Stars Fell On

A large, olive-green tactical wheeled vehicle with multiple axles and a turret-like structure on top, parked in a desert landscape with rocky hills in the background. The vehicle is the central focus of the image.

**TACTICAL WHEELED VEHICLE
CONFERENCE**

LTG John S. Caldwell, Jr.

**Military Deputy to the Assistant Secretary of the Army
for Acquisition, Logistics, and Technology**

January 28, 2003

“We have set an ambitious timeline for FCS and the Objective Force. But our legacy processes will not serve us well - - we know that. We can no longer take concepts to final form, present them for acceptance, and then go back to work out the kinks - - that takes time, energy, and money.” - General Eric Shinseki , CSA

NO TIME TO KILL

THERE IS

- **FCS ACE**: the primary means of managing, developing, and testing the new FCS designs – if we don't use it, we won't make it by 2008!
- The **tools** are **available now!** **Get involved and use them!**
- **Use it or be left behind!** We will field FCS and the Objective Force with or without you...**because....**
