

Maritime Domain Awareness – *Future Industry Solutions... FY10 and Beyond*

Tom Williams

4 April 2007

The Challenge

Conventional Warfare

Global War on Terror

Forward Presence

"We Need a NORAD for Maritime Forces"

Admiral Vern Clark, Former CNO

(August 15, 2002)

NORTHROP GRUMMAN

The Problem

- *Over 150,000 commercial ships*
- *80,000 involved in global trade*
- *40,000 ships within 1,000 mi of US coastline*

Enabling Technology Investment Areas

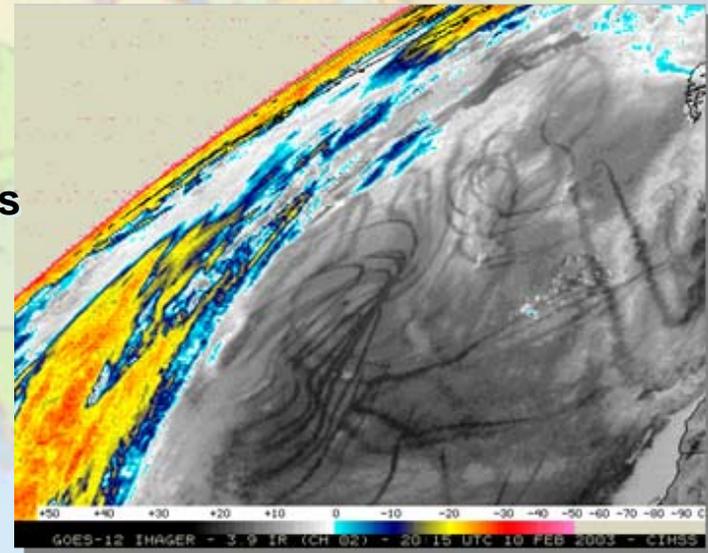

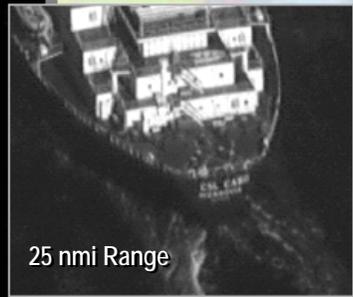

-
- *Ability To Uniquely “Fingerprint” Thousands of Large and Small Hull Commercial Ships*
 - *Fusion and Reasoning Tools*
 - *Persistent Surveillance*
 - *Cooperative Communications / Information Sharing*

"Finger Printing"

- AIS (Automatic Identification System)
- EO/IR
- Radar/Radar Emissions
- Acoustics
- Hyperspectral
- Other Unintended Emissions

- Less Uncertainty
- More Targets
- Greater Ranges
- Bearings and Tracks

"Knowing Who's Who with Certainty"

Fusion and Reasoning Tools/Algorithms

- Behavior Analysis / Pattern Recognition
- Netted and Shared Information

NOA: Ship, Voyage, Cargo, Crew

NOA: INFO, Criminal Data Bases Other Intelligence

Track Files

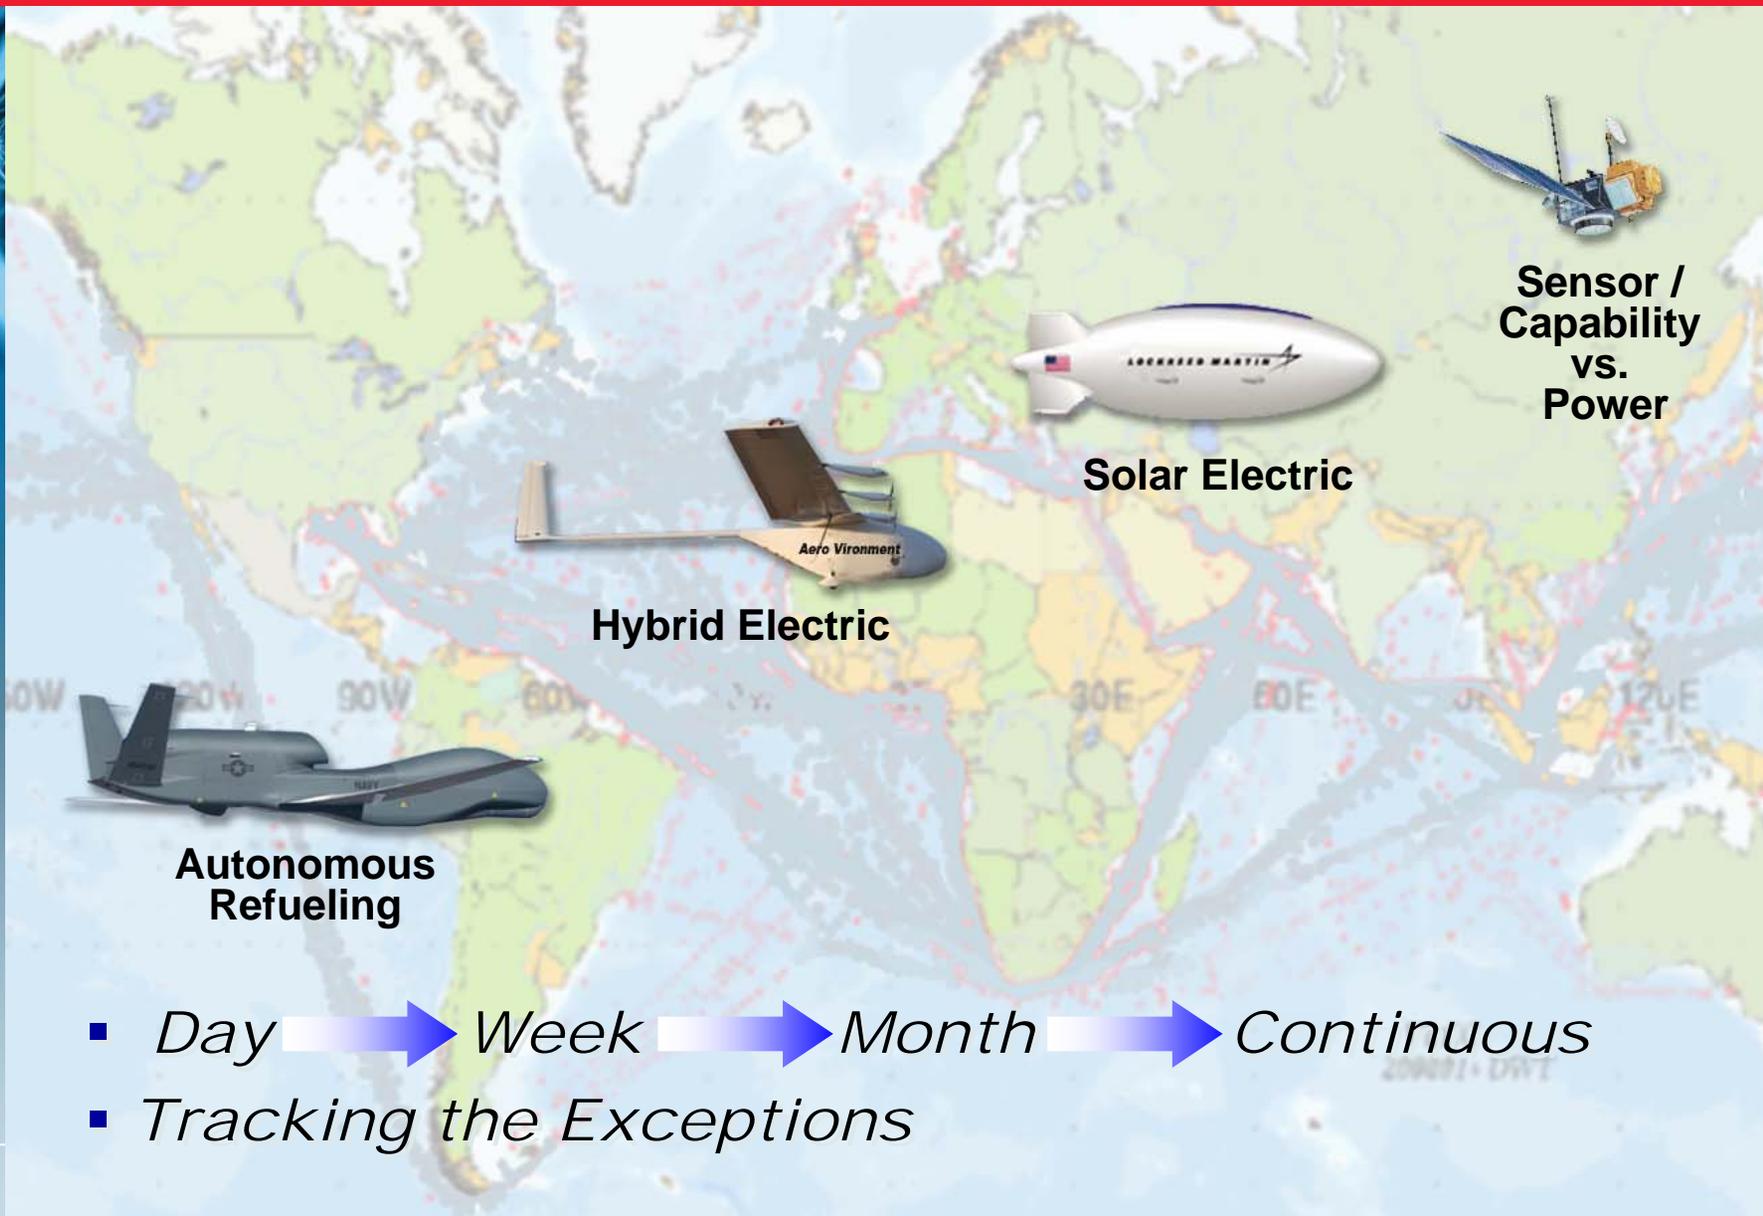

Ship and Company Data Bases

AIS Info

Port Data Bases

- *“Clutter Rejection”... Weeding Out the Good Guys*
- *Knowing Where Your Ship Has Been Lately?*

Persistent Surveillance

Cooperative Communications / Information Sharing

- Linking dissimilar systems together cost effectively... Today today
- Assured Comms

- *"Pay for it only when you need it"*
- *Seek options which provide interoperability / netcentricity now, and... enable affordable transition to standards / common systems*

Enabling Technology Investment Areas

-
- *Ability To Uniquely “Fingerprint” Thousands of Large and Small Hull Commercial Ships*
 - *Fusion and Reasoning Tools*
 - *Persistent Surveillance*
 - *Cooperative Communications / Information Sharing*

Duck Hunting Made Easy
