2,700 sq mi restricted airspace

Access to 30,000 sq miles of warning area

Provide for the safe and secure collection of *decision-quality* data. We...

- Develop, operate, manage and sustain interoperable, *MRTFB* open air, land and sea ranges for Fleet, NAE acquisition programs, DoD, and strategic allied partners' T&E and training events.
- Provide air vehicle and weapons systems modification and instrumentation.
- Schedule and control air, land, sea space and associated range operating areas.

- Evolve the separate ranges into a single Range Complex
 - Resulting in:
 - Transparency of test options to customers
 - Secure remote test data review
 - More flexible use of resources and resource sharing
 - Greater sharing of knowledge and capabilities across ranges

- A Strategic Roadmap with Initiatives to provide:
 - Increased knowledge and awareness of total range capabilities
 - Must penetrate further down in the organization
 - Common systems and families of systems
 - Inter-range connectivity with known attributes
 - Strong decisions on leader/follower capabilities
 - Single, open investment strategy
 - Common business practices

Change the culture from Competition to Cooperation

Leveraging current strengths

- Connection and leadership at West coast ranges
 - Positive impact to other service programs realized
- Innovative culture at Atlantic Test Range
- Cohesive Senior leadership team across all Range activities
- Strong culture of continuous improvement
 - Naturally looking for "Best of Breed"

Provide Decision Quality Data to our customers as effectively, efficiently, and flexibly as possible in a resource constrained environment
