

A Dynamic Operational Environment

Identifying the Adversary
State/State Sponsored
Non-State, Militias, Ideological Hybrid

Influence Operations
Low Intensity Conflicts
Gray Zone Challenge
Preparation of the Environment

Conventional Capabilities
Kinetic Advancements
Naval & Maritime Presence

Asymmetric, Hybrid Capabilities
Technology Driven
Unmanned and EM Advancements

Needs for the Dynamic Environment

C2 & Intel Systems with "I-3"
Capability for SOF, Interagency,
and Partner Nations

Integrated, Interchangeable SOF
Payloads for UAS Options

Friendly/Hostile Force
Tracker Resistant to Physical
and / or Electronic
Detection

My Priorities

- Deploy Regionally Aligned, Integrated Full Spectrum SOF
- Optimize Force Generation and Combat Readiness
- Develop The Future Force = Organization, People and Capabilities
 - Enhance SOF-MAGTF-Naval Capability Integration
- Preserve Our Family and Forces

On-the-Move, Scaled Down,
Networked, Self-Healing
Maritime & Over-the-Horizon
Comms

Information Operations
Electronic Warfare

"Modern Camouflage":
Low Visibility
Identification Management
