

National Defense Industrial Association

Resourcing Logistics

Mr. Gary Motsek
Deputy Assistant Secretary of Defense
(Program Support)
March, 2012

Problem

How does DoD support the force in times of peace and crisis in light of:

- Reduced budgets
- Reduced military and civilian personnel
- Active contingency through 2014 +
- Big pile of “broke stuff”

Environment

- Reset is still there as a requirement to fill
- Transition in Iraq from DoD to DoS does not equate to no additional costs
- Supplemental / OCO dollars dwindling
- DoD as a “billpayer”
- Readiness still the peacetime “coin of the realm?”

Wizards of Resources

Mr. Don Tison, SES

Mr. John Roth

- How are we addressing the challenges?
- What are the risks and who is assessing them?
- What is your prognosis for the future?
- What are the measurable metrics to determine success/failure?
