## NDIA Letter from the President

As President of NDIA, I am proud to invite you to our 7th Annual NDIA professional and educational event on a critical national defense topic, and the subject of an increasingly important and continuously growing new body of military art: Integrated Air and Missile Defense, or IAMD. In addition to updates on the state of critical IAMD systems and initiatives, the theme this year will be to highlight their vision for the future of IAMD in the light of 3rd Offset ideas from our distinguished speakers.

This classified, no-media-allowed, not-for-attribution professional, educational Symposium, hosted by the teamed NDIA Missile Defense Division and the NDIA Strike, Land Attack, and Air Defense (SLAAD) Division, will give you unfiltered, unvarnished straight talk and discussion about relevant IAMD priorities and challenges from the Office of the Secretary of Defense, the Missile Defense Agency, and the Services regarding IAMD considerations critical for 3rd Offset program success and the state of Integrated Air and Missile Defense overall, including an update on international maritime integrated air and missile defense activities.

You will get valuable, “off the record” insights and information from key decision makers on such issues as:

- The current Joint and Service priorities in IAMD’s contribution to the 3rd Offset;
- An update on and insights into the critical current and emerging threats which make advances in IAMD capability a national imperative;
- The latest investments in IAMD capabilities and technologies, and where we will be heading in the near and longer-term future.

As in the first six of our “State of IAMD” symposia, our seventh IAMD event is being held at the Kossiakoff Conference Center of the Johns Hopkins University Applied Physics Laboratory, conveniently located in nearby Laurel, MD, on Thursday, the 14th of July 2016.

Don’t miss this once-a-year chance to get updated and educated on take on the latest on IAMD --- especially if you are a government, military, or industry technical and engineering professional. Take advantage of this exclusive opportunity to connect with the people you need to meet and learn what you need to know from the people in-the-know on IAMD systems, planning and development.

Register today at [www.ndia.org/meetings/6100](http://www.ndia.org/meetings/6100). We look forward to seeing you and your team there!

Sincerely,

General Craig R. McKinley, USAF (Ret)  
NDIA President & CEO

## LEARN WHAT YOU NEED TO KNOW FROM LEADERS IN THE KNOW ABOUT IAMD

### WHY YOU SHOULD ATTEND:

#### ▶ STRAIGHT TALK OFF THE RECORD

Get insiders’ takes -- in a completely media and attribution-free zone --on the Visions for the future of this critical, new military art --- Integrated Air and Missile Defense (IAMD) --- in light of the 3rd Offset effort --- from a range of current leaders. Learn the latest on the needs, priorities and challenges in implementing the global BMDS, the Phased Adaptive Approach and other IAMD priorities from leaders with the Missile Defense Agency, Department of the Navy and other services. The classi-fied nature of this event, with no media allowed, will mean speakers can respond candidly to questions from the audience.

#### ▶ THE LATEST ADVANCES. THE LATEST TECHNOLOGIES.

Learn the latest on 3rd Offset-related IAMD initiatives; integration and interoperability; Command and Control and Integrated Battle Command Systems; on the European Phased Adaptive Approach (PAA); the BMDS and C2BMC; GMD; Aegis BMD; the latest Systems Engineering initiatives in IAMD; and, much more.

#### ▶ TOP IAMD DECISION MAKERS AND OPINION LEADERS

Get insights on the current state of IAMD from the relevant, OSD, Joint and Service leadership.

#### ▶ POWERFUL NETWORKING. POWERFUL CONTACTS.

Find contacts, partners and opportunities for supporting IAMD by connecting with industry, mili-tary, government and academic leaders and other professionals interested in IAMD development.

#### ▶ WHO SHOULD ATTEND

Professionals interested in IAMD planning and development, especially business development, technical and engineering professionals in government, industry, academia and the military. Please note that active duty military may register and attend this event at no cost.

#### ▶ A SPECIAL VENUE FOR A SPECIAL EVENT

This symposium is being held at the Kossiakoff Conference Center of The Johns Hopkins University. A world class research facility, the Lab has been a valuable asset to the nation since it was organized to develop critical World War II technology in 1942. Today it is working on more than 600 programs to protect our homeland and advance our nation’s vision in research and space science.

#### ▶ SECURITY INFORMATION

This symposium is classified Secret U.S. Only. All attendees must be U.S. Citizens holding a Secret or higher clearance. Visit requests should be sent via JPAS to SMO 888984; POC is Becky Battaglia, and purpose of visit is NDIA/IAMD Symposium. If you do not have access to JPAS, a visit request should be faxed to 443-778-6400, attention: Visitor Control. Event POC is Tiffany Wilson.
