THIS YEAR'S CONFERENCE WILL HIGHLIGHT THE ACTIONS TO IMPLEMENT THE ARMY'S RECENTLY ANNOUNCED TACTICAL WHEELED VEHICLES TRANSFORMATION STRATEGY.

2008 TACTICAL WHEELED VEHICLES CONFERENCE

NDIA
2008 Tactical Wheeled Vehicles Conference (TWV)
Event #8530
February 3 - 5, 2008

The Portola Plaza Hotel at Monterey Bay
& Monterey Conference Center
Monterey, California

Welcome to the 2008 Tactical Wheeled Vehicles Conference.

Objective:

This annual seminar historically has brought the military service, industry, prime contractors, subcontractors and their suppliers together to discuss present and future wheeled vehicle requirements for all services. It has afforded an atmosphere for open discussions between the customers and the suppliers based on the needs of the military users. This is the only conference held specifically for the military's Tactical Wheeled Vehicle community.

The information presented is valuable to program managers, engineers, planners and marketers. In addition, open discussions will be invaluable to DoD planners and program managers. This year's theme is: "TWV: DURING AND POST-OIF."

CONFERENCE DESCRIPTION

This year's Tactical Wheeled Vehicle (TWV) Conference will highlight the actions being taken to implement the Army's recently announced new TWV Transformation Strategy. The strategy was developed and resourced by an Army TWV Board of Directors made up of key Army leaders and decision makers in the Pentagon, the PEO CS/CSS and the Chief of Transportation. The intent of this strategy is to ensure the Army and the other services will have a balanced and viable TWV fleet through FY '18 and beyond. This Conference will address the procurement of new vehicles while conducting the cyclic refurbishment of existing vehicles. Other topics will include the status of the ongoing ACTD's intended to modernize the current fleet, and how the Army intends to provide for the spiral insertion of new technologies to support these efforts.

This is the only annual conference held that is specific to the military's Tactical Wheeled Vehicle community. It has historically brought Department of Defense representatives, prime contractors, subcontractors, and their suppliers together to discuss present and future wheeled vehicle requirements for all services. It has afforded an atmosphere for open discussions between the customers and the suppliers based on the needs of the military users. The information presented is valuable to program managers, engineers, planners and marketers. In addition, open discussions will be invaluable to DoD planners and program managers.

The agenda speakers, schedule and room assignments contained herein are subject to change.

There are no exhibits or displays at this conference --
it is a conference only.

TACTICAL WHEELED VEHICLES DIVISION: Mission/Objective/Purpose

Division Objectives

The primary objective of the Tactical Wheeled Vehicle Division of NDIA is to enhance the security of the United States by promoting communications and interaction between defense industry, government and military in the area of automotive activities.

The specific charter of the Tactical Wheeled Vehicle Division is to conduct conferences in technology areas directly related to automotive research, design, development, test and production. Such conferences are intended to present advanced technology and provide for an exchange of information and an interchange of views between defense industry, government and military representatives. The effective cooperation between these three groups is vital to our defense effort in the tactical wheeled vehicle area. Each group brings unique inputs to such conferences. No one group can function at maximum effectiveness without the other two.

Specific Objectives:

- ▶ To serve as an effective communications vehicle for the exchange of views and information between government and industry on matters of common concern.
- ▶ To foster mutual understanding and effective working relationships between government and industry in order to achieve a sound body of government policy and procedures which will serve both the security objectives of the United States as well as the commercial interests of its industry.
- ▶ To provide government with industry advice on government policies, practices and procedures and industry's needs and problems within the Division's purview.

Mission Responsibility:

To promote national exchanges between the Defense Department, government agencies and industry, of information relating to the design, development, acquisition and support of vehicles and vehicle systems employed in land and amphibious military operations.
