

Learn. Perform. Succeed.

Educational Opportunities for Industry

DAU Mission

Provide practitioner training, career management, and services to enable the AT&L community to make smart business decisions and deliver timely and affordable capabilities to the warfighter.

1. We **train** the AT&L Workforce through **certification** and **assignment-specific** courses
2. We promote career-long learning through our **Continuous Learning Center**
3. We offer **performance support** to the AT&L Workforce through consulting, Rapid Deployment Training, and targeted training
4. We facilitate **knowledge sharing** through online resources and communities of practice
5. **Provide Human Capital Strategic Planning** for the AT&L Workforce

DAU Regional Orientation

In The Spotlight

Live Systems Engineering Roundtable Discussion

Mr. Mark Schaeffer, Director, Systems and Software Engineering (OUSD (AT&L)) and senior members of his Pentagon staff are presenting an overview and discussion on progress made with revitalizing systems engineering in the Department of Defense. The presentation will focus on acquisition program support as well as new tools, guidance, education and training in the technical career field. A live roundtable discussion will address the latest systems engineering initiatives in the Department, report progress made on them, as well as highlight the challenges of reinvigorating systems engineering across all acquisition programs.

Questions from attendees and WEBCAST participants will be answered live or as soon as possible after the event. This Office of the Under Secretary of Defense (Acquisition, Technology and Logistics) WEBCAST presentation is being hosted at the Defense Acquisition University on Friday, October 13, 2006, from 12:00-1:15 pm. The live presentation will be available via [DAU Video Services](#). Due to overwhelming interest in this WEBCAST, we will only be able to grant live access to half of the activities that have requested it; consequently, the first 150 activities will be able to participate. We are requesting individuals and small groups to view this segment through video on demand starting Monday, October 16, 2006

You can also view the event in its entirety on Monday, October 16, 2006. It will be hosted on the DAU video library. The specific link will be provided as soon as the video is posted. The title for the presentation in the library will be "DoD Systems and Software Engineering: The Next Level"

November-December Defense AT&L

This issue features an interview with Deputy Under Secretary of Defense for Acquisition and Technology Dr. James I. Finley. Finley discusses, among other things, his transition from a career in private industry to a career in the DoD and what government and private industry can teach each other.

Among the other articles:

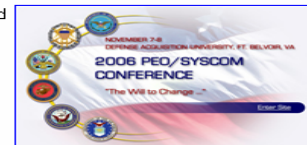

- [Lessons Learned from the Army's Largest ERP Implementation](#)
- [How Independent are Internal Auditors in DoD?](#)
- [Generation Y in the Workplace](#)
- [Rapid Deployment Capability in Action](#)

2006 PEO/SYSCOM CONFERENCE

PEO/SYSCOM - Program Executive Officers/Systems Command Commanders' Conference will be held at the Defense Acquisition University, Fort Belvoir, VA in Howell Auditorium in Building 226 on **November 7 & 8, 2006**

Sponsor: **Mr. Kenneth Krieg**, Under Secretary of Defense (Acquisition, Technology, & Logistics)
Theme: "The Will to Change..."

Attendees are Program Executive Officers/Deputies, Systems Command Commanders/Deputies, Senior Program Managers/Deputies, major acquisition support activity executive management, AT&L/NII senior acquisition management and equivalent industry representatives

Continuous Learning Center

clc.dau.mil

Welcome to the DAU Continuous Learning Center

The DAU Continuous Learning Center is a Department of Defense resource dedicated to the delivery of continuous learning opportunities supporting the Acquisition, Technology and Logistics (AT&L) workforce.

★ General Information

To contribute in fulfilling the DoD AT&L requirement for obtaining 80 continuous learning points every two years, DAU Continuous Learning Center offers a wide variety of continuous learning modules, varying from one to 12 hours in length, primarily in the following areas:

- Business
- Contracts
- Engineering and Technology
- Logistics
- Acquisition Management
- Program Management

★ Register or Browse Continuous Learning Modules

Browse	Register
To browse Continuous Learning Modules select https://learn.dau.mil/html/clc/Clc.jsp and follow instructions for accessing the module.	To register for a Continuous Learning Module, select your organization at https://learn.dau.mil/html/clc/Register.jsp and follow registration instructions.

Note: In order to receive continuous learning points (CLPs) for completing a module, you must register through the appropriate registration system. You will have access to the module as soon as you complete the registration process.

Harvard ManageMentor Modules - In order to access the Harvard ManageMentor Modules you must register for the module. The modules are not available in "Browse" mode due to proprietary considerations. Each module can be identified in the registration system by the "HBS" after the module title.
