InterActCAD – Next Generation "*Today*"

- **Multi-tenant** means a single system serves a virtually unlimited number of facilities and users and gives each facility as much control of their configuration and data than more expensive and less flexible legacy systems
- **Cloud based** no racks of equipment, no hardware failures, and no expensive field service, plus fault tolerance, hot backup, and disaster recovery are built in for no extra cost.
- **Service Oriented Architecture** means that the your agency would have access to create innovative plug-in extensions to applications to respond to unique and changing challenges.

Alternative Deployment Models (ADM)

Customer Premise Equipment (CPE)	Regional Government Cloud	Commercial Cloud	Federal Cloud
Deployment Model: 1 agency, 1 solution on-site	*Deployment Model*: Multiple agencies consolidate operations, into 1 solution	*Deployment Model*: Managed network + converged apps = 1 agency or multiple agencies	*Deployment Model*: Fully self service, all web based with open Cloud API to build eco-system
Trend: Customer base preparing to either refresh or migrate to ADM	*Trend*: Growing number of regional entities & state wide agencies mandate consolidation	*Trend*: Telephony vendors building NW clouds & target local government (VoIP NG911)	*Trend*: InterAct leads with fully-multi tenant cloud offerings for 911, CAD, RMS and Mobile
