

21st National Logistics Conference & Exhibition

DoD Supply Chain Integration
Challenges & Initiatives

March 1, 2005

Streamlining Material Flow

Collaborating on challenges

- Collaborative inventory management with suppliers
- Tracking retrograde return to rework
- Multi-indenture, multi-echelon decision support tools
- Business rules for “Last time, all time” buys
- Optimal allocation of items in short supply
- Responsive support to agile, expeditionary forces
- Developing allowances for operating units
- Sparse intermittent demand

Focusing on Expectations
