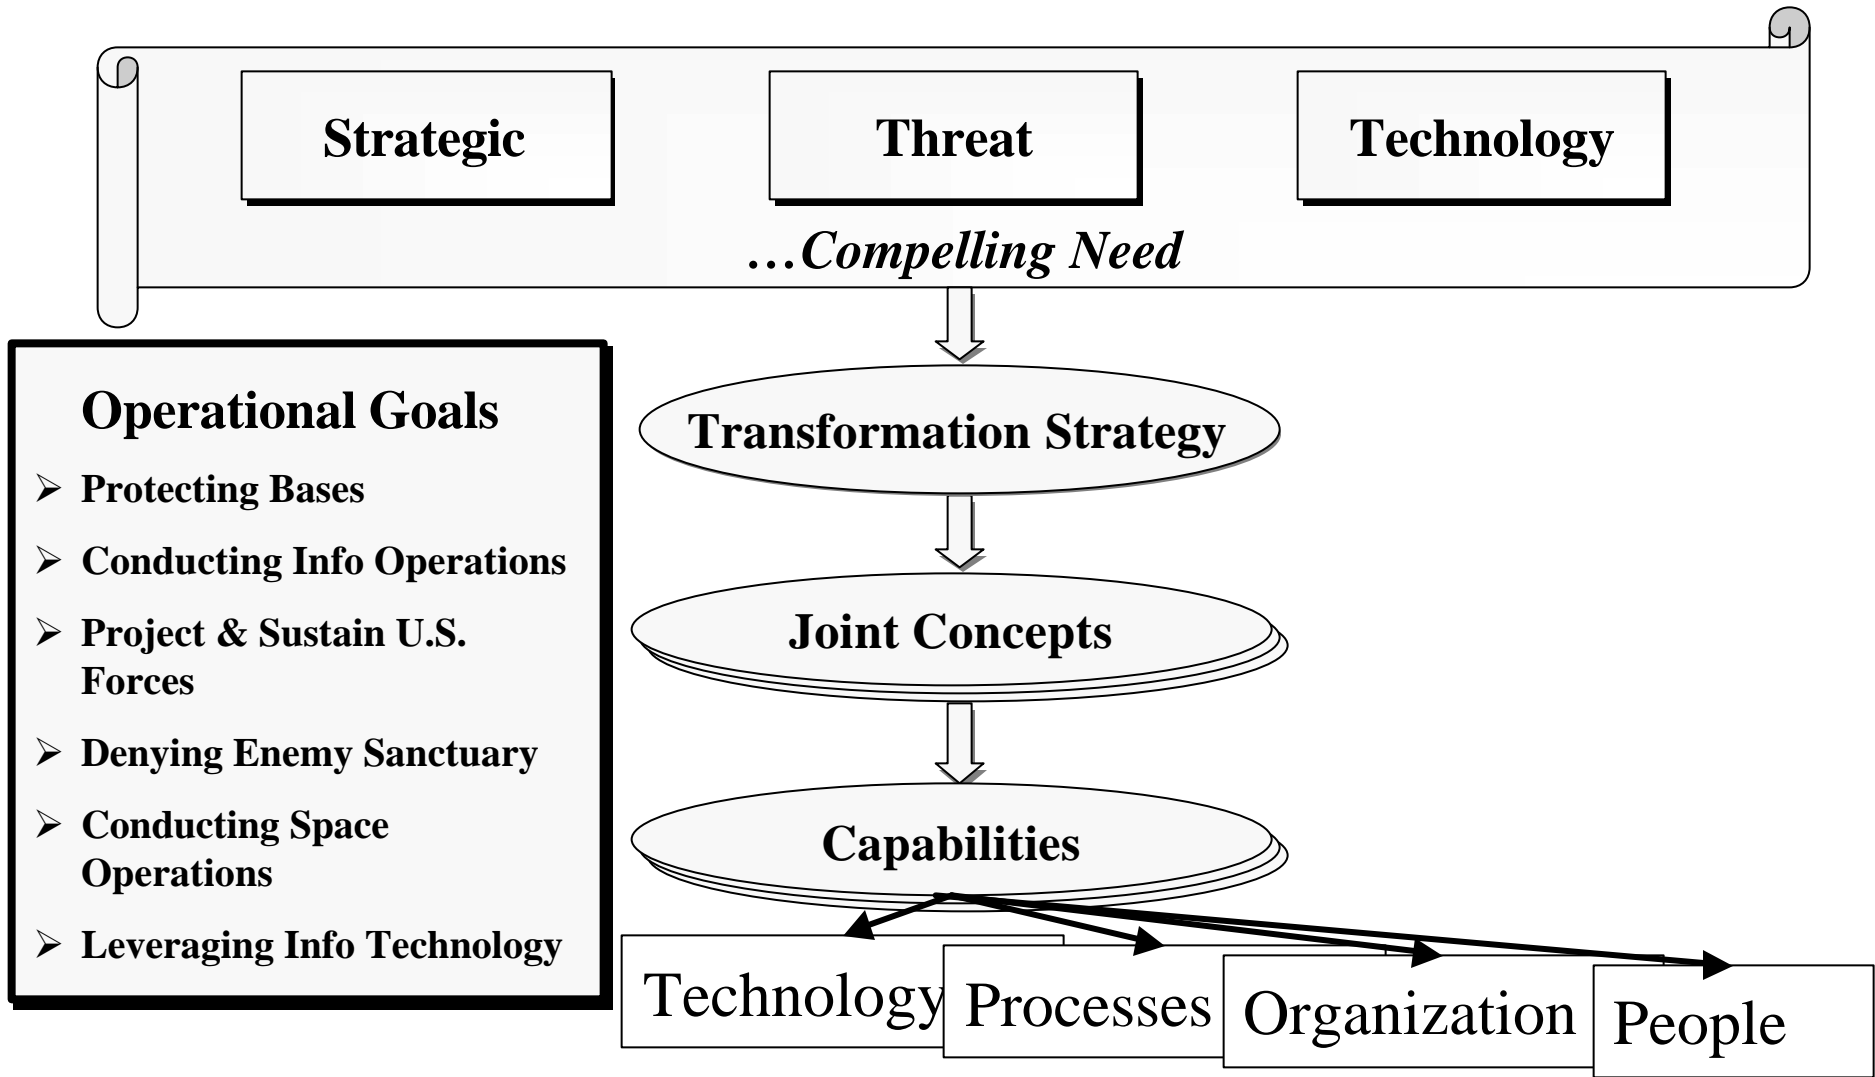

To the extent we do not transform, we are at risk

Transforming Defense

... Methodology

Office of Force Transformation

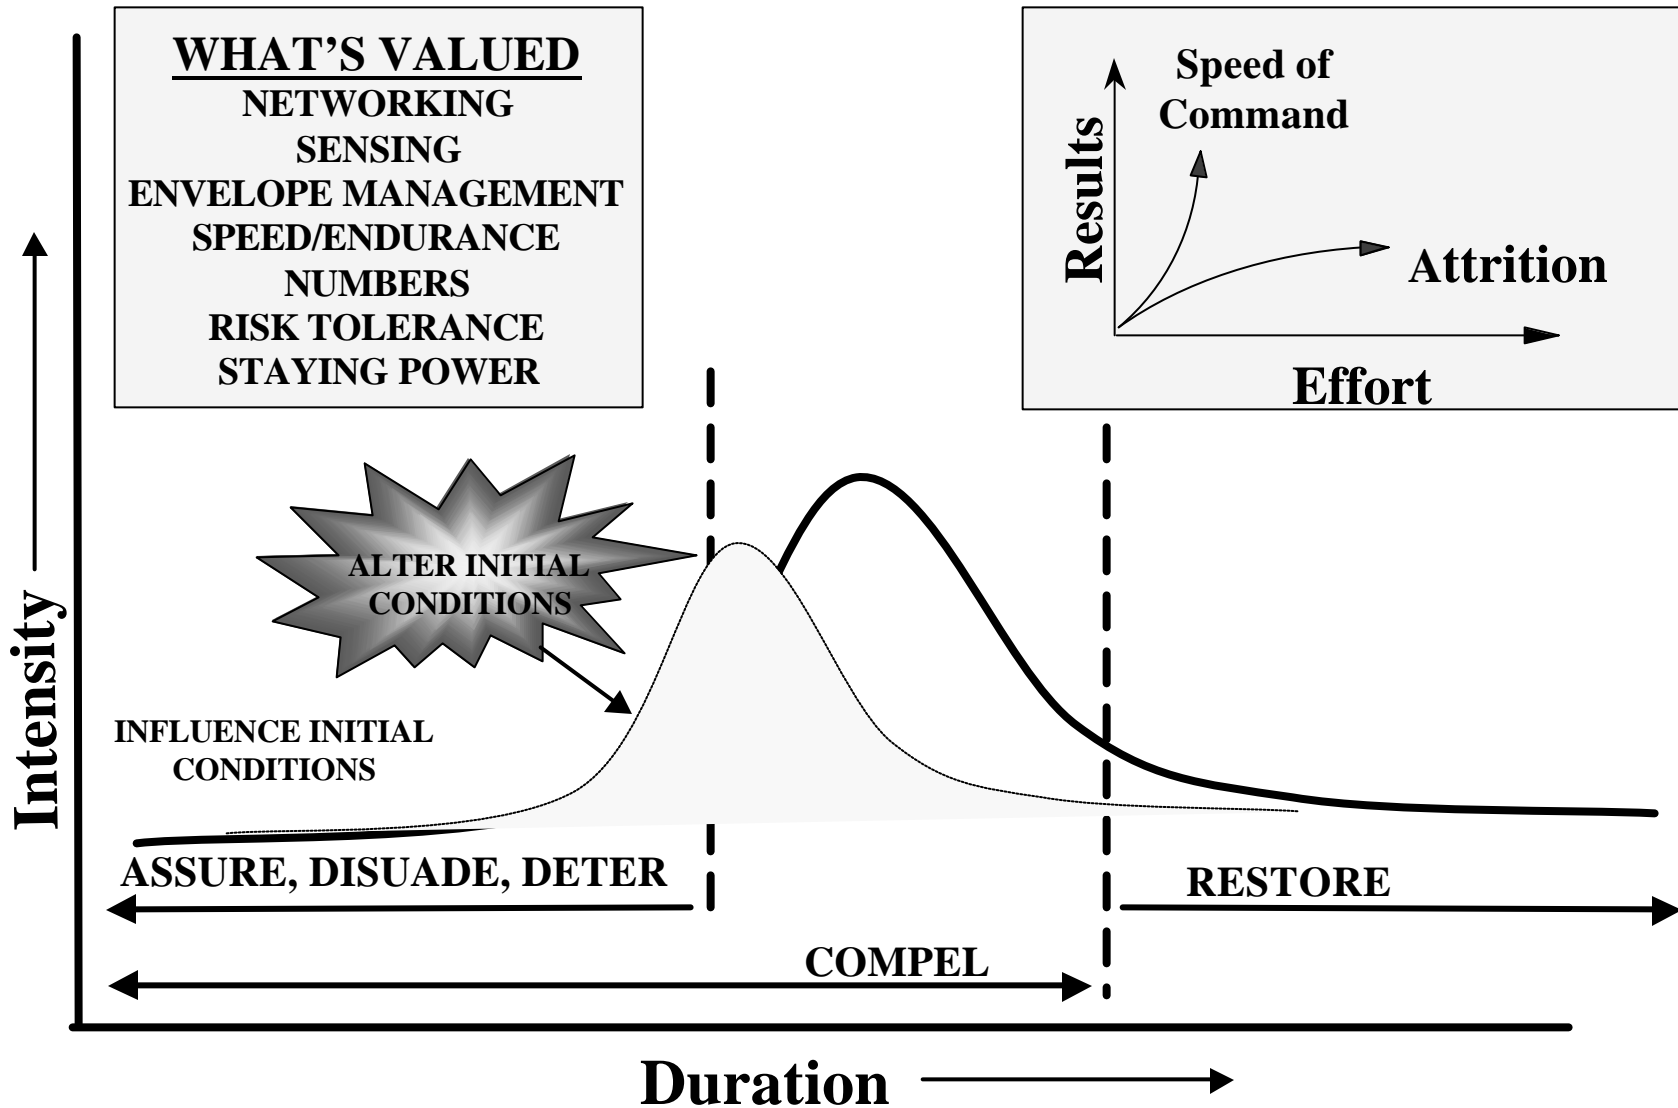

Transforming Defense

...deter forward...or defeat with modest reinforcement

Office of Force Transformation

Transforming Defense

...Strategic Issues

Office of Force Transformation

Strategic Maneuver/Balance

Forces forward
Strategic deploy from home
Allies

Operational Maneuver

From forward garrison
From the sea
From strategic distances

Deter Forward

2d derivative force
Sustaining force
Constabulary/Nation-building force

Network-Centric Warfare

Office of Force Transformation

Based on human behavior

Translates an information advantage into a competitive advantage.

Derives power from robust networking of geographically dispersed forces.

Characterized by:

Shared battlespace awareness,
Shared knowledge of commanders intent,
Self-synchronization, speed of command, and rapid lock-out.

*If you're not interoperable, you're
not on the net
not contributing
not benefiting
Not part of the information age!*

Chains versus Networks

Office of Force Transformation

Chain

Too brittle, simple pattern, simple control, scaled

“business end” most poorly connected, hard to reconfigure or change flow

Network

Very robust, complex pattern, complex control, scale free

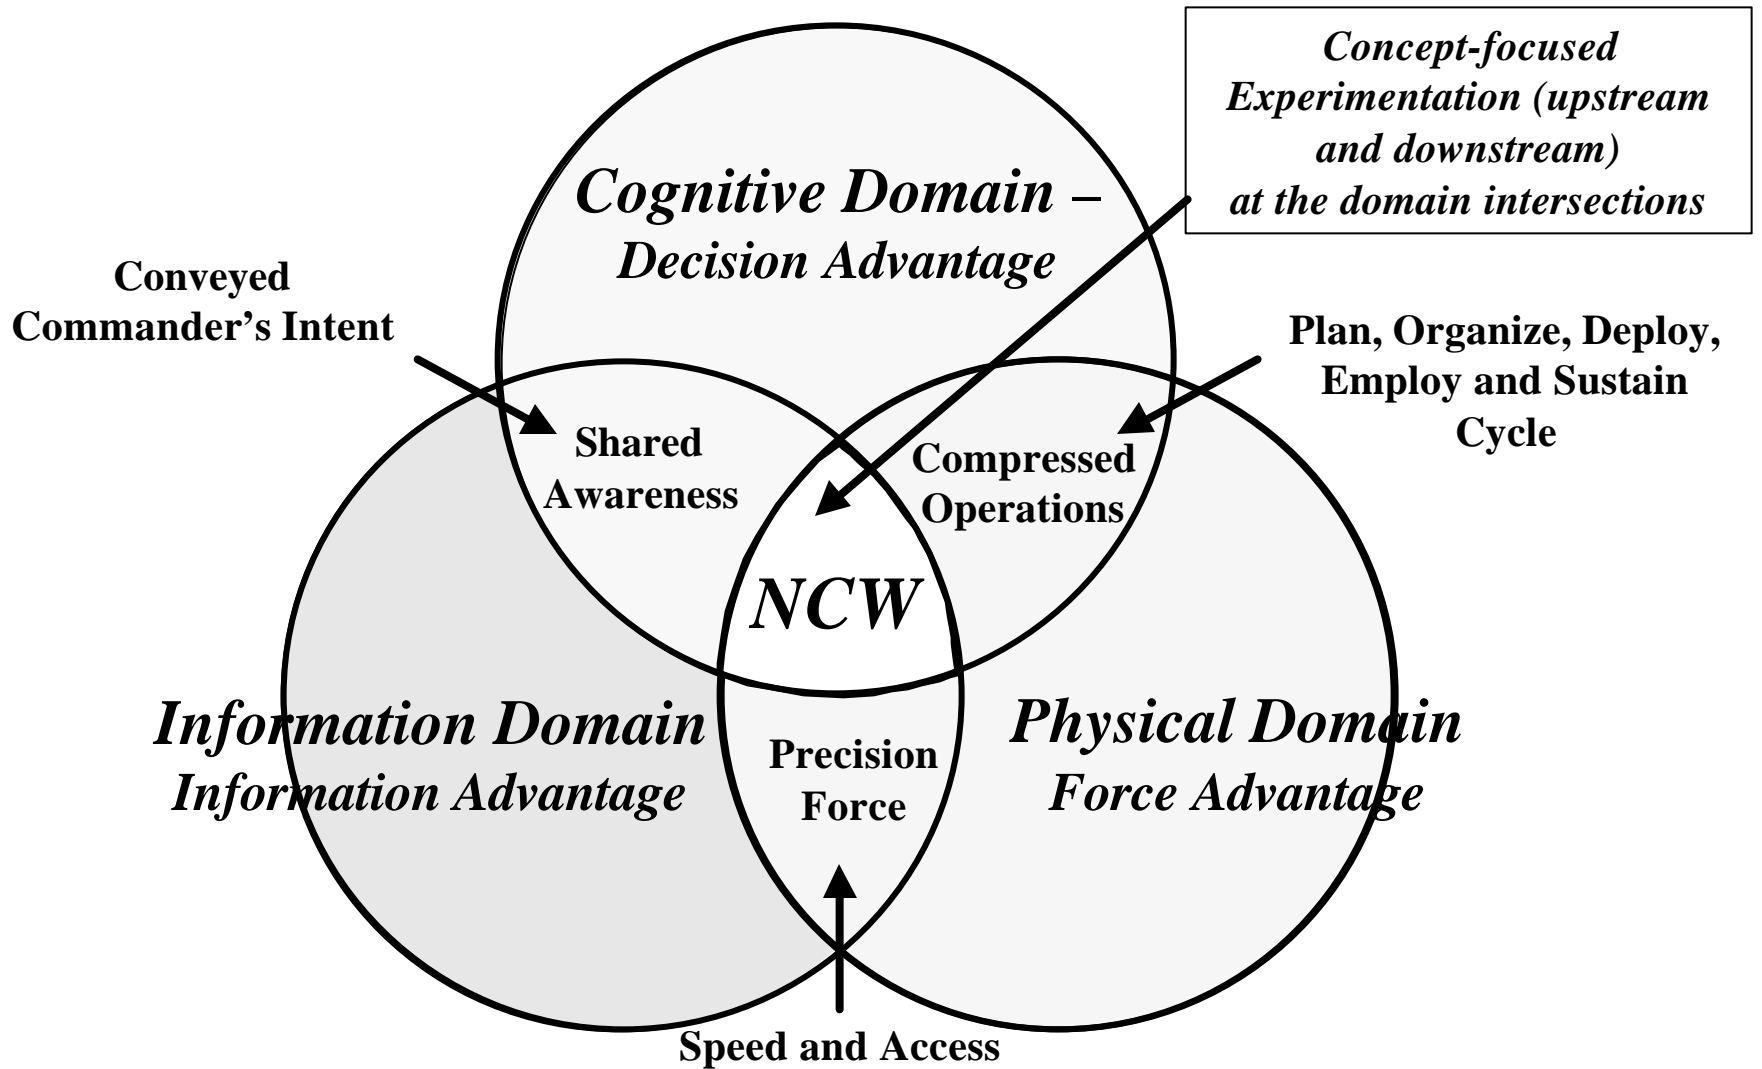

“business end” best connected, natural to reconfigure or change flow

Information-Age Warfare

... Domains of conflict

Office of Force Transformation

Transforming Defense

...*The new American Way of War*

Office of Force Transformation

The New Rules

- Fight first for information superiority
- Speed of command
- Access to information-shared awareness
- Dispersed forces-noncontiguous operations
- Demassification
- Elimination of process lines
(eg. organize, deploy, employ, sustain, ops, intel, logistics)
- Elimination of structural lines
(eg. Joint ops at the small unit level)
- Dynamic self-synchronization
- Alter initial conditions
- Develop high rates of change
- Compression of levels of war

NETWORK CENTRIC WARFARE

HIGH RATES OF CHANGE
CLOSELY COUPLED EVENTS
LOCK IN/OUT
SPEED OF COMMAND
SELF SYNCHRONIZATION

WHAT'S VALUED

NETWORKING
SENSING
ENVELOPE MANAGEMENT
SPEED/ENDURANCE
NUMBERS
RISK TOLERANCE
STAYING POWER

Transforming Defense

... General Observations

Office of Force Transformation

The Emerging American Military:

- *More expeditionary (including lighter, more lethal)*
- *More networked (more interoperability at the JTF level)*
- *Designed to leverage the exterior positions (precision from distance as sensors move in)*
- *Leverages increasingly persistent ISR*
- *Tighter sensor-shooter timelines (sensing, C2, fly-out)*
- *Values Information Superiority (information operations)*
- *Expanded unmanned capabilities
(UAV, UCAV, UUV, robotics)*

Transforming Defense

... What's needed

Office of Force Transformation

A Military Force which:

- *Is more preventative, and less punitive*
- *Can determine unambiguous warnings sooner*
- *Is ISR – intensive, especially for counter - WMD*
- *Is more SOF - like*
- *Develops extensive local knowledge*
- *Can down shift to match threat*
- *Is less reliant on guard and reserves for foreign wars*

Transformation Implementation

...*Two-front Strategy*

Transforming Defense

...Elements of strategy

Office of Force Transformation

Transform from Industrial Age to the Information Age
Implement Network Centric Operations

Ensure sustained competitive advantage

Assure Allies

Dissuade competitive entry

Underwrite deterrence

Implement countervailing strategies

Broaden the capabilities base

Operational, Technical, Industrial

Create new competitive areas

Revalue competitive attributes for the information age

Decrease capabilities cycle time

Leverage U.S. advantages and opportunities

Manage the devolution of “sunset” capabilities and processes

Achieve Speed and Agility vice Optimization

Violence in the Globalization Era

Office of Force Transformation

But most of system's
power and competition
are up here . . .

- Economics races ahead of politics
- Technology ahead of rules
- Potential threats ahead of realized
- Vulnerabilities ahead of robustness

Governance Gap

. . . and most of the
violence and "threats"
are down here

Containment Globalized?**

System Perturbation

Office of Force Transformation

- An international security order thrown into a state of some confusion by a perversely shocking development centered somewhere in the globalized economy.
- This “vertical” shock generates an outflow of “horizontal” waves whose cascading effects cross sectoral boundaries, which may not dampen but amplify
- In this outflow process, seemingly every rule set is somehow disturbed, knocked out of equilibrium, or intrinsically rearranged.
- This *fluxing* of the system is temporary, but path dependent and chaotic.
- Endstates encompass the return of old rules, the rise of entirely new rule sets, and the merging of old and new.

The System Perturbation

Competitive Advantage

...New sources of power

Office of Force Transformation

Information Advantage – Create new source of power with order of magnitude improvements in information sharing (Common Relevant Operational Picture)

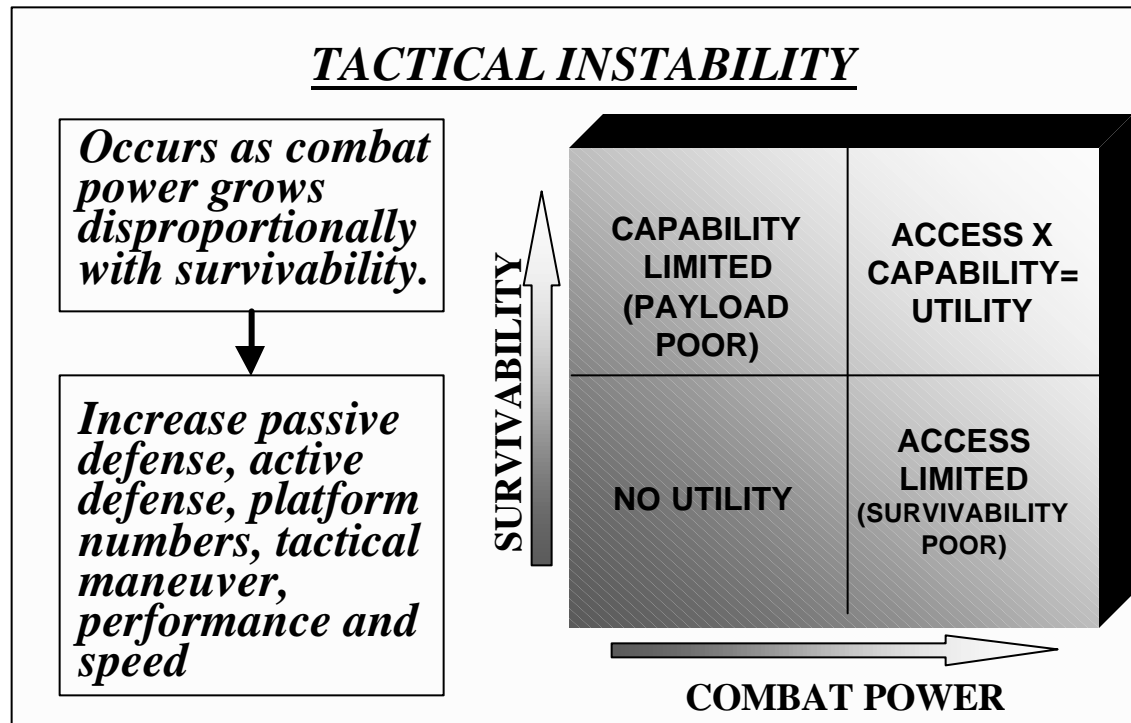

Competitive Advantage

...New sources of power

Office of Force Transformation

Physical Advantage – Gaining Advantage in force, space and time (physical expression of the impact of the information-age)

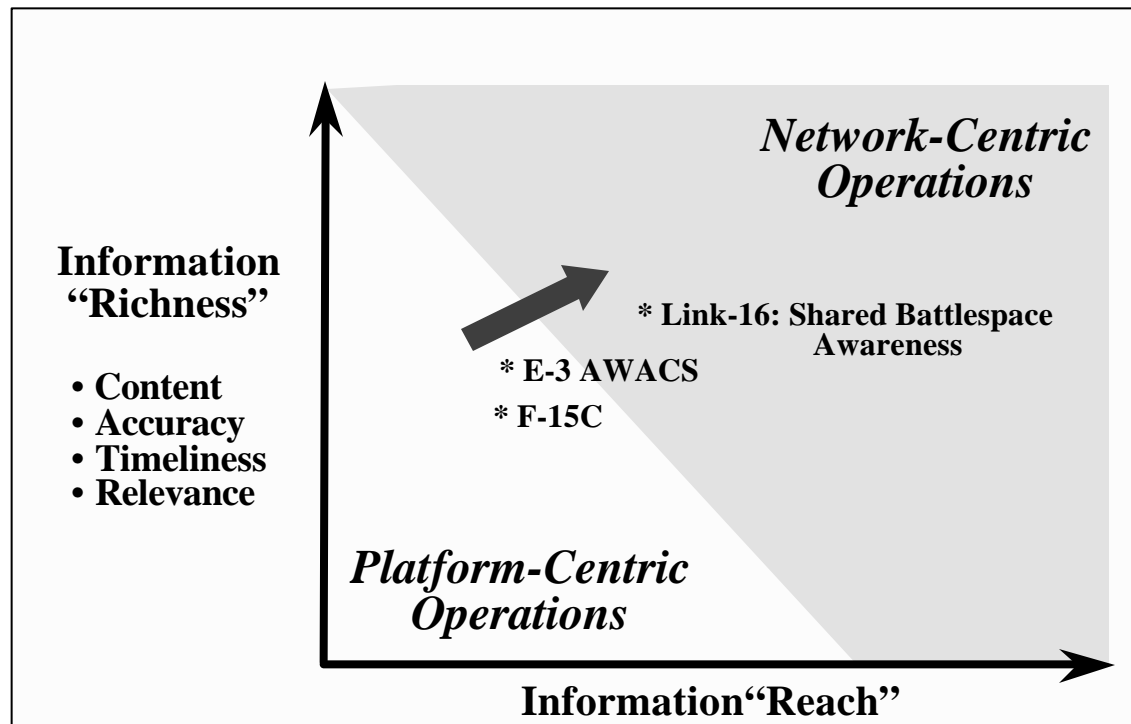

Competitive Advantage

...New sources of power

Office of Force Transformation

Decision (Cognitive) Advantage – Self-synchronization, collaboration, coordination, precision of desired effects, “lock-out” to deny adversary the opportunity to compete, speeding up the “kill chain” to strike time-critical targets, enabling new TTP

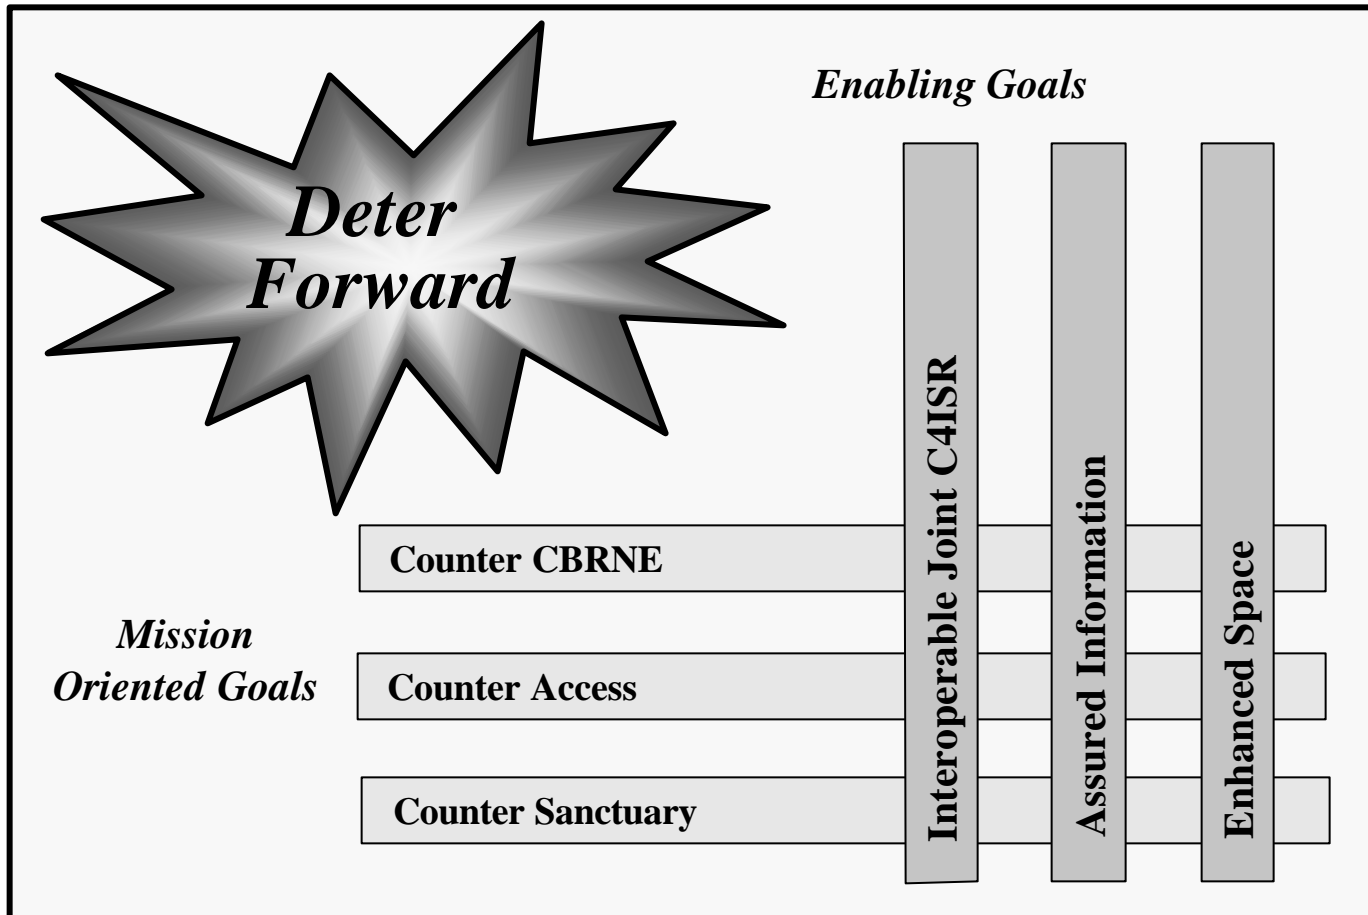

Transforming Defense

...as national security strategy(QDR)

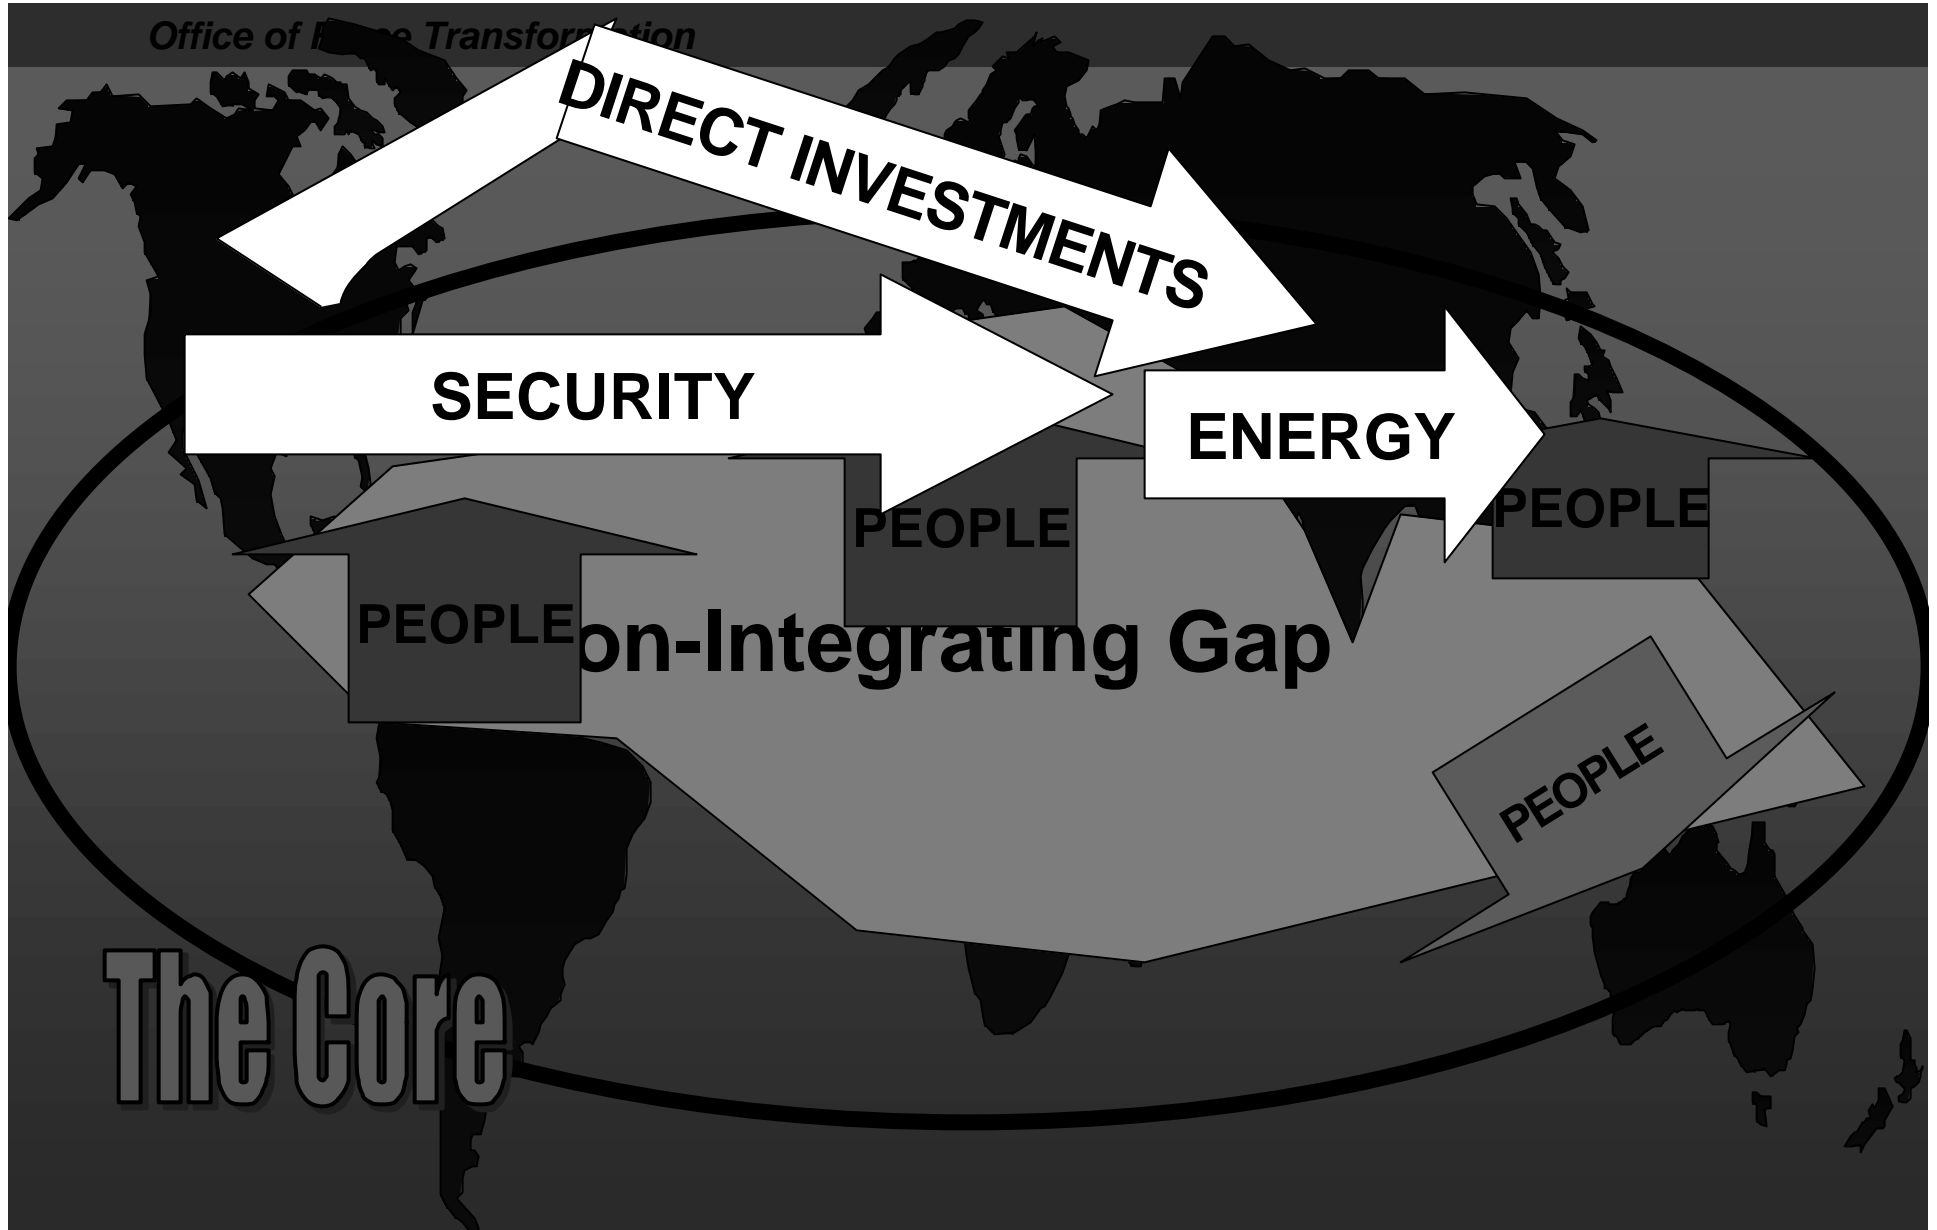

Office of Force Transformation

Transformation must...be focused on emerging strategic and operational challenges and the opportunities created by these challenges. Six operational goals provide the focus for DoD's transformation efforts."

Transforming Defense

...Corporate strategy

Office of Force Transformation

The Department's efforts fall into three categories

- ***Incremental capability enhancements generally termed “modernization”***
- ***Significant capability improvements within the current American Way of War (medium jumps)***
- ***New rule sets that leverage new sources of military power creating a new American Way of War (big bets)***

Create a new game with new rules

Wither Transformation?

Office of Force Transformation

- Rest of the world changes more than the U.S.
- Private sector changes more than the public sector
- Rest of U.S. Government changes more than DoD
- DoD changes more in the way it relates to the rest of the world than how parts within DoD relate to one another (*the new “jointness” is inter-agency and beyond*)
- DoD operations change more than the stuff we buy
