Common Use Tools Committee (CUTC) of the DoD DMSMS Working Group

DoD DMSMS Workshop

Presented by Cathi Crabtree

12/15/05

Outline

- – CUTC Members
- – Roles and Responsibilities
- – Purpose

CUTC Members

- Kris Krueger, Air Force
- Frank Stonestreet, AMSAA
- Nicole Margrif, RDECOM-TARDEC
- Julie Smith, RDEC
- Paul Ngo, DISA
- Alan Clark, DLA
- Tony Monteleone, DLA (DORRA)
- Wes Trunnell, DMEA
- Cathi Crabtree, NSWC Crane
- John Tilton, NUWC Keyport
- Raymond Tadros, NSWC Corona
- Ric Loeslein, NAVAIR
- Ron Wong, Karta
- Rod Tafoya, Marine Corps
- David Waits, FAA

3

Roles and Responsibilities

- Roles and Responsibilities are currently being updated to support the move to the DKSP, but roughly will include:
  - Provide a technical review of current and pending capabilities instruments and determine usefulness/applicability to the DoD user
  - Identify any gaps, i.e. features that would be beneficial for reference within the DKSP but which are not contained in any capabilities instruments we've reviewed, and investigate new capabilities to fill these gaps
- Provide oversight of development of a taxonomy of DMSMS tools and databases
  - Mapping of known capabilities against this taxonomy
  - Ongoing process
- Stay apprised of Shared Data Warehouse progress and plans
- Report to the DoD DMSMS Working Group

Purpose

- Support the DKSP philosophy
  - Facilitate <u>sharing</u> and <u>collaboration</u> of the knowledge and resources needed to resolve obsolescence challenges
  - Leverage off what the various CUTC members are doing to strengthen available DMSMS services
  - Provide resources to those who are just getting started

Contact Us

- If you have ideas, recommendations, questions, lessons learned, etc., contact any one of the CUTC members to share them
