(UNCLASSIFIED)

#### Central Technical Support Facility (CTSF)

U.S. Army Materiel Command

#### CTSF Mission

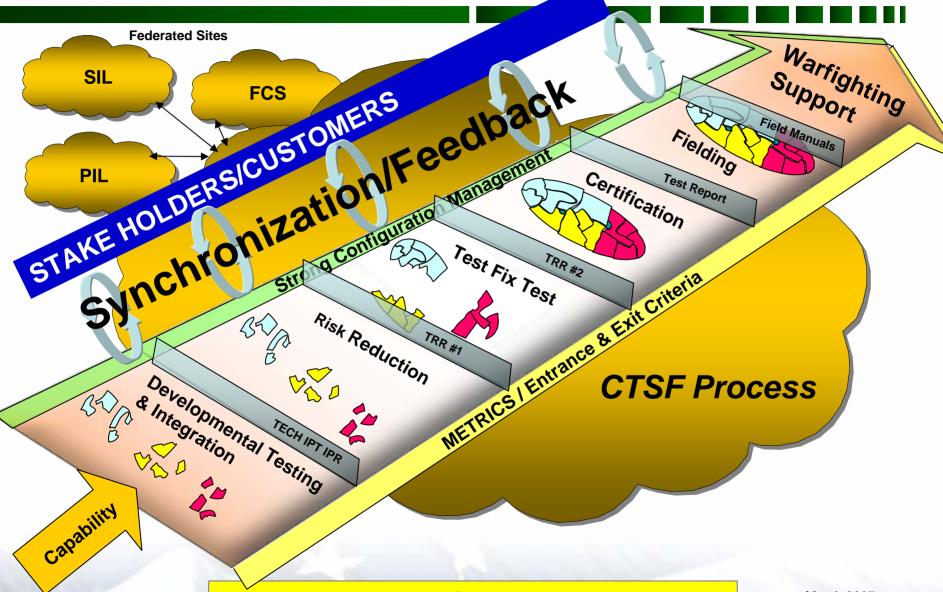

The CTSF provides a unique, innovative, and scalable environment, with skilled and dedicated personnel, using qualified synergistic processes in order to support the DoD's net enabled strategic vision by executing configuration management, systems engineering support, and interoperability certification testing for Army and Joint C4I providers.

Promote a Lean Culture in All We Do.

#### Governance Structure

#### CTSF The Stats...

- **≥250,000 sq ft Facility:** 41,305 square feet dedicated to integration, testing and certification
- Fully Wired Infrastructure: with tactically representative routers, switches, hubs, fiber, 10Base2, 10BaseT and video to provide flexibility for test and exercise reconfiguration.
- ►Instrumented Facility for data collection and reduction equipment to support a vehicle platform to Corps level architecture, fully instrumented with SIM/STIM and data collection/reduction capability.
- Configuration Control Capability to support integration and fielding of Software
- ➤ High Speed Communication Links to facilities at Ft. Hood and externally to sister service sites, battle labs and contractor facilities; DREN access.
- Established Processes to support integration, testing, configuration management and training "Go to War" software.

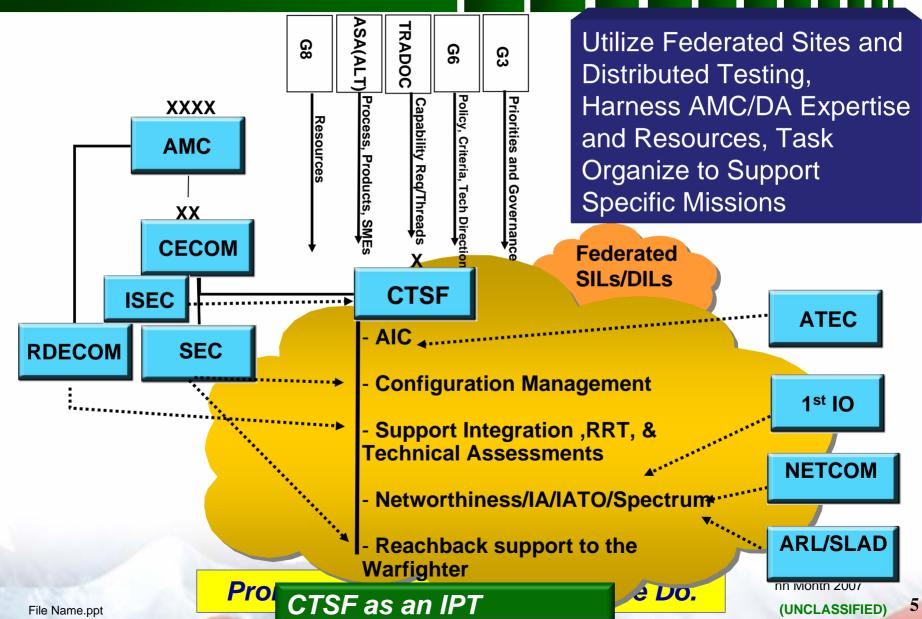

Over 900 government civilians, and contractors form the Team of the CTSF to support, maintain & sustain the Army's digital systems deployed world- wide.

# Leveraging The Army "Task Organize for Success"

### Partnering is Key

#### Key to CTSF Success

- Unity of Command no barriers, organizations coming together to get the job done on behalf of the Warfighter, synchronization of efforts
- CTSF missions serve many customers (i.e. G3, G6, ASA(ALT), G8, ATEC, Joint and Coalition Warfighters)
- Synergy → Focused on Warfighter Needs
- In depth technical understanding of systems
- Knowledge of warfighter needs and constraints
- A set of disciplined processes for Testing, CM, and System Engineering
- Formal/Informal Partnerships (PMs, Warfighter, Test Community, Joint Community, PdM Netops)
- Adaptable and Responsive
- Honest Broker
- Well known across Army → DoD

# SERVING OUR ARBY AT W Questions?

RELEVANT AND RESPONSIVE

# Back-Up

## CTSF Vision

To become a customer valued organization ensuring the best net-centric C4I capabilities are available to US Army, Joint and Coalition Warfighters.

Bottom Line: CTSF is the Interoperability "Check Ride" for Current & Future Army Programs
