

DoD Modeling & Simulation Verification, Validation & Accreditation (VV&A): The Acquisition Perspective

NDIA Presentation Number 8939

**Mr. Michael Truelove
ODDR&E/Systems Engineering/Mission Assurance
October 29, 2009**

DoD Modeling & Simulation (M&S) Governance

M&S Management Structure Organized by Communities.
Designed to Support & Integrate M&S Activities across the Department.
Led by a Senior Level M&S Steering Committee
(M&S SC) to provide governance.

(T2 ESG)

Components

OSD, Joint Staff, COCOMs, Services

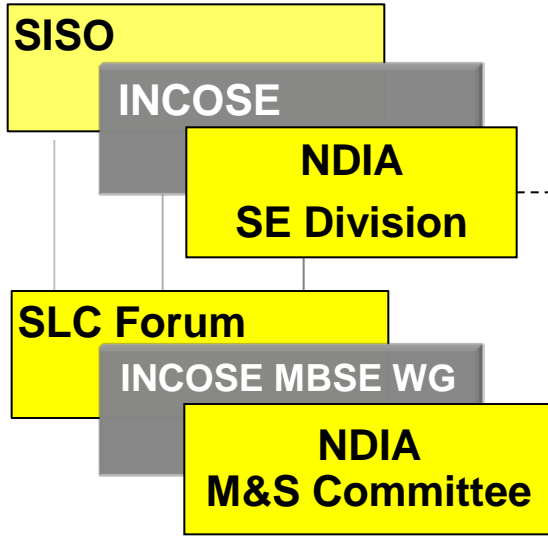

Goal: Establish corporate M&S management to address DoD goals:
Leads/guides/shepherds the \$Bs in DoD M&S investments; adds value thru metrics & ROI-driven priorities; and seeks to provide transparency.

Acquisition M&S Working Group Relationships

Industry

Chair: Jim Coolahan

DoD Acquisition

Chair: Mr. Stephen Welby
OUSD(AT&L)/DDR&E/SE

Chair: Col Eileen Bjorkman, USAF
SAF/XCDM

DoD M&S

Acquisition Member:
OUSD(AT&L)/DDR&E/SE/MA

Mr. Mike Truelove (Ctr)
Acquisition Member:
OUSD(AT&L)/DDR&E/SE/MA

AMSWG Charter (SE Forum, 2006)

- Assist PMs and acquisition professionals by improving the utility of M&S . . .
- Address common concerns, improve info flow, align technical initiatives, pursue cross-cutting issue resolution . . .
- Represent the acquisition community in DoD M&S deliberations . . .

Acquisition M&S Master Plan Structure

Department of Defense

Acquisition Modeling and Simulation Master Plan

Issued by the
DoD Systems Engineering Forum
April 17, 2006

1

- Foreword
- Introduction
 - Purpose
 - Vision
 - Scope
- Objectives (5)
- Actions (40)
 - Action
 - Rationale (why it's needed)
 - Discussion (implementation guidance)
 - Lead & supporting organizations
 - Products (what is expected)
 - Completion goal (year)
- Execution Management

AMSMP: Five Objectives, 40 Actions

Objective 1

Provide necessary policy and guidance

- 1-1 M&S management
- 1-2 Model-based systems engineering & collaborative environments
- 1-3 M&S in testing
- 1-4 M&S planning documentation
- 1-5 RFP & contract language
- 1-6 Security certification

Key

Broader than Acqn

Objective 2

Enhance the technical framework for M&S

- 2-1 Product development metamodel
- 2-2 Commercial SE standards
- 2-3 Distributed simulation standards
- 2-4 DoDAF utility
 - a) DoDAF 2.0 Systems Engineering Overlay
 - b) Standards for depiction & interchange
- 2-5 Metadata template for reusable resources

Objective 3

Improve model and simulation capabilities

- 3-1 Acquisition inputs to DoD M&S priorities
- 3-2 Best practices for model/sim development
- 3-3 Distributed LVC environments
 - a) Standards
 - b) Sim/lab/range compliance
 - c) Event services
- 3-4 Central funding of high-priority, broadly-needed models & sims
 - a) Prioritize needs
 - b) Pilot projects
 - c) Expansion as warranted

Objective 4

Improve model and simulation use

- 4-1 Help defining M&S strategy
- 4-2 M&S planning & employment best practices
- 4-3 Foster reuse
 - a) Business model
 - b) Responsibilities
 - c) Resource discovery
- 4-4 Info availability
 - a) Scenarios
 - b) Systems
 - c) Threats
 - d) Environment
- 4-5 VV&A
 - a) Documentation
 - b) Risk-based
 - c) Examination
- 4-6 COTS SE tools
- 4-7 M&S utility in Acqn metrics

Objective 5

Shape the workforce

- 5-1 Definition of required M&S competencies
- 5-2 Harvesting of commercial M&S lessons
- 5-3 Assemble Body of Knowledge for Acqn M&S
- 5-4 M&S education & training
 - a) DAU, DAG & on-line CLMs
 - b) Conferences, workshops & assist visits
- 5-5 MSIAC utility

Acquisition M&S Community Recognizes Importance of VV&A

- **VV&A of M&S is important because it:**
 - Provides an understanding of the assumptions, capabilities, and limitations of the models and simulations
 - Provides a means for knowing how trustworthy the M&S results are
 - Promotes reuse of M&S by allowing others to understand how the M&S has been used
- **Three specific actions for VV&A are in the Acquisition M&S Master Plan (AMSMP):**
 - Action 4-5 (a): Require DoD-wide standardized documentation of VV&A
 - Action 4-5 (b): Develop a risk-based methodology & associated guidelines for VV&A expenditures
 - Action 4-5 (c): Examine the relevant VV&A when M&S informs major acquisition decisions. Unambiguously state the purpose, key assumptions, and significant limitations of each model or simulation when results are presented

Acquisition Community Commitment to VV&A

- **The Acquisition M&S Community has followed through by taking multiple actions to promote and encourage VV&A:**
 - Sponsored funding to:
 - Finalize the MIL-STD-3022 DoD Standard Practice Documentation of VV&A for Models and Simulations
 - Finalize the DoD VV&A Documentation Tool
 - Establish a risk based approach for VV&A
 - Develop a CMMI-like VV&A maturity model
 - Provided guidance on VV&A in the Defense Acquisition Guidebook
 - Under the Acquisition M&S Working Group, established a VV&A Subcommittee
 - Recommended improvements to the new DoDI 5000.61
 - Volunteered to participate in NATO VV&A activities

Acquisition Commitment to VV&A: Sponsored Funding

- **MIL-STD 3022:**

- The effort was initiated by the Navy and the Acquisition Community saw value that benefited the M&S enterprise & sponsored its completion
- The purpose of the standard is to provide a common framework for sharing information throughout the VV&A processes
- The common method of documentation benefits participants in the VV&A processes by eliminating unnecessary redundancy and facilitating reuse of information when accrediting an M&S for an intended use
- Was published in January 2008 & has received positive feedback from users
- Enables the efficient reuse of VV&A information to include discoverability, accessibility, & usability
- Provides a common way of documenting information about VV&A of M&S
- Allows information about VV&A projects to be machine searchable thereby promoting reuse

Acquisition Commitment to VV&A: Sponsored Funding (cont.)

- **To finalize the DoD VV&A Documentation Tool:**

- Leveraged efforts started by the Navy
- Automated production of the MIL-STD 3022 templates
- Currently 20 customers are using the tool
- The DoD VV&A Documentation Tool can be accessed through the M&S Coordination Office website:

http://www.msco.mil/vva_doc_tool.html

- Currently requires a Common Access Card (CAC) or External Certification Authority (ECA)
- We see a commercial documentation standard under SISO as a logical next step

Acquisition Commitment to VV&A: Sponsored Funding (cont.)

- **To establish a risk-based approach for VV&A**
 - Since there is a cost for verifying & validating models & simulations, the effort is intended to help a M&S user determine how to focus the V&V to get the information needed to accredit the M&S for use.
 - The importance of VV&A is directly related to the criticality of the decision being informed by M&S.
 - This effort started in the spring of 2009 and is scheduled to be completed in the spring of 2011
 - A commercial standard under SISO may follow
- **To develop a Capability Maturity Model Integration (CMMI)-like VV&A maturity model**
 - The primary focus of this task will be the establishment of a CMMI-like maturity model to support a clearer articulation of the level of VV&A that an organization can or should achieve.
 - Task includes the development of a VV&A roadmap that defines the gaps that inhibit efficient and effective VV&A implementation
 - M&S Steering Committee approved funding for FY-10 & FY-11
 - A statement of work has been submitted with an anticipated work start by December 2009

VV&A Guidance Efforts

- **Strengthened the Defense Acquisition Program Support (DAPS) Methodology for Program Support Reviews (PSRs) by identifying VV&A as a key aspect of a program's M&S strategy.**
- **Developed and provided a M&S tutorial to Assessments and Support that emphasized the importance of VV&A documentation.**
- **Addressed VV&A in multiple college-level courses developed under the "M&S Education for the Workforce" Project**
- **Addressed VV&A in two Defense Acquisition University Continuous Learning Modules:**
 - M&S for Systems Engineering
 - M&S for Test & Evaluation
- **Addressed VV&A in the "M&S Guidance for the Acquisition Workforce" and the Defense Acquisition Guidebook (DAG) Chapter 4.5.8 or go to:**

<http://www.acq.osd.mil/sse/docs/M-S-Guidance-Acquisition-Workforce.pdf>

AMSWG VV&A Subcommittee

- **The Chair of the Acquisition M&S Working Group (AMSWG) proposed and established the VV&A Subcommittee in July 2009.**
 - Acquisition is the biggest producer and consumer of VV&A products
 - Congress has expressed interest in metrics with respect to the number of models and simulations with documented VV&A
 - Periodic VV&A technical interchange meetings are needed to:
 - promote the importance of VV&A
 - exchange VV&A information
 - make VV&A information available
 - provide a virtual VV&A brain trust-capability for the Acquisition Community
 - respond to requests for VV&A information
 - Supports Action 4-5 in the AMSMP and Goal 3 of the M&S Steering Committee's Strategic Vision for DoD M&S

Background on DoDI 5000.61

- **DoDI 5000.61 DoD Modeling and Simulation (M&S) Verification, Validation, and Accreditation (VV&A) is the Department's instruction that implements policy, assigns responsibilities, & prescribes procedures for the verification, validation, & accreditation (VV&A) of DoD models, simulations, & associated data.**
- **The latest version of the DoDI 5000.61 was last dated May 13, 2003**
- **At the July 2007 M&S Steering Committee Offsite, the M&S SC directed a review and update if needed to the DoDI 5000.61**
- **Office of the Secretary of Defense Program Analysis & Evaluation (PA&E), a member of the Modeling & Simulation Steering Committee, volunteered to lead the effort to revise the instruction in 3 months.**
- **Their effort ended when the revised instruction began formal staffing for approval in June 2009**

DoDI 5000.61: Current Status

- **The instruction entered formal SD 106 staffing on June 4, 2009**
- **Suspense for formal comments was August 11, 2009**
- **The M&S Coordination Office is led the adjudication process**
- **Adjudication is nearly complete**
- **USD (AT&L) Signature is expected by the end of this calendar year**

NATO Participation

- **NATO has requested more U.S. participation in M&S activities**
- **The Modeling & Simulation Coordination Office has requested more participation from the Communities and Services**
- **The Acquisition Community has volunteered to participate in NATO VV&A activities and others**
- **Coordination with the M&S CO is underway**

Summary

- **The Acquisition M&S Community is committed to VV&A**
- **The Acquisition M&S Community wants to further mature the practice of VV&A**
- **We solicit your support and participation**
- **Let us know your concerns and suggestions**
- **We will incorporate and champion good ideas**

Q & A

Acronyms

- **AMSMP:** Acquisition Modeling & Simulation Master Plan
- **AMSWG:** Acquisition Modeling & Simulation Working Group
- **AP EXCOM:** Adaptive Planning Executive Committee
- **AT&L:** Acquisition, Technology and Logistics
- **CAC:** Common Access Card
- **CAPE & JS:** Cost Assessment Program Evaluation & Joint Staff
- **CMMI:** Capability Maturity Model Integration
- **COCOMS:** Combatant Commands
- **DAPS:** Defense Acquisition Program Support
- **DDR&E:** Director, Defense Research and Engineering
- **DIMSCG:** Defense Intelligence M&S Collaboration Group
- **DoD:** Department of Defense
- **DoDI:** Department of Defense Instruction
- **DOT&E:** Director Operational Test and Evaluation
- **ECA:** External Certification Authority
- **INCOSE:** International Council on Systems Engineering
- **JADM:** Joint Analytic Data Management
- **JCDE EC:** Joint Concept Development & Experimentation Executive Committee

Acronyms (cont.)

- **JFCOM**: Joint Forces Command
- **M&S**: Modeling and Simulation
- **MA**: Mission Assurance
- **MBSE**: Model Based Systems Engineering
- **MIL-STD**: Military Standard
- **NDIA**: National Defense Industrial Association
- **ODDR&E**: Office of the Director, Defense Research and Engineerint
- **OSD**: Office of the Secretary of Defense
- **OUSD**: Office of the Under Secretary of Defense
- **P&R**: Personnel and Readiness
- **PSR**: Program Support Review
- **SE**: Systems Engineering
- **SISO**: Simulation Interoperability Standards Organization
- **SLC**: System Life Cycle
- **T2 ESG**: Training / Transformation Executive Steering Group
- **USD(I)**: Under Secretary of Defense for Intelligence
- **VV&A**: Verification, Validation and Accreditation
- **WG**: Working Group

Standards Needs Identified in the Acquisition M&S Master Plan

- **Action 1-5 Contracting Guidelines / Best Practices**
- **Action 2-2 Commercial Systems Engineering (SE) Standards**
- **Action 2-3 Distributed Simulation Standards**
- **Action 2-4 DoD Architecture Framework (DoDAF)**
- **Action 2-5 Metadata Template for Reusable Resources**
- **Action 3-2 Best Practices for M&S Development**
- **Action 3-3 Distributed Live, Virtual, Constructive (LVC) Environments**
- **Action 4-2 M&S Planning Best Practices**
- **Action 4-5 VV&A**
- **Action 5-1 Required M&S Competencies**
- **Action 5-3 M&S Body of Knowledge**
