

Expeditionary Warfare Systems Acquisition Challenges

26 October 2011

RDML Jim Murdoch, USN
PEO LCS

Distribution Statement A: Approved for Public Release; Distribution Unlimited. (11/8/2011). This Brief is provided for Information Only and does not constitute a commitment on behalf of the U.S. government to provide additional information and / or sale of the system.

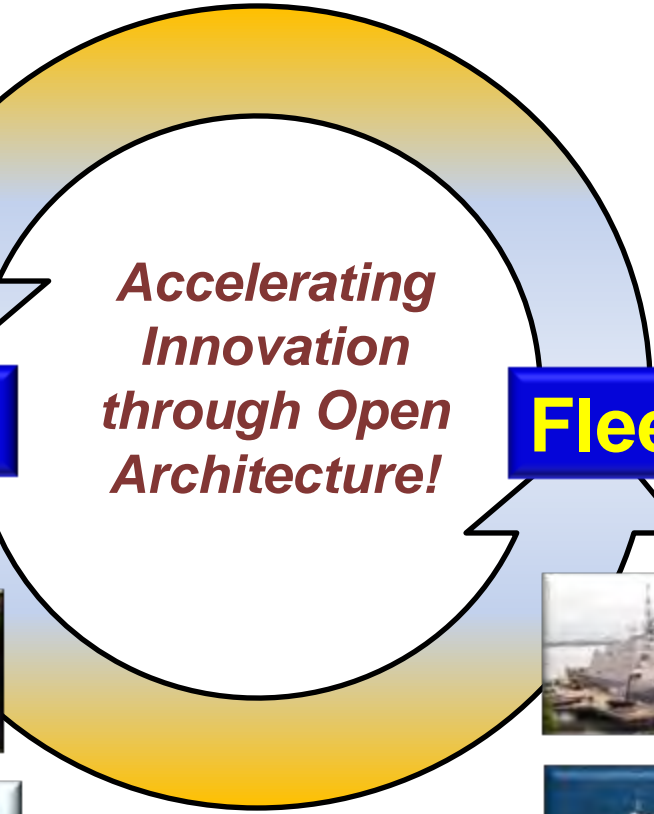

The Business of PEO LCS

LCS Seaframes

Mission Modules

Fleet Introduction

Littoral Combat Ships

- **Modular open systems architecture**
 - Flexible system for dynamic battle space
 - Advanced unmanned air, surface, and underwater vehicles
 - Onboard sensors, weapons, command & control
 - Mission modules interchangeable
 - Maximizing interchangeable components within modules
- **Optimized for warfighting in the littoral**
 - Unique designs for unique environment
 - Fast, maneuverable, shallow draft
- **Targeted at critical capability gaps**
 - Reconfigurable single mission focus
 - Mines, small fast surface craft, diesel submarines
- **Joint Force multiplier**
 - Fully netted with battle force

What is different about LCS?

- Small crew size – Smaller organic workforce aboard ship
- Train to Qualify/Train to Certify
- Ship designed with less redundant systems, but more planned Steaming Hours with multiple crews
- Programmed operating and shortened regular maintenance cycles
- Mission Module maintenance ashore
- Management and execution of “Command Programs” moved ashore
- First class of ship with Material Reliability and Availability metrics in the Acquisition Strategy

PEO LCS History

- ☑ 01 Feb 02 ASN (RDA) Established LCS Program Office
- ☑ 17 Mar 03 PEO (Ships) given overall responsibility for Program Management, PEO (LMW) for Mission Modules and PEO (IWS) for Warfare System development and integration
- ☑ 05 May 11 ASN(RDA) memo directs formation of PEO LCS:

- **Reorganization will include the following offices:**
 - Littoral Combat Ship program (PMS 501)
 - LCS Mission Modules (PMS 420)
 - Remote Minehunting System (PMS 403)
 - Unmanned Maritime Systems (PMS 406)
 - Mine Warfare (PMS 495)
 - Fleet Introduction (PMS 505)

EFFECTIVE 11 JUL 2011, THE OFFICES THAT MANAGE THE SEAFRAME AND MISSION MODULE PROGRAMS WERE COMBINED UNDER A SINGLE PROGRAM EXECUTIVE OFFICE – PEO LCS

Near Term Focus

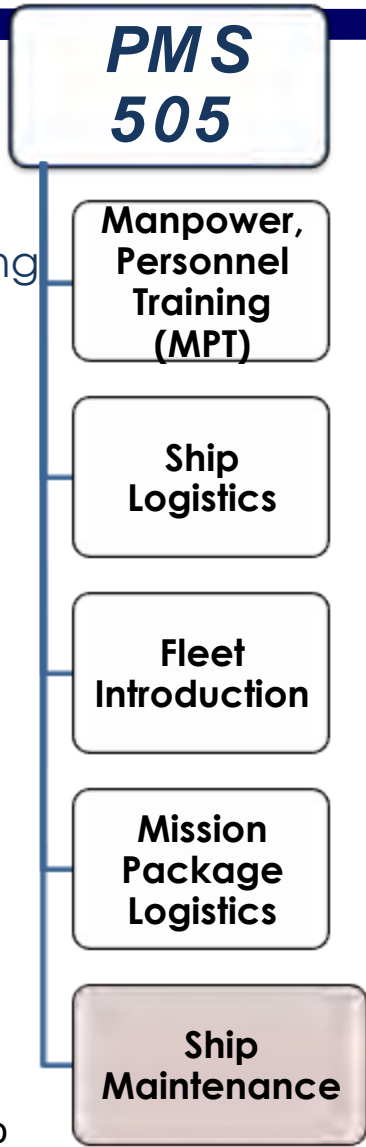

- Improve program **integration and execution**
 - Balancing the demands of program cost, schedule and performance requirements so that we may deliver and sustain timely, credible Littoral Combat Ship capability to the Fleet
- Formally establish a LCS **Fleet Introduction Program Office**, with defined roles, missions and staff
 - Support the **requirements** of Littoral Combat Ships, the **integration** of aviation capabilities, and improve test and evaluation efforts
- Assess proposed LCS new mission capability, ensuring that we sustain ship design **stability and affordability** throughout our contracted block procurements.

PMS 505 Fleet Introduction and Sustainment

- Combine all aspects of LCS Fleet Introduction and Sustainment under one Program Office
 - Encompasses the functions and responsibility currently residing in multiple program offices within NAVSEA
 - Provides a single point of entry for the Fleet, Type Commander, and the Maintenance and Sustainment communities
 - Seaframe and Mission Package training will be broken out from their respective Logistics departments (under PMS 501 and PMS 420) and integrated in one department under PMS 505
 - Increased focus on Manpower, Personnel, Training
 - New construction and in-service Logistics support will be combined to leverage experienced support personnel
 - Establish and manage maintenance processes that will support the full service lives of the ships and mission modules

□ = HQ(DC) ■ = San Diego

It is time to:

- Bring together the focused mission capabilities we need to address today's and tomorrow's threats, while retiring yesterday's systems
- Seek, more actively, the thoughts of the fleet and learn from the past two years of LCS operation
- Get these capabilities through operational testing
- Consider, in innovative ways, where the unique LCS design philosophy can take us in new mission roles

Questions
