10:15 am **SUSTAINING GLOBAL ENGAGEMENT - COCOM 4'S**

Future conflicts will likely be trans-regional, multi-domain, and multifunctional. This panel will discuss the changing nature of COCOM logistics requirements and authorities to support future U.S. global engagements. What is the CCMD's approach to deconflicting logistics support for transregional threats? How can the U.S. military better use and partner with industry in the battlespace? What role does industry play in helping maintain global surge capability? What are the implications of short logistics planning and coordination timeframes that will likely be encountered in future combat and HADR operations?

Moderated by MajGen John Broadmeadow, USMC, *Vice Director for Logistics, J4, Joint Chiefs of Staff*

- ▶ BG John O'Neil, USA, *Director, Logistics, Engineering and Security Cooperation, J4, U.S. Pacific Operational Command*
- ▶ RDML Lee Singleton, USN, *Director of Logistics, U.S. European Command*

1:00 pm **GLOBALLY INTEGRATED LOGISTICS: OPPORTUNITIES TO LEARN FROM AND SUCCEED IN THE GLOBAL MARKET SPACE**

This panel will discuss the critical importance of operating and maintaining an integrated and multinational logistics capability to support ongoing global engagements. How will the U.S. ensure that it can effectively project power and operate seamlessly with its allies? How important is interoperability and the need to leverage international relationships and geographic partners in an already austere budget environment? How is security cooperation working to ensure that our allies are in the best possible position to help support global operations?

Moderated by VADM Mark Harnitchek, USN (Ret), *Director, Aviation Modernization & Sustainment, The Boeing Company*

- ▶ BG Barbara Doornink, USA (Ret), *Programme Manager, MD Leidos Europe, Ltd., Logistic Commodities & Services (Transformation)*
- ▶ Maj Gen Larry Martin, USAF, *Assistant Deputy Under Secretary of the Air Force, International Affairs*
- ▶ RADM James Shannon, USN, *Deputy Assistant Secretary and Director, Navy International Programs Office*

2:15 pm **NDIA LOGISTICS DIVISION FOCUS AREAS**

Over the past two plus years, the NDIA Logistics Division, in close collaboration with key Department of Defense executives, has worked to plan and implement executable improvements to existing multi-year funding, contracting, and Public Private Partnership business practices. This panel will report progress to date and the way ahead for each of these critically important activities which take place at the intersection of government and industry.

- ▶ Lt Gen Charles Johnson, USAF (Ret), *Vice President, National Security and Space, Air Force Mobility, C3/Networks & Support Systems, Air Force Systems, The Boeing Company*
- ▶ Mr. Lou Kratz, *Vice President, Logistics and Sustainment, Lockheed Martin Corporation*

3:15 pm - 3:45 pm **NETWORKING BREAK IN THE EXHIBIT HALL**

3:45 pm **TITLE 10 LOGISTICS PROVIDERS: TRAINED AND READY! - SERVICE 4'S**

This panel will focus on the current operating policies, resourcing models and senior leader priorities to support and sustain readiness and training in the Military Services. Further, the panel's discussion will highlight the challenges that face the services' senior military logistics leaders in assessing and developing talent; organizing, training and presenting logistics collective capabilities to support the combatant commanders around the globe. Senior leaders will be questioned on emerging concepts that lever and integrate both service(s) and national level organizations, their increasing reliance upon industry capabilities, innovative technologies, and acquisition strategies to achieve more responsive, sustained, and precise logistics support.

Moderated by LTG Robert Dail, USA (Ret), *Chairman, NDIA Logistics Management Division*

- ▶ Lt Gen John Cooper, USAF, *Deputy Chief of Staff for Logistics, Engineering and Force Protection, Headquarters, U.S. Air Force*
- ▶ VADM Philip Cullom, USN, *Deputy Chief of Naval Operations for Fleet Readiness and Logistics, Office of the Chief of Naval Operations*
- ▶ LtGen Michael Dana, USMC, *Deputy Commandant, Installations and Logistics, Headquarters, U.S. Marine Corps*

1:30 pm OPTIMIZING AMERICA'S DEFENSE SUSTAINMENT CAPABILITIES

The United States' military is arguably the most powerful and technologically advanced military force in the world, but is also the most expensive. The acquisition cost of weapon systems continues to climb due to market forces and, with the life cycle cost of sustainment estimated to be three to four times the cost of the hardware, it is hard to see how we can continue to support the force without breaking the budget. The good news is that we have a defense industrial base robust enough to solve this challenge, if government and industry can trust one another enough to work together. Both sides have obvious advantages they can bring to the table, and it would not take much to achieve a workable solution that plays to the strengths of each. Working together, we can reach the ideal end state that combines the strengths of both parties to achieve an affordable sustainment solution that meets the needs of both government AND industry. This panel will explore ideas that address the achievement of affordable and effective depot level sustainment solutions.

Moderated by Mr. Terry Emmert, *Acting Deputy Assistant Secretary of Defense for Materiel Readiness*

- ▶ Mr. Russell Howard, *Assistant Deputy Commandant for Aviation (Sustainment), Headquarters, U.S. Marine Corps*
- ▶ COL Lee Schiller, USA, *Commander, Watervliet Arsenal*
- ▶ Mr. Jim Sutton, *Director, Global Relations, Northrop Grumman Corporation*

2:45 pm - 3:15 pm NETWORKING BREAK

WEDNESDAY, APRIL 20 (CONTINUED)

3:15 pm ACQUISITION AND PROCUREMENT: EQUIPMENT, MATERIAL AND SERVICES

This panel will include a broad discussion of the challenges and opportunities faced by the acquisition community in providing support to the warfighters in view of fiscal constraints in the coming years. What action is being taken to reduce program sustainment costs throughout the lifecycle? What are the barriers to use of incentive based contracting vehicles like PBL, and how can government and industry work together to address those barriers? How is the acquisition process incentivizing innovation in Industry?

Moderated by Hon. Alan Estevez, *Principal Deputy Under Secretary of Defense for Acquisition, Technology and Logistics*

- ▶ Lt Gen Arnold Bunch, USAF, *Military Deputy, Office of the Assistant Secretary of the Air Force for Acquisition*
- ▶ Mr. James MacStravic, *Acting Principal Deputy, Assistant Secretary of Defense for Acquisition, Office of the Under Secretary of Defense for Acquisition, Technology and Logistics*
