Welcome to THELINK!

Welcome to the first issue of THELINK newsletter, a quarterly publication that will highlight information important to you – our DLA suppliers! Each quarter, all active DLA Internet Bid Board System (DIBBS) users will receive a PDF via email. THELINK will also be posted on the Enterprise Business Systems Supplier Information Resource Center (EBS SIRC) along with a notice on the DIBBS website: <https://www.dibbs.bsm.dla.mil> with a direct link to the publication. If you are unfamiliar with the EBS SIRC you can visit it at <http://www.dla.mil/HQ/InformationOperations/Business/EBSSupplierResources.aspx>.

The featured article in this issue, located on page 3, includes the results from the recent DIBBS Survey. You will see an overview of our findings and a few of the actions we are taking to improve your overall DIBBS experience. Also within this issue are articles about new DIBBS functionality, useful updates, reminders and various topics from our engineering, supply, policy and small business groups.

ZIP + 4 Update in SAM & DUNS

Correcting your ZIP code +4 will ensure transparency of Department of Defense contracting data within government procurement repositories such as Federal Procurements Data System Next Generation (FPDS-NG). All DoD contracts issued within the United States must be properly aligned and associated to a ZIP +4. You can find your full ZIP code by using the USPS ZIP code look-up at: https://tools.usps.com/go/ZipLookupAction_input. Please help us by correcting your ZIP +4 in SAM.GOV (System for Award Management) and Dun and Bradstreet (D&B) by following the instructions in the job aid posted at: http://www.dla.mil/Portals/104/Documents/InformationOperations/EBS%20Supplier%20Information/How_to_update_%20ZipCode4_v3.pdf?vers=2016-06-29-151000-703

Each issue will include upcoming events and other useful tips. We hope you will find this and every issue informative. This publication is for you so if you have a suggestion for an article, please send it to dibbsbsm@dla.mil. As a reminder, you can always find out more about DLA by visiting our Facebook, Twitter, YouTube or DLA Website listed to the left. We encourage you to share this information throughout your companies to further improve communications between DLA and our valued suppliers.

Thank you for partnering with us to support our warfighters!

Cyber Security

- National security and intelligence officials have long warned that cyber attacks are among the most serious threats facing the United States
- The U.S. government was hit by more than 77,000 "cyber incidents" such as data thefts or other security breaches in fiscal year 2015, a 10% increase over the previous year, according to a White House audit
- “Despite unprecedented improvements in securing federal information resources ... malicious actors continue to gain unauthorized access to, and compromise, federal networks, information systems, and data,” the report said

“Number of U.S. government
‘cyber incidents’ jumps in 2015”
