DSS in Transition

“We are changing the way we protect National Security Information & Technologies”

- **National Industrial Security Program designed for vastly different time**
- **Need to move to risk-based approach that:**
 - ✓ Identifies what needs protection
 - ✓ Considers the threat & vulnerabilities
 - ✓ Develops a tailored security plan
- **Insider Threat – DITMAC SORN**

New DSS Methodology – What It Looks Like

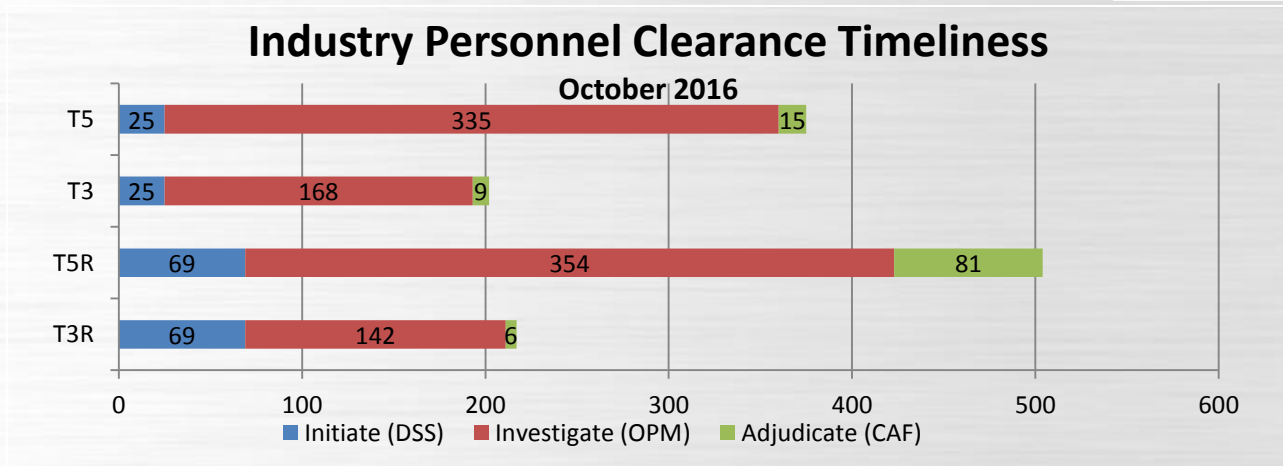

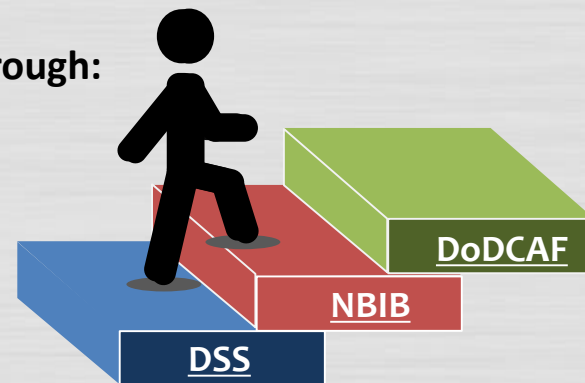

Simple, Fast, Agile

State of Play - Personnel Security Investigations (PSI)

Addressing the PSI-I Shortfalls - Short term & sustainable solutions through:

- ✓ Critical Priority Requests (CPR)
- ✓ Expeditious processing for interim determinations

DSS - Review e-QIP for completeness and submittal to NBIB

NBIB - Schedules and completes investigation

DoDCAF - Reviews completed investigation against adjudicative guidelines
