

# INTEGRATED DEEPWATER SYSTEM (IDS)

*Expeditionary Warfare Conference*

*25 October 2005*

RADM Patrick M. Stillman  
Program Executive Officer

Homeland  
Security

**DEEPWATER**

# Agenda

**Securing the Maritime Domain**

**National Strategy for Maritime Security**

**Reduced Maritime Risk**

**The Multimission Coast Guard**

**Integrated Deepwater System**

**Meeting the Threat in the World's Littorals**

**National Fleet**

**Conclusion**

**Homeland  
Security**

**DEEPWATER**

# The Threat

The 9/11 Commission concluded that “Opportunities to do harm are as great, or greater, in maritime or surface transportation,” then in other transportation sectors

The West Coast dock workers strike demonstrates an economic impact of a forced closure of U.S. ports for a period of only eight days in excess of \$58 billion to the U.S. economy.

*Adm. Thomas H. Collins, Commandant Of The Coast Guard*

**Homeland  
Security**

**DEEPWATER**

# Rescue Operations

	29Aug L+2	30 Aug L+24	31 Aug L+48	1 Sep L+72 (L+3D)	2 Sep L+4D	3 Sep L+5D	Total as of 1200 11 Sep
<b>RESCUED</b>	3	1,256	1,600	1,141	5,000	6,655	24117
<b>HOSPITAL EVACUATIONS</b>						9,403	9,403
<b>TOTAL</b>	3	1,259	2,859	4,000	9,000	25,058	<b>33,520</b>

**92 aircraft saved**

**30 cutters and 111 small boats saved**

**12,533 people**

**11,584 people**

# The Vulnerability of the Marine Transportation System

- Over 95,000 miles of coastline
- 26,000 miles of commercially navigable waterways
- 9 million containers enter our 361 seaports
- 3,200 marine terminals
- 8,000 foreign vessels
- 50,000 port calls annually at our seaports
- \$800 billion dollars of domestic and international freight annually flow through our seaports

**Homeland  
Security**

**DEEPWATER**

# Securing The Maritime Domain

- Understand the inherent risks, threats, vulnerabilities and consequences
- Have joint plans for prevention, response and recovery
- Strategic goals should facilitate commerce while protecting the nation's maritime borders

**Homeland  
Security**

**DEEPWATER**

# National Strategy for Maritime Security

## High-Level Objectives (DOD/DHS)

- Prevent terror attacks and criminal or hostile acts
- Protect population centers and critical infrastructure
- Minimize damage and expedite recovery
- Safeguard the ocean and its resources

## Five Strategic Actions

- Enhance International Cooperation
- Maximize Domain Awareness
- Embed Security into Commercial Practices
- Deploying Layered Security
- Assure Continuity of the Marine Transportation System

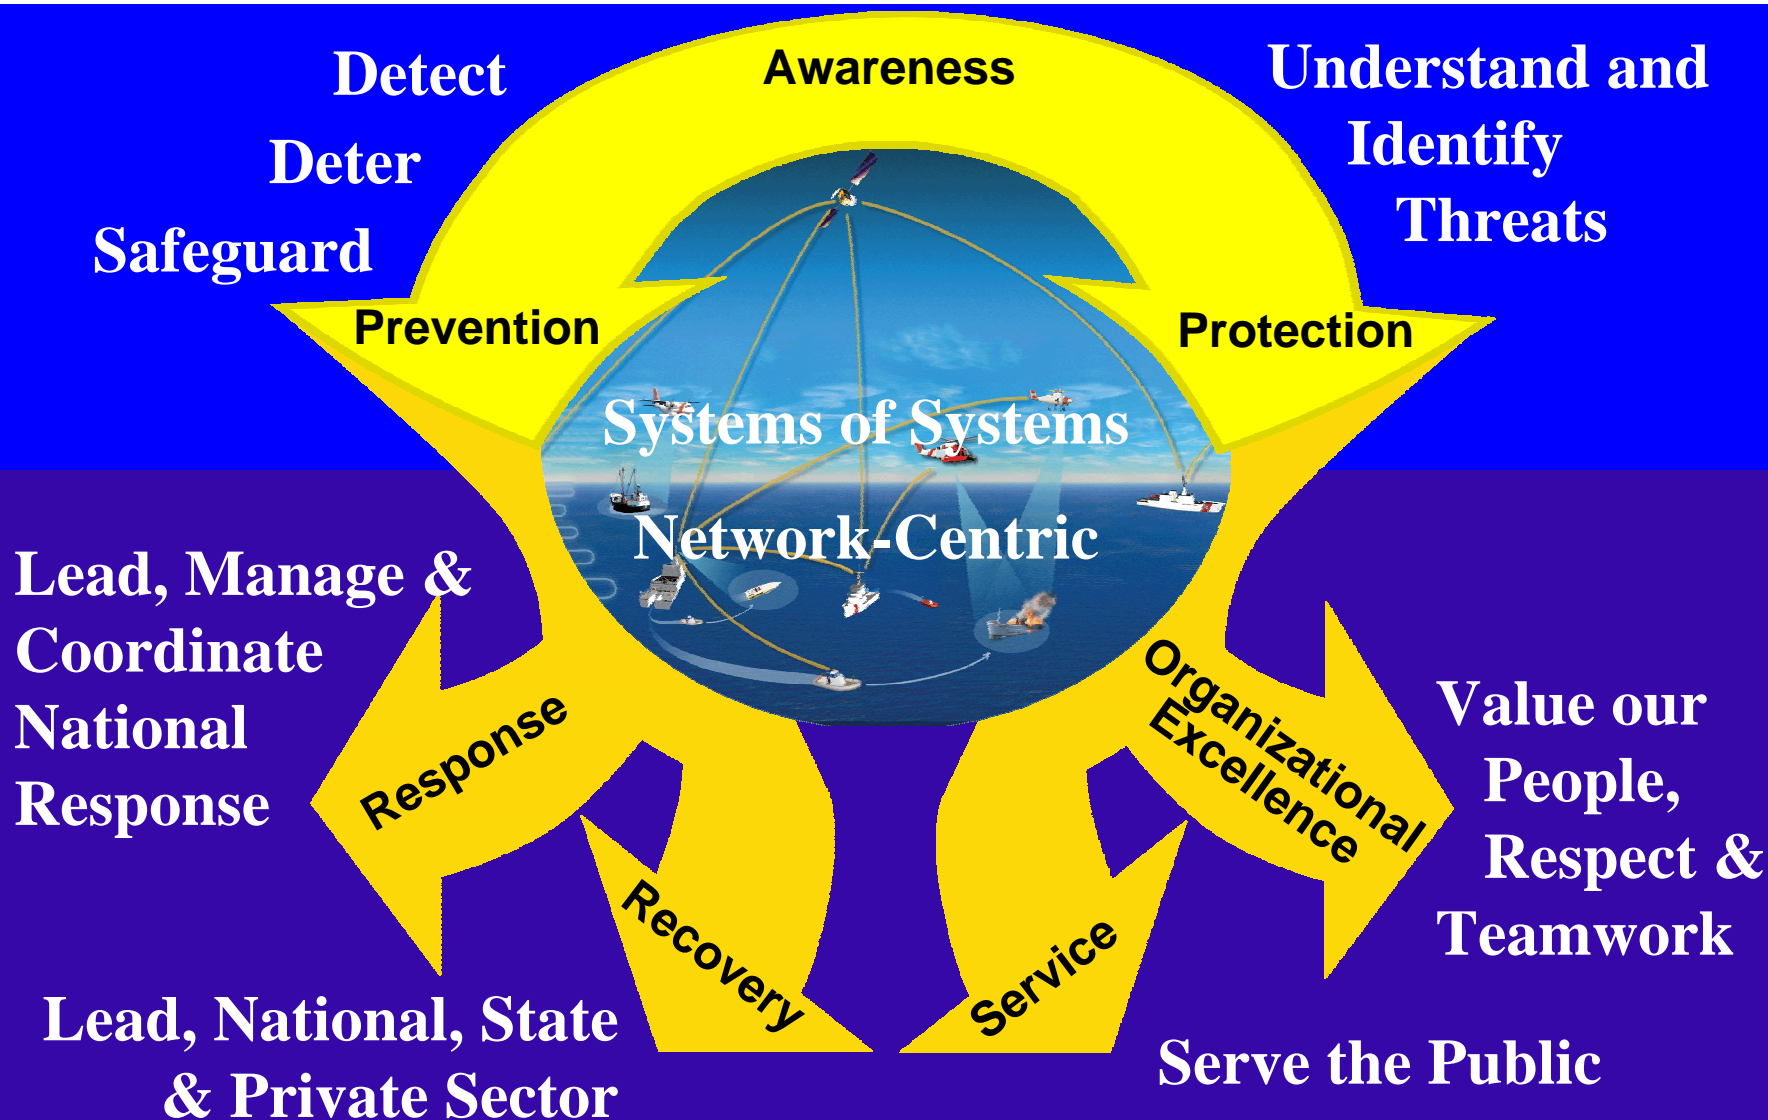

**Homeland  
Security**

**DEEPWATER**

# DHS Strategic Plan

# Reduced Maritime Risk

DHS Strategic Goals

Awareness

Prevention

Protection

Response/Recovery

## *Coast Guard Maritime Security Strategy*

Enhance  
Maritime  
Domain  
Awareness

**FY 2006 "MDA"  
initiatives**

- **Deepwater**
- Automatic Identification System (AIS)
- Common Operational Picture (COP)
- Maritime Patrol Aircraft (MPA) Gap Reduction
- H-C130J Missionization
- Rad/Nuc

Comprehens  
ive Maritime  
Security  
Regime

**"Security Regime"  
initiatives**

- **Deepwater**
- Maritime Transportation Security Act (MTS (Annualization)
- International Ship and Port Security Code (ISPS)

Increased  
Operational  
Presence

**"Operational Presence"  
initiatives**

- **Deepwater**
- Airborne Use of Force
- Cutter Boat – Over the Horizon
- Response Boat – Small/LNG Security
- Response Boat – Medium
- E-MSST

Enhanced  
Response  
Posture

**"Response/Recovery"  
initiatives**

- **Deepwater**
- Rescue-21
- High Frequency Communication Recapitalization
- Airborne Use of Force
- Rad/Nuc
- E-MSST

**(U.S. Coast Guard FY 2006 Initiatives)**

Homeland Security

# USCG: “Straddling The Seam”

Homeland Security ← → Homeland Defense

## Integrated Deepwater System

## FORCEnet

- The Coast Guard is the one organization that straddles the seam between the twin mission areas of homeland security and homeland defense
- It is at the confluence of Coast Guard authorities, law-enforcement competencies, interagency experience, and military functionality where threats can be identified and dealt with
- Improved Deepwater platforms and systems will serve as the Coast Guard’s means for satisfying its responsibilities to both the Department of Homeland Security and the Department of Defense

# USCG Expeditionary Support to Combatant Commanders

- Littoral Ops
- MIO/Law Enforcement
- Port and Force Security
- Aids to Navigation
- Environment Response
- International Engagement

**"Coast Guard patrol boats are highly maneuverable, fast, multimission vessels able to operate in shallow water and are therefore especially well-suited for operations in the Northern Arabian Gulf."**

*VADM David C. Nichols Jr., USN Commander , Commander, U.S. Fifth Fleet 2004*

**Homeland  
Security**

**DEEPWATER**

# Coast Guard Cutters Forward-Deployed with Navy Fleets:

- Fifth Fleet in the Arabian Gulf/Middle East
- Sixth Fleet in the Mediterranean
- Seventh Fleet in the Western Pacific

**Coast Guard cutters conduct maritime-intercept operations, carry out peacetime-engagement missions, and perform other essential expeditionary warfare tasks**

**Homeland  
Security**

**DEEPWATER**

# Operation Iraqi Freedom

Coast Guard High Endurance Cutter BOUTWELL and Dallas were deployed to the Arabian Gulf/Middle East perform essential warfare tasks.

Coast Guard units were “employed around the clock ... the first line of defense” for coalition naval forces.

The Coast Guard has currently deployed four 110-foot cutters with support from Reserve Machine Technicians.

VADM Timothy J. Keating, USN  
Commander, U.S. Fifth Fleet  
2003

The Coast Guard has three Ports Security Units and two Mobile Support Units deployed in the M.E.

# Integrated Deepwater System:

- Three classes of new cutters and associated small boats
- Manned and unmanned aircraft conversion, modernization, replacement
- Network-centric Command, Control, Communications, Computers, Intelligence, and Reconnaissance (C4ISR)
- Integrated logistics support
- Improved capabilities for high-threat operations

Deepwater, a layered maritime defense

**Homeland  
Security**

**DEEPWATER**

# System of Systems – Network-Centric

**An innovative, interoperable network-centric system for command C4ISR improvements to harness the power of an interoperable network to improve performance in all mission areas, to *improve maritime domain awareness* and provide a *common operational picture***

**Homeland  
Security**

**DEEPWATER**

Homeland  
Security

# Maritime Domain Awareness The Deepwater C4ISR Contribution

Maritime Domain Awareness is the **effective understanding** of **anything associated with** the global maritime environment that could impact the **security, safety, economy, or environment** of the United States.

The Deepwater C4ISR system is a network-centric system designed to ensure seamless interoperability

- Shared tracks and real-time data streams.
- On-line intelligence.
- Robust and seamless connectivity and continuous coordination.
- Stand-alone capability.
- Supplemented by active and passive sensors.
- Expanded area of surveillance and detection areas.
- Improved communications with all federal, state and local agencies and merchant shipping.

Operational effectiveness enhanced by common maritime operational picture

# Post-9/11 Implementation Plan

**Addresses the Coast Guard's dual challenges of legacy-asset deterioration and performance gaps by:**

1. Revised plan will enable the Deepwater Program to make more significant contributions to improved information sharing, collaboration, and interoperability in the maritime domain—essential capabilities to attain higher levels of maritime domain awareness (MDA)
2. Modifying the original assets that would have been delivered by the Deepwater project to incorporate improved post-9/11 capabilities
3. Retaining, upgrading, and converting aviation legacy assets (C-130s, H-60s, H-65s) as part of the final asset mix
4. Advancing the delivery of the Fast Response Cutter and Offshore Patrol Cutter.
5. Deliver more capable operating assets for the Coast Guard's post-9/11 transformation to support DHS strategic goals and to reduce maritime security risk

**“A 21<sup>st</sup> Century Coast Guard”**

**Homeland  
Security**

**DEEPWATER**

# Deepwater Meeting the Threat in the World's Littorals

*Security management at every point of engagement...*

Intelligence-Information  
Collection &  
Sharing/MDA

Long - Range  
Surveillance/Air  
Transport

Vertical Insertion for  
Opposed Boarding

Anti-Terrorism/Force  
Protection

**Surveillance    Detection    Identification    Classification    Prosecution** 

CG/DHS/DOD Common  
Operational Picture

DOD Interoperability,  
Deployment Capabilities

Enhanced CBRNE Detection  
and Defense Capability

Airborne Use of Force

*Regional conflicts, transnational threats to U.S. commerce and national security, require improved U.S. sea-basing capabilities*

- State-of-the-art C4ISR
- Upgraded capabilities for GWOT
- Hull 1 Keel Laid 29 March 2005
  - Hull #1 30% complete
- Hull 2 Start Fab October 2005
- Funds for 3<sup>rd</sup> hull in FY06 budget

NSC with Complement of Short Range Prosecutor (SRP), Long Range Interceptor (LRI), Vertical Takeoff Unmanned Aerial Vehicle (VUAV), MH-65C Multi-Mission Cutter Helicopter (MCH), and C4ISR.

## National Security Cutter (NSC) Contribution to the Homeland Shield

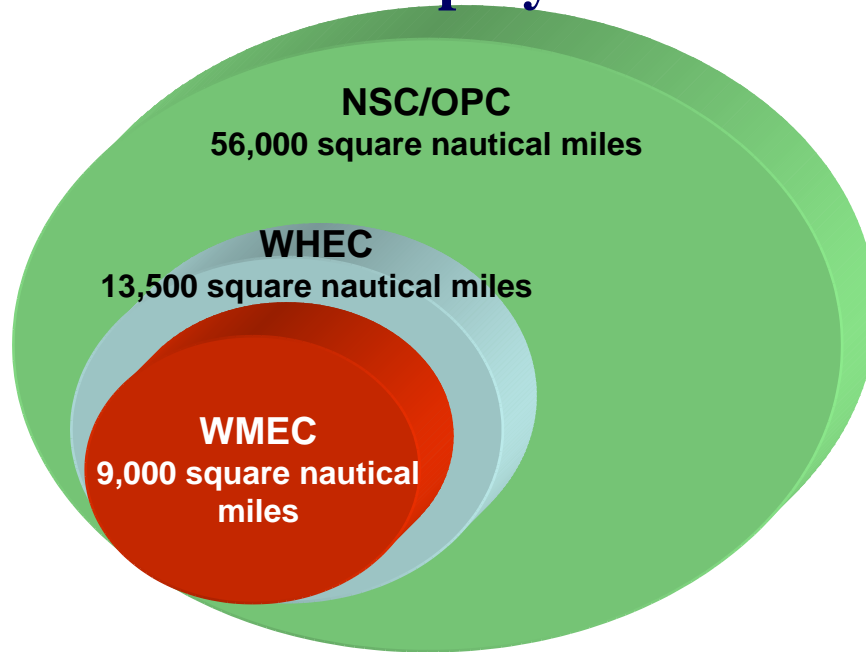

**Homeland  
Security**

**DEEPWATER**

# Total Daily Search Potential for Force Package of Cutter and Deployed Air Assets

## Total Daily Search Area

**National Security Cutter (NSC)/Offshore Patrol Cutter (OPC)**  
Force package includes:  
1 cutter on station for 24 hours  
1 short-range helicopter (MCH) with 4 flight hours  
2 VUAV with 12 flight hours total

**WHEC (378)** Force package includes:  
1 cutter on station for 24 hours  
1 short-range helicopter (HH-65) with 4 flight hours

**WMEC (270/210)**  
Force package includes:  
1 cutter on station for 24 hours  
1 short-range helicopter (HH-65) with 4 flight hours

# National Fleet: A “Joint” Policy Direction

- Navy/USCG supports collaboration, to achieve the highest level of naval and maritime operational integration for improved maritime security
- New U.S. National Strategy for Maritime Security calls for a *fully coordinated federal effort* to protect U.S. interests in the maritime domain

**“Current USCG acquisition efforts such as the Deepwater Program will greatly enhance the interoperability between USCG and USN units in the CENTCOM AOR.”**

GEN John Abizaid, USA Commander, U.S. Central Command 2005

**Homeland  
Security**

**DEEPWATER**

# Navy-Coast Guard Cooperation CNO Guidance for Fiscal Year 2006

- **Develop closer working relationships with the U.S. Coast Guard and other agencies to improve:**
  - National security
  - Homeland defense
  - Maritime domain awareness
  - Synergy and cost effectiveness
- **Develop adaptive force packages and flexible deployment concepts for blue water and littoral environments**
- **Align with the National Fleet policy and National Strategy for Maritime Security**

**Navy and U.S. Coast Guard work cooperatively to improve homeland defense and national security through increased synergy and cost effectiveness.**

**Homeland  
Security**

**DEEPWATER**

# **Integrated Deepwater System Building a 21st-Century Coast Guard**

- **Improved system-wide capacity and capabilities for post-9/11 missions**
- **Far more capable cutters, manned and unmanned aircraft, robust C4ISR**
- **Key enabler for USCG implementation of National Strategy for Maritime Security and National Fleet Policy**
- **Interoperable C4ISR: Better Maritime Domain Awareness, Common Operating Picture**
- **Closes "capability gaps" to reduce risk in the maritime domain**
- **Improved readiness, performance, and safety**
- **Important implications for mission support to Combatant Commanders**
  - **Expeditionary Warfare**
  - **Homeland Defense/Security**
  - **Improved USCG, Navy, and interagency interoperability**
  - **International engagement**

**Homeland  
Security**

**DEEPWATER**

**CONSTRUCTION OF FIRST NATIONAL SECURITY CUTTER**

The first National Security Cutter (NSC 1) fabrication unit to be lifted into place, since Hurricane Katrina swept through the Gulf Coast, at Northrop Grumman's Pascagoula, Miss. shipyard on Monday, Oct. 17.

Construction of the NSC 1 began in September 2004 and the ship is expected to be delivered to the Coast Guard in 2008.
