

# **Systems of Systems Considerations in NCO**

## **NDIA Net Centric Operations, Interoperability and Systems Integration Conference**

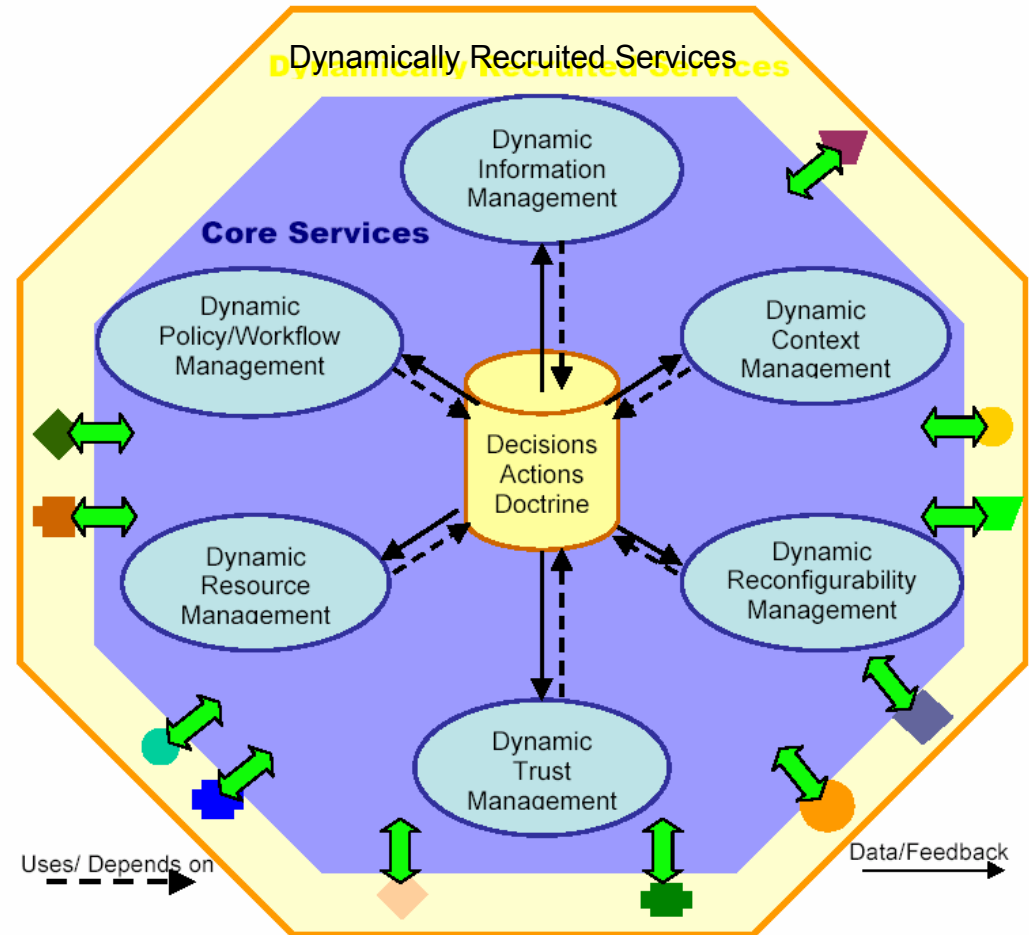

**Aaron Budgor**

**BAE SYSTEMS**

**23 March 2005**

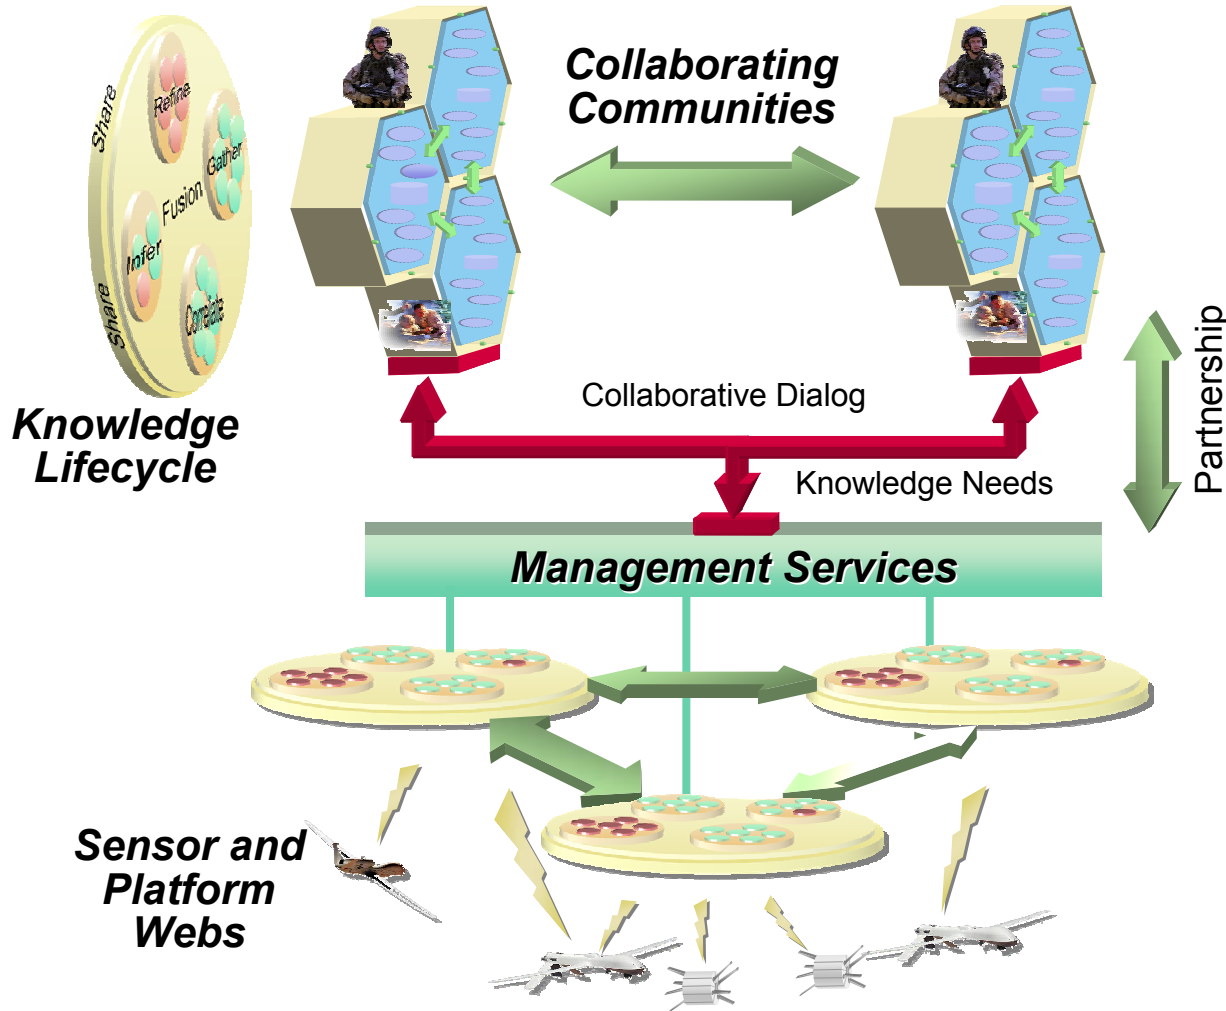

# Technology Breakthroughs Needed

- Dynamic Information Management
- Dynamic Policy Management
- Dynamic Context Management
- Dynamic Trust Management
- Dynamic Resource Management
- Dynamic Reconfigurability

# NCO CONOPS – How Might this Work?

**BAE SYSTEMS**

*Convert observations into actionable, responsive knowledge*

*Enable users to dynamically form around knowledge production, leveraging shared expertise*

*Broker observations across peer groups of sensors and platforms*

*Optimize sensors and platforms to dynamically address observation tasks*
