EVENT #3760

LOGISTICS DIVISION CHAIRMAN'S LETTER

Welcome to the National Logistics Forum, an open exchange between logistics policy officials, senior government leaders and industry to address the challenges associated with the current fiscal constraints and their impact on support for the Warfighter.

The Honorable Alan Estevez, ASD (L&MR), Lt Gen Brooks Bash, USAF, Director of Logistics Joint Staff J4, and other distinguished leaders will provide keynote remarks and lead panel discussions on logistics capabilities to meet operational needs while addressing the current fiscal realities. Three highly coveted national logistics recognition awards will be presented: the DoD Award for Supply Chain Operational Excellence, the Edward M. Greer Award for industry leadership excellence, and the Logistician Emeritus Award for outstanding leadership in a governmental position.

I encourage you to capitalize on this exceptional opportunity to fully participate and influence the future of national defense logistics.

Lou Kratz

AWARD RECIPIENTS

DOD AWARD FOR SUPPLY CHAIN OPERATIONAL EXCELLENCE

The Assistant Secretary of Defense for Logistics and Materiel Readiness is partnering with the Supply-Chain Council and the National Defense Industrial Association to sponsor the thirteenth annual Department of Defense (DoD) Award for Supply Chain Operational Excellence to recognize projects that demonstrate significant improvements in supply chain management. The DoD Award for Supply Chain Operational Excellence provides a showcase for innovative management and technology tools, which are used to improve our supply chain efficiency and effectiveness in order to enhance our support to the warfighter. The award honors organizations that have made exceptional progress through innovative development or adoption of the best supply chain practices.

AIR FORCE SUSTAINMENT CENTER 448TH SUPPLY CHAIN MANAGEMENT WING

Air Force Sustainment Center (AFSC), 448th Supply Chain Management Wing (448 SCMW), Tinker Air Force Base, Oklahoma, plans and executes the Air Force supply chain to enable weapon system employment when and where needed. The 448 SCMW is responsible for sustaining 36 weapon systems; 27 engine lines; Space and Command, Control, Communications & Intelligence (C3I) systems; ICBMs; and nuclear-related equipment worldwide. They provide Supply Chain Management life cycle support to include developing enterprise demand/supply plans, developing/implementing sourcing strategies, executing the supply plan, and executing design engineering authority cognizant to customer requirements for assigned engines, aircraft, space, and missile commodities. Supply chain management processes are achieved with 2,743 supply chain professionals

managing buy and repair of more than 101,000 repairable stock numbers valued over \$42 billion; they oversee \$1.1 billion in new buys and \$3.8 billion in contractor and military repairs annually. The Wing is also responsible to provide sustainment for more than 45,000 equipment and vehicle stock numbers with inventory in excess of \$30 billion. The 448 SCMW was selected as the winner of the 2012 DoD Award for Excellence in Supply Chain Operations for their submission "The Air Force Sustainment Center – Increasing Warfighter Readiness and Reducing Costs Through AFSC Commodity Sourcing Program." This initiative produced a number of strategic buy and repair initiatives together with corporate/long-term contracts that improved support and reduced costs, including an improved landing gear coating process with Boeing that resulted in \$430k annual savings; the Honeywell Secondary Power Logistics Solution contract which yields 5% cost savings worth \$18M; and the A-10 Avionics repair contract that reduced NMCS hours from 19.6K to zero.

AWARD RECIPIENTS

EDWARD M. GREER AWARD

The Greer Award is presented annually to an industry individual in recognition of noteworthy contributions or meritorious service to the Department of Defense in the area of integrated logistics support engineering and its implementation in maintenance and product support. The award was established in 1956 by Greer Hydraulics, Inc., to stimulate thought and develop programs which will benefit industry and the public. The award program encourages solutions to troublesome maintenance problems or to the development of integrated logistics support planning techniques to be employed in their solution. The award is presented in honor of its originator, Edward M. Greer.

MR. MARK R. SCHROEDER, RAYTHEON COMPANY

Mark Schroeder is the Program Manager for Maritime & Littoral Systems Performance Based Logistics (PBL) Programs supporting the Surveillance and Targeting Systems business area of Raytheon Company's Space and Airborne Systems (SAS) business.

Mark has over 18 years of program management and business capture experience with performance based contracts. Prior to his position as Program Manager for the AAS-44 PBL and the APS-137 PBL programs, Mark was the Program Manager for F117 IRADS TSPR contract with Lockheed Martin holding this position from 2000 to 2005.

Mark has served as the Program Manager for the AAS-44 PBL Program for the Navy's H60 FLIR weapon system from 2004 to present. As the Program Manager working with FRCSE, he established Raytheon's 1st PBL with a Public Private Partnership (PPP). The success of the AAS-44 PBL's PPP resulted in the program receiving Raytheon's 1st DoD PBL Award in 2006. While managing the AAS-44 PBL Program, Mark was integral in Raytheon's award of its first maritime radar PBL program for the APS-137 Radar in support of the Navy's P-3 Orion aircraft and managed this PBL Program from 2006 to 2008. Currently, Mark is engaged in the pursuit of a Multi-Sensor EO/IR PBL in support of the Navy's H-60 Armed Helicopters and Rotocraft FLIR PBL in Support of the USAF CV22, Marine MV-22 and the Marine CH-53E.

Prior to joining Raytheon in 1981, Mark held various positions in the United States Army, as commissioned officer in the Infantry. Mark holds a BA from Virginia Tech and an MBA from Amberton University.
