Developing a Prepared, Improved and Adaptive Future Force

* "Joint warfighting capability is **improved** through the development of concepts validated by rigorous assessment and lessons learned from current operations. It is **sustained** through joint doctrine, education, training, and exercises."

Joint Pub 1 (revised 25 March 2013)

Joint Operational Access Concept

- **Developed in support of NSS, QDR, and NMS**
- **Supports the Capstone Concept for Joint Operations (CCJO) central idea of Globally Integrated Operations**
- **Describes the capabilities required for the Joint Force to operate in contested environments characterized by anti-access/area denial (A2/AD) challenges**
- **Leverages the central idea of Cross-domain Synergy to provide freedom of action for the Joint Force**
- **Identifies key precepts for operational access and subsequently defines 30 required capabilities**
- **Is an unclassified document approved for public release**

JOA Implementation

- **Goal:** Improve Joint Force capability to gain and maintain operational access in A2/AD environments
- **Method:** Develop JOA Implementation Plan (JIP) via collaborative efforts with Services and Combatant Commands
- **Timeline:** Base plan approved by Spring 2014; subsequently updated on annual cycle

JOA Implementation is a large and complex task affecting the entire Department across all elements of DOTMLPF-P ...and will take years to accomplish

Potential Misperceptions

- **“JOA (or ASB, or JCEO) are strategies”**
- **“JOA (or ASB, or JCEO) are escalatory”**
- **“JOA (or ASB, or JCEO) are oriented on specific opponents”**
- **"JOAC and ASB are competing or redundant"**
