

# *Electromagnetic Railgun*

## **NDIA Joint Armaments**

**Forum, Exhibition & Technology Demonstration**

**14 May 2014**

**LCDR Jason Fox, USN**

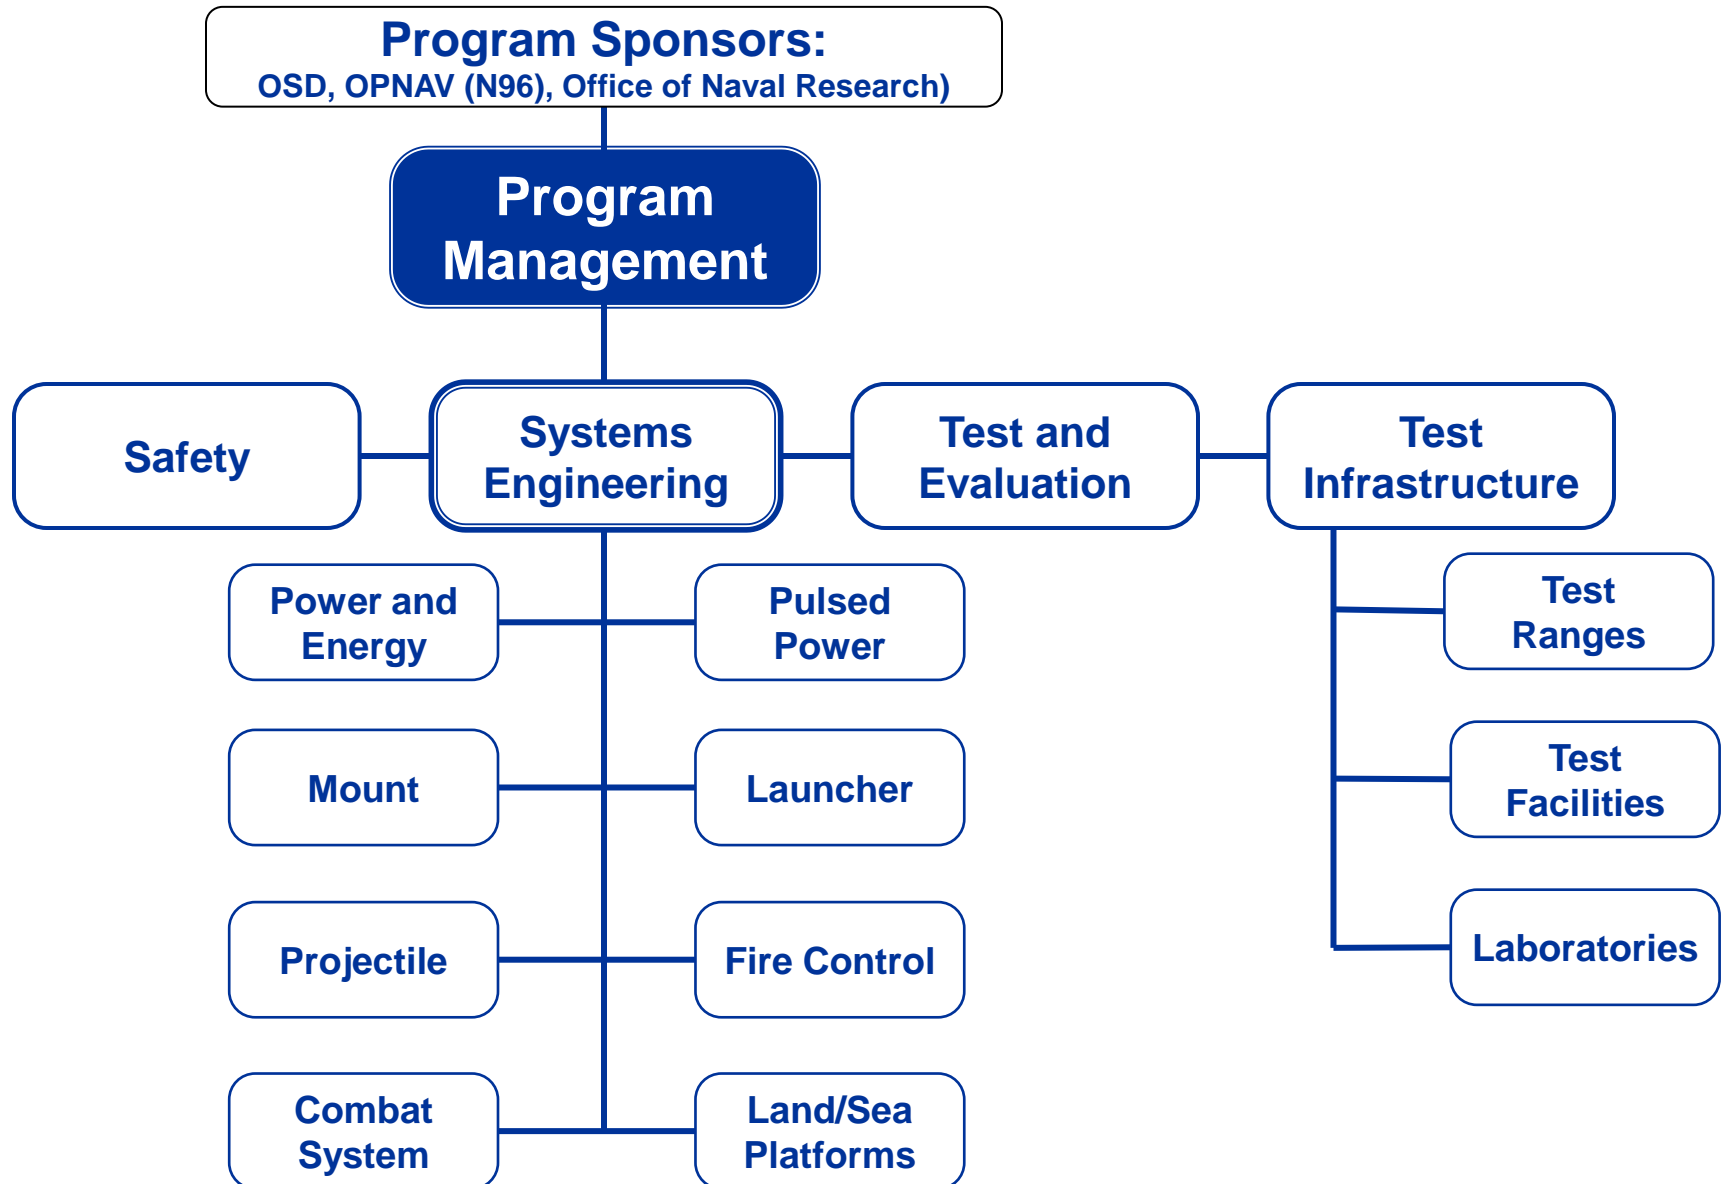

**Assistant PM, Railgun Ship Integration**

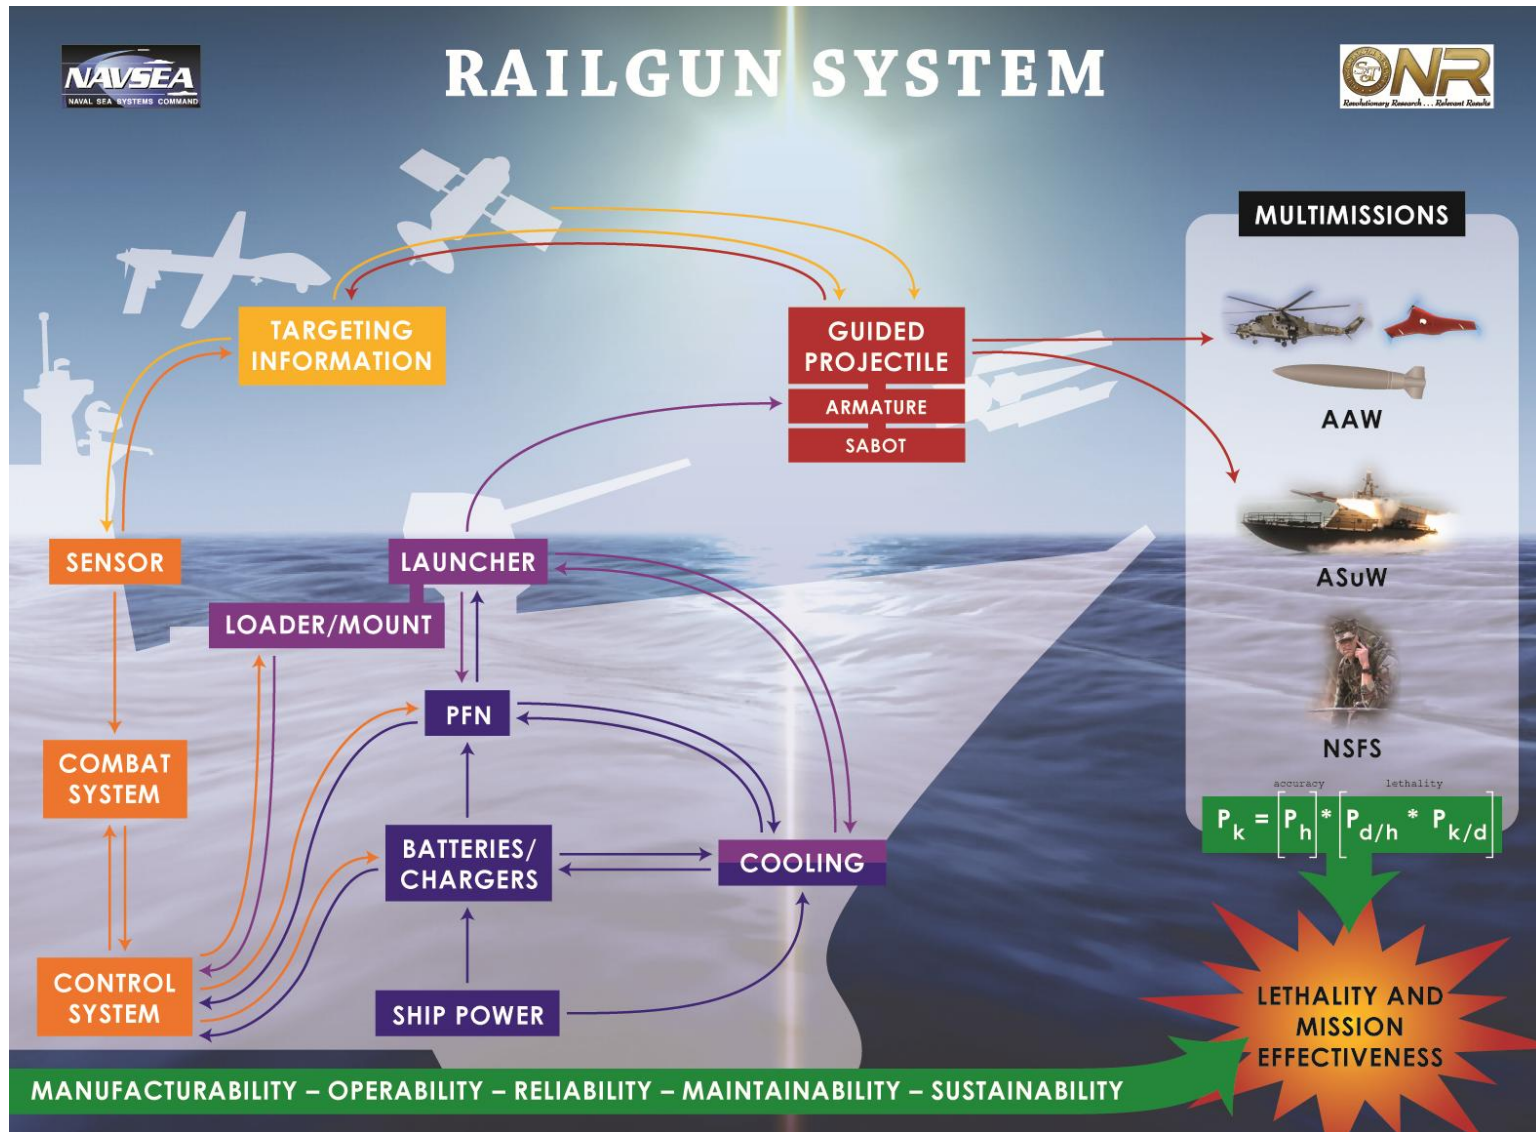

# *EM Railgun & Hyper Velocity Projectile*

# Program Structure

# Railgun System Integration

# Railgun and Hyper Velocity Projectile

**An Affordable Multi-Mission Asymmetric Capability**

## 32 Mega Joule Laboratory Launcher

## Railgun Development Focus

- Technology Proven at 32MJ Muzzle Energy
  - Focus shifting to rep rate operations
  - Tactical Barrel & Mount Compatibility
- Rep Rate 32MJ Launcher & Test Stand
  - Establish Manufacturing with BAE Systems
  - Validate Bore Life during Rep Rate Ops
- Rep Rate 32MJ Gun Mount (100NM capable)
  - Leverage Navy Gun Mount Experience
  - Integrate HVP Handling & Initialization
  - Design for Pulsed Power Transfer & Cabling

## Warfighting Payoff

- Responsive, Wide Area Coverage
- Precision fires via guided munitions
- Deep magazines – cost effective
- Enhanced safety with Low Collateral Damage
- Multi-mission, Multi-Barrel Hyper Velocity Projectile (HVP)

## HVP & Gun Systems equates to Distance

- 20 MJ Railgun → 50 nautical miles
- 32 MJ Railgun → 110 nautical miles

## Transition to Tactical Mount

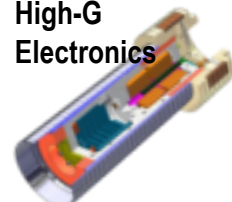

# Multi-Mission HVP

### Missions

 <b>Anti-Air</b>	 <b>NSFS - Strike</b>
 <b>Missiles</b>	 <b>Anti-Surface</b>

### Technologies

 <b>High-G Electronics</b>	 <b>Packaging</b>
 <b>Thermal Protect</b>	 <b>Adv. Energetics</b>

### Weapon Systems

 <b>5-Inch Mk 45</b>	 <b>Railgun</b>
 <b>155 mm - AGS</b>	 <b>155 mm</b>

- High speed launch enables effectiveness
- High density electronics enables packaging & survivability
- High computational power enables advanced tracking & guidance algorithms

# Real Progress

*Significant Barrel Life*

*Modular Approach – multiple ship types*

*Power & energy for multi-mission*

*Projectile component risk reduction*

## Launcher

- Multi-shot barrel life
- Barrel construction to contain rail repulsive forces
- Scaling from 8MJ (state of the art) to 32MJ
- Thermal management techniques
- M&S – Represent interaction between bore and projectile

## Projectile

- Dispensing and Unitary Rounds
- Gun launch survivability
  - 20 to 45 kG acceleration
  - Aero Thermal Risk Management
- Hypersonic guided flight for accuracy
- Lethality mechanics

## Power & Energy

### Pulsed Power Capacitors

- Energy Density
- Rep rate operation & thermal management
- Switching

### Batteries

## Ship Integration

- Dynamic Power Sharing
- Space and Weight
- Cooling
- EM Field Management

# Joint High Speed Vessel

## Near Term Demonstration

- 50NM Manually Loaded Railgun Launcher
- NSFS Demonstration

## Long Term Demonstration (Configuration Pictured)

- 50-110NM Multi-Shot Capable Railgun Mount
- Ready for At-Sea Demonstration

***Ideal Platform for Near and Long Term Demonstrations***

- **Naval EM Railgun is a Game Changer**
- **Opportunities**
  - **Barrel Life Development**
  - **Critical Projectile Components**
  - **Compact Power & Energy Power Conversion**
  - **High Energy Density Pulsed Power**
  - **Understanding Ship and Weapons System Integration Requirements**
  - **Execution of Demos to validate Simulation/Designs**

***Transition to Land & Sea Demonstrations***

# Navy Railgun Contacts

## **CAPT Michael Ziv,**

*PMS405 Program Manager, NAVSEA 05T/DCTO;*  
Naval Sea Systems Command  
Directed Energy/Electric Weapons (PMS405)  
875 N. Randolph Street  
Arlington, VA 22203  
Phone: 703.696.5752  
Cell: 202.306.0976  
[Michael.Ziv@navy.mil](mailto:Michael.Ziv@navy.mil)

## **Dr. Elizabeth D'Andrea,**

*Land Based Railgun Experiment Program Manager;*  
Naval Sea Systems Command  
Directed Energy/Electric Weapons (PMS405)  
6096 Tisdale Road; Suite 302  
Dahlgren, VA 22448  
Phone: 540.653.5563  
Cell: 202.423.3290  
[Elizabeth.Dandrea@navy.mil](mailto:Elizabeth.Dandrea@navy.mil)

## **LCDR Jason Fox,**

*Assistant Program Manager,*  
*Railgun Ship Integration / JHSV Demo;*  
6096 Tisdale Road; Suite 302  
Dahlgren, VA 22448  
Phone: 540.653.9815  
BB: 540.621.6025  
[Jason.Fox1@navy.mil](mailto:Jason.Fox1@navy.mil)

## **Mr. Roger Ellis,**

*Railgun Program Manager;*  
Office of Naval Research (Code 352)  
875 N. Randolph Street  
Arlington, VA 22203  
Phone: 703.696.9504  
[Roger.Ellis@navy.mil](mailto:Roger.Ellis@navy.mil)

## **Mr. Charles Garnett,**

*HVP Program Manager;*  
Office of Naval Research (Code 352)  
875 N. Randolph Street  
Arlington, VA 22203  
Phone: 540.653.3186  
[Charles.R.Garnett@navy.mil](mailto:Charles.R.Garnett@navy.mil)

# *Backup*

# How Railgun Works

## Operating Principle

## Cross-Section

$$\text{Lorentz Force} = \text{Current (J)} \times \text{Magnetic Field (B)}$$

$$\text{Lorentz Force} = \frac{1}{2} \text{Inductance Gradient (L')} * \text{Current (I)}^2$$

# Railgun Operational Impact

- **Wide Area Coverage**
  - Increased speed to target
  - 100+ NM
- **Accelerates operational tempo**
  - Faster attrition of enemy personnel and equipment
  - Operation timeline shifts left
- **Reduces Cost per Kill**
  - Lower Unit Cost
  - Lower handling Cost
- **Enhances Safety**
  - Reduced collateral damage
  - Simplified storage, transportation and replenishment
  - No unexploded ordnance on battlefield
- **Reduces Logistics**
  - Eliminates gun powder trail
  - Deep magazines

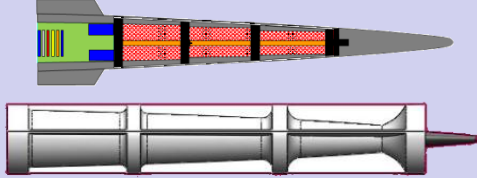

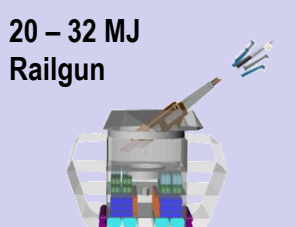

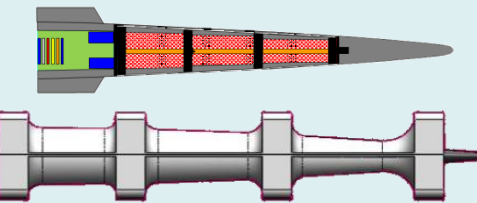

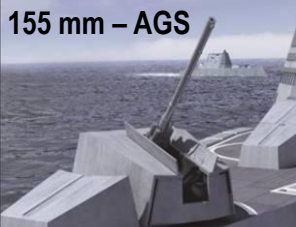

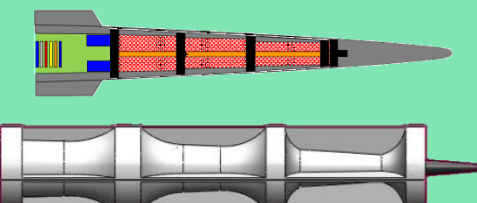

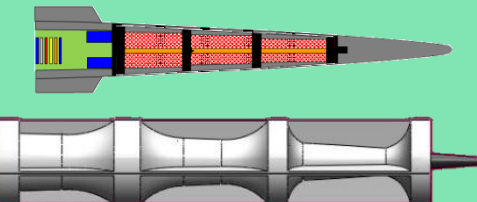

- **Multi-Mission Capability**
  - Naval Surface Fire Support
  - Surface Warfare
  - Missile Defense
  - Long Range Fires

*Multi-Mission Capable for Offense and Defense*

# Commonality Approach

GUN SYSTEM	PROJECTILE (SABOTED & SUB-CALIBER)	MISSION & WARHEAD TYPE	TRANSITION OPPORTUNITES	GAME CHANGING CAPABILITY
<p>5" MK 45 MOD 2/4</p> 		<p>NSFS – HE</p>	<p>113 Barrels (PEO IWS)</p>	<p>GUIDED 26 – 41 NM NSFS/ASCM/ASuW</p>
<p>20 – 32 MJ Railgun</p> 		<p>NSFS – HE NSFS - KE</p>	<p>FUTURE (PMS405/PEO IWS)</p>	<p>GUIDED 50 - 100 NM NSFS/ASCM/ASuW/ Future Threats</p>
<p>155 mm – AGS</p> 		<p>NSFS – HE</p>	<p>6 Barrels (PEO IWS)</p>	<p>GUIDED 40 NM NSFS/ASCM/ASuW</p>
<p>155 mm</p> 		<p>Ground Fires – HE</p>	<p>800 ARMY 300 MARINE ASSETS</p>	<p>GUIDED 17 NM Fires/CMD</p>

*Multi- Barrel , Multi- Mission, & Multi-Service Applications*

**Pulsed Power at the Electromagnetic Launch Facility, Dahlgren, VA**

## High Density Power Electronics

- Charging Power Supplies for Advanced Energy Systems
- Converting Ship's Power to High Voltage for Electric Weapons
- Supports Electric Drive, Railguns, Lasers & Radars

## Pulsed Forming Network

Actively Cooled Rep- for Mobility & Demo  
Rate Pulsed Power Module Platform Flexibility

- Capacitor based PFN
- Higher Energy Density lowers shipboard volume/footprint
- Rep rate operation & thermal management

## Battery Energy Storage

- Energy Storage to buffer Prime Generators
- Ready Reserve Energy for response to "quick" threats
- Requires close Ship Safety Design, Test & Monitoring

## System / Ship Integration

- Dynamic power sharing across platform
- Designing with Space and Weight Constraints
- Assessing Thermal and EM Field management
