ABOUT US

LMI is a consulting firm dedicated to improving the management of government. With more than 1,000 consultants, we design and implement solutions to some of the toughest problems facing government managers in logistics, information technology, and resource allocation.

INSIGHT

Our innovative problem solving provides valuable insights into possible solutions.

OBJECTIVITY

Our independence ensures we operate free from conflicts of interest.

PRACTICAL RESULTS

Our solutions are outcome driven and results oriented.

SHARED PURPOSE

Our shared spirit of public service and deep knowledge of government operations enhance our recommendations.

SIGNIFICANT VALUE

Our net revenue supports our mission, not shareholder return, delivering more value per dollar.

MIXED REALITY AND IMPACT ON DATA

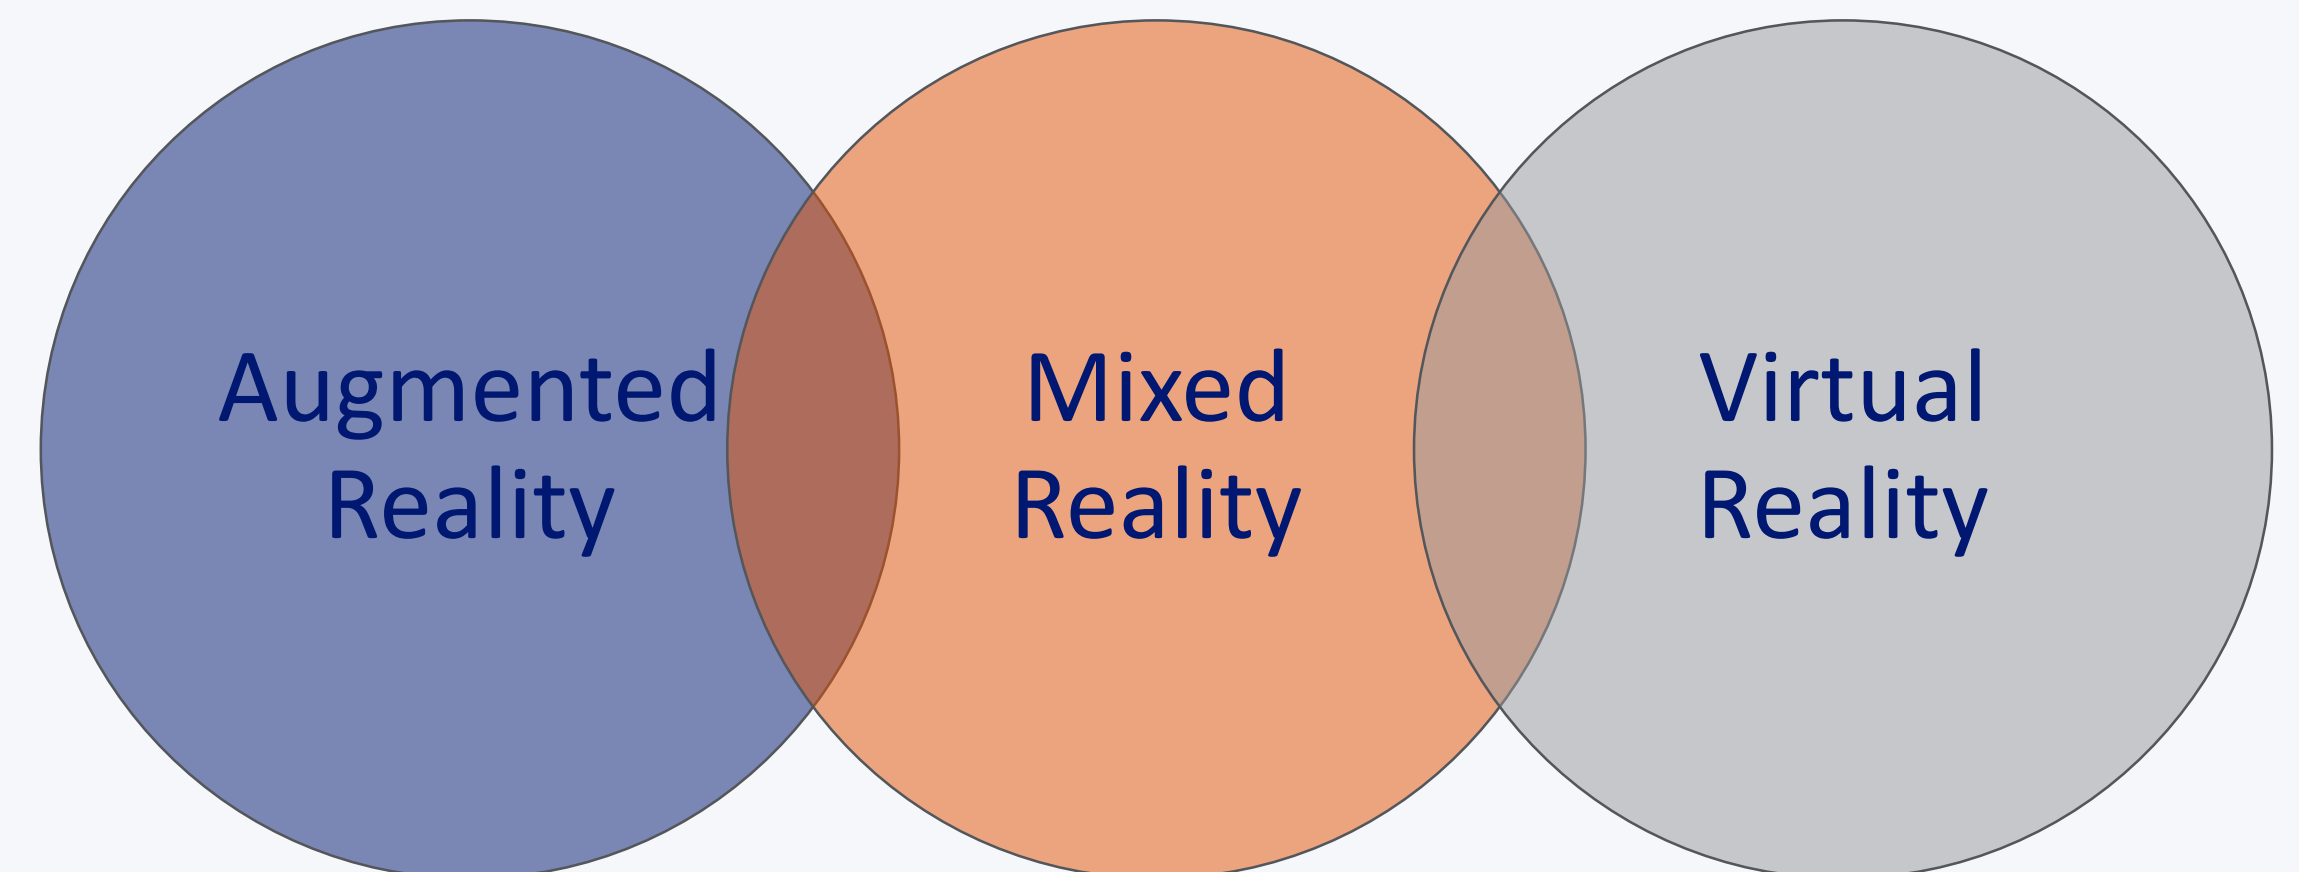

Data Redefined

- The ability to make data interact with its environment is the next step in the evolution of data and data services

AR vs MR vs VR

- Augmented Reality is an overlay of virtual content onto the real world
- Mixed Reality is a mix of the real world and a virtual world, allowing the virtual world to respond to the real world
- Virtual Reality is an entire virtual world

COMMUNICATION

OUR APPLICATIONS

Spatial planning

- Communicating spatial plans has challenges:
 - Laborious symbolic
 - No Interaction
 - 2D

Training and Maintenance

- Communicating physical actions has challenges:
 - Lack of engagement
 - No familiarity with physical interaction
 - Scarcity and cost

SPATIAL DESIGN AND PLANNING
