

# SPECIAL OPERATIONS FORCES INDUSTRY CONFERENCE

*Win • Transform • People*

Mr. Vincent Grizio *Program Manager*  
**MISSION SUPPORT SYSTEMS (MSS)**

# Program Manager Mission Support Systems

# Program Manager Mission Support Systems

## Multi-INT Capabilities for Operational Intelligence:

- Integration & Interoperability to the Tactical Edge
- Agile Acquisition of Emerging Technologies

## Priorities:

- Fielding of Advanced Analytics & Union Dagger
- Solutions Framework for Data Exploitation

## MSS Portfolio:

- Integrated Survey Program
- SOF Planning Rehearsal & Execution Preparation
- DCGS-SOF Enterprise & ASIF
- Full Motion Video PED
- SIGINT PED
- Data Management and Exploitation

### ACQUISITION STRATEGY

- Partner with National Mission Forces, IC community, Services, SOF C4 and industry partners
- Agile development

### PERIOD OF PERFORMANCE

- Multi year support contracts
- HW QRC Deliveries in 14 to 90 Days

### MILESTONES

- Periodic program reviews
- Technology insertions to field emerging capabilities

### POINT OF CONTACT

- Technology & Industry Liaison Office
- TILO@SOCOM.mil
- 813-826-9482

### FUNDING

<u>APPROP</u>	<u>FY18</u>	<u>FY19</u>
• O&M	\$57.22M	\$49.32M
• PROC	\$11.57M	\$21.70M
• RDT&E	\$6.19M	\$10.07M

### CURRENT CONTRACT/OEM

- Multiple: HW, SW, IT, Technical Management Support
- Foreign Comparative Test (FCT)
- SBIR, Rapid Innovation Fund

# Integrated Survey Program (ISP)

## Description:

- CJCS CONPLAN support to Special Operations Forces.
- Conducts surveys for contingency planning and crisis response.
- Surveys U.S. Facilities and other interests abroad.

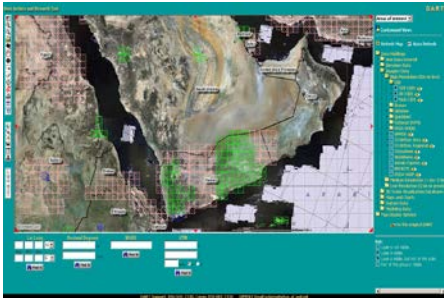

## Operational Mission:

- Field Survey Collection and Production
- Dissemination to garrison and deployed to all DoD SOF, conventional forces and interagency.
- Data Sharing with Coalition Partners

## Milestones:

- Mobile application for distributed data management.
- Ongoing test and evaluation of ISP tools to speed collection.
- Enterprise GIS data services.

# SOF Planning, Rehearsal & Execution Preparation (SOFPREP)

## Description:

- Produces Enhanced GEOINT (maps, imagery, and terrain data) and 3D Scene Visualization Databases
- Manages SOCOM's most comprehensive repository of SOF-common geospatial Data
- Database support for Component Simulators, JTAC Training Rehearsal Systems, Mission Planning, Virtual Mission Rehearsal, Gaming Engines and 3D Globes

## Operational Mission:

- Garrison system for Geospatial-Intelligence Data Processing, Exploitation and Dissemination
- Operational Intelligence support for Mission Rehearsal and Planning

## Milestones:

- HPC Infrastructure Modernization FY19
- Re-compete Database Production FY19
- Rapid, Iterative Prototyping of Emerging Capabilities for GEOINT PED Automation

# DCGS SOF Enterprise/All Source Information Fusion

## Description:

- The Enterprise provides infrastructure and processing capability to allow for worldwide SOF intelligence information sharing
- All Source Information Fusion will provide the intelligence analytical tools via a global and disconnected architecture

## Operational Mission:

- Part of a family of systems providing Intelligence, Surveillance, and Reconnaissance (ISR) Processing, Exploitation, and Dissemination (PED) and analytical capabilities at the Joint Task Force level and below
- Interconnect the warfighter and sensors to find and fix High Value Targets of interest
- Provide a network-enabled interoperable construct allowing continual unimpeded sharing of intelligence data, information and services

## Milestones:

- User evaluation of All-Source Analytical Environment capability
- Pivot to OGA All-Source Advanced Analytical Environment platform

# Full Motion Video Processing, Exploitation & Dissemination

## Description:

- Provides PED capabilities in garrison and deployed tactical environments from airborne/national imagery overhead collection sensors and intelligence databases

## Operational Mission:

- Intelligence processing of collected data from various manned and unmanned ISR platforms & sensors
- Near-real-time find-fix-finish-exploit-analyze (F3EA) intelligence operations on a 24/7/365 basis at all levels of warfare (Strategic, Operational, Tactical)

## Milestones:

- Full Rate Production Decision, Sept 2012
- Geospatial Intelligence Imagery Processing, Exploitation, and Dissemination CPD rev 2.0 signed July 2018
- Delivered hardware to support 11<sup>th</sup> SOIS increase in mission capacity
- Initial fielding of Deployable and Tactical PED systems to Components and TSOCs
- Participate in Trident SPECTRE 18

# Silent Dagger Processing, Exploitation & Dissemination

## Description:

- Provides Signals Intelligence (SIGINT) exploitation capability in both garrison and deployable environments
- Silent Dagger has fielded garrison workstations and deployable nodes

## Operational Mission:

- Provides SOF SIGINT elements a robust, organic, scalable capability for garrison and tactical SIGINT Processing, Exploitation and Dissemination
- Interconnect the warfighter and sensors to find and fix High Value Targets of interest

## Milestones:

- Milestone C, Feb 2011
- Program Parameter Change Dec 2014
- Fielded first Deployable SDv3 system upgrade
- Completed partial CERP of component hardware

# Mission Support Systems DCGS Technology Insertion Roadmap

Enterprise

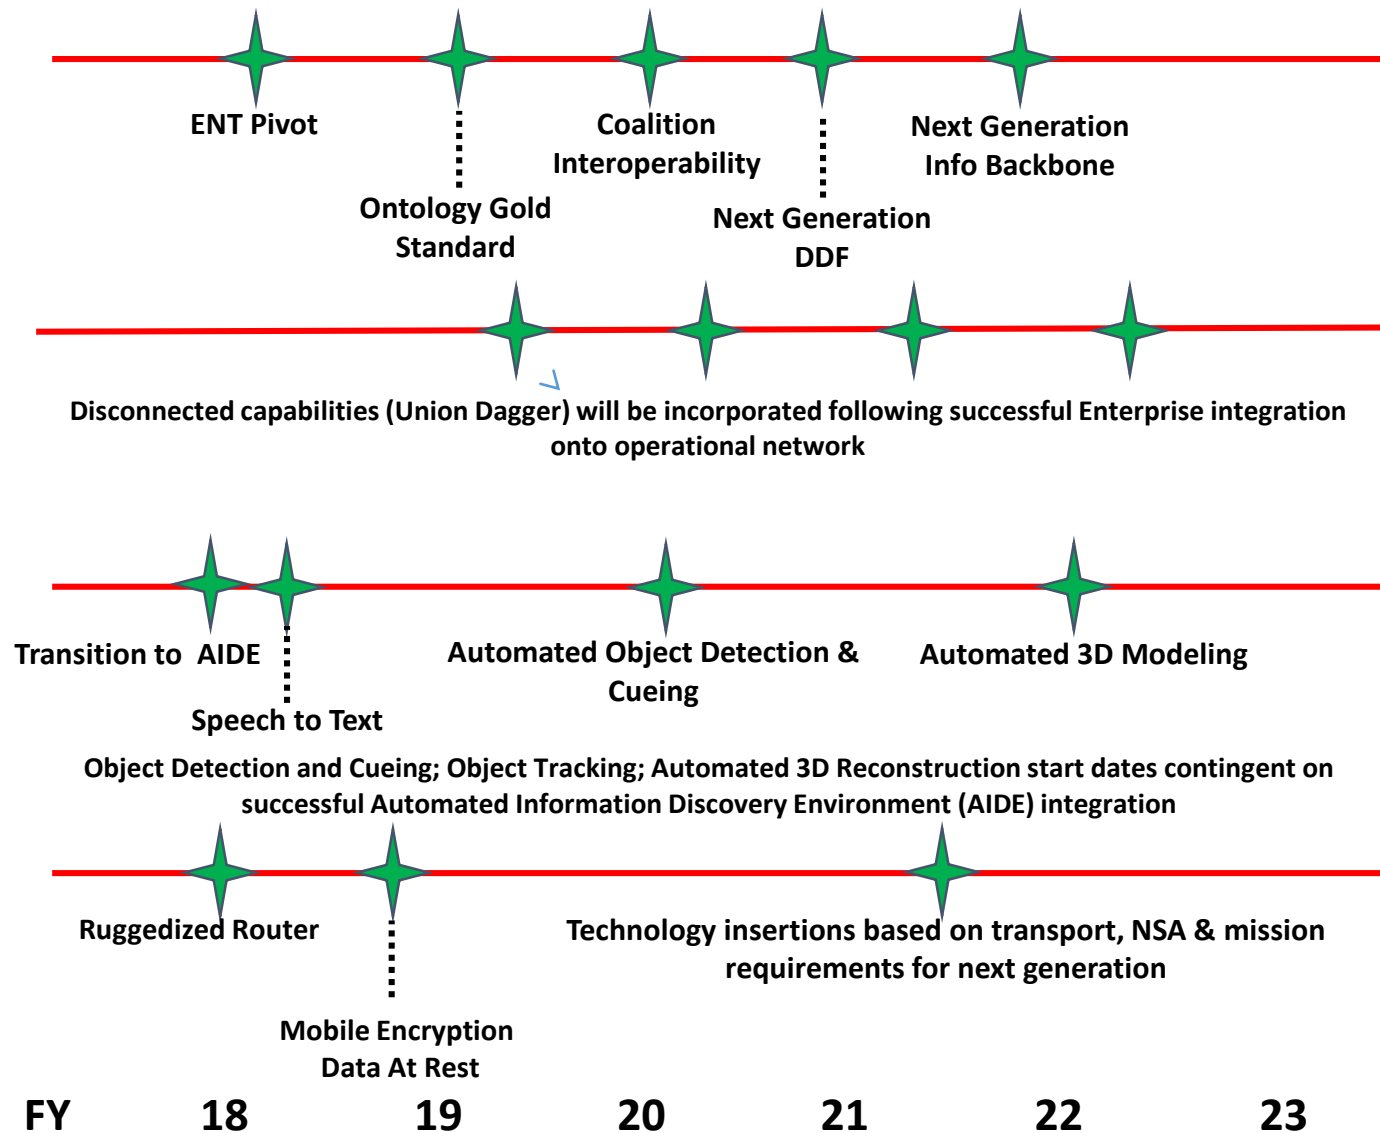

Union Dagger

FMV PED

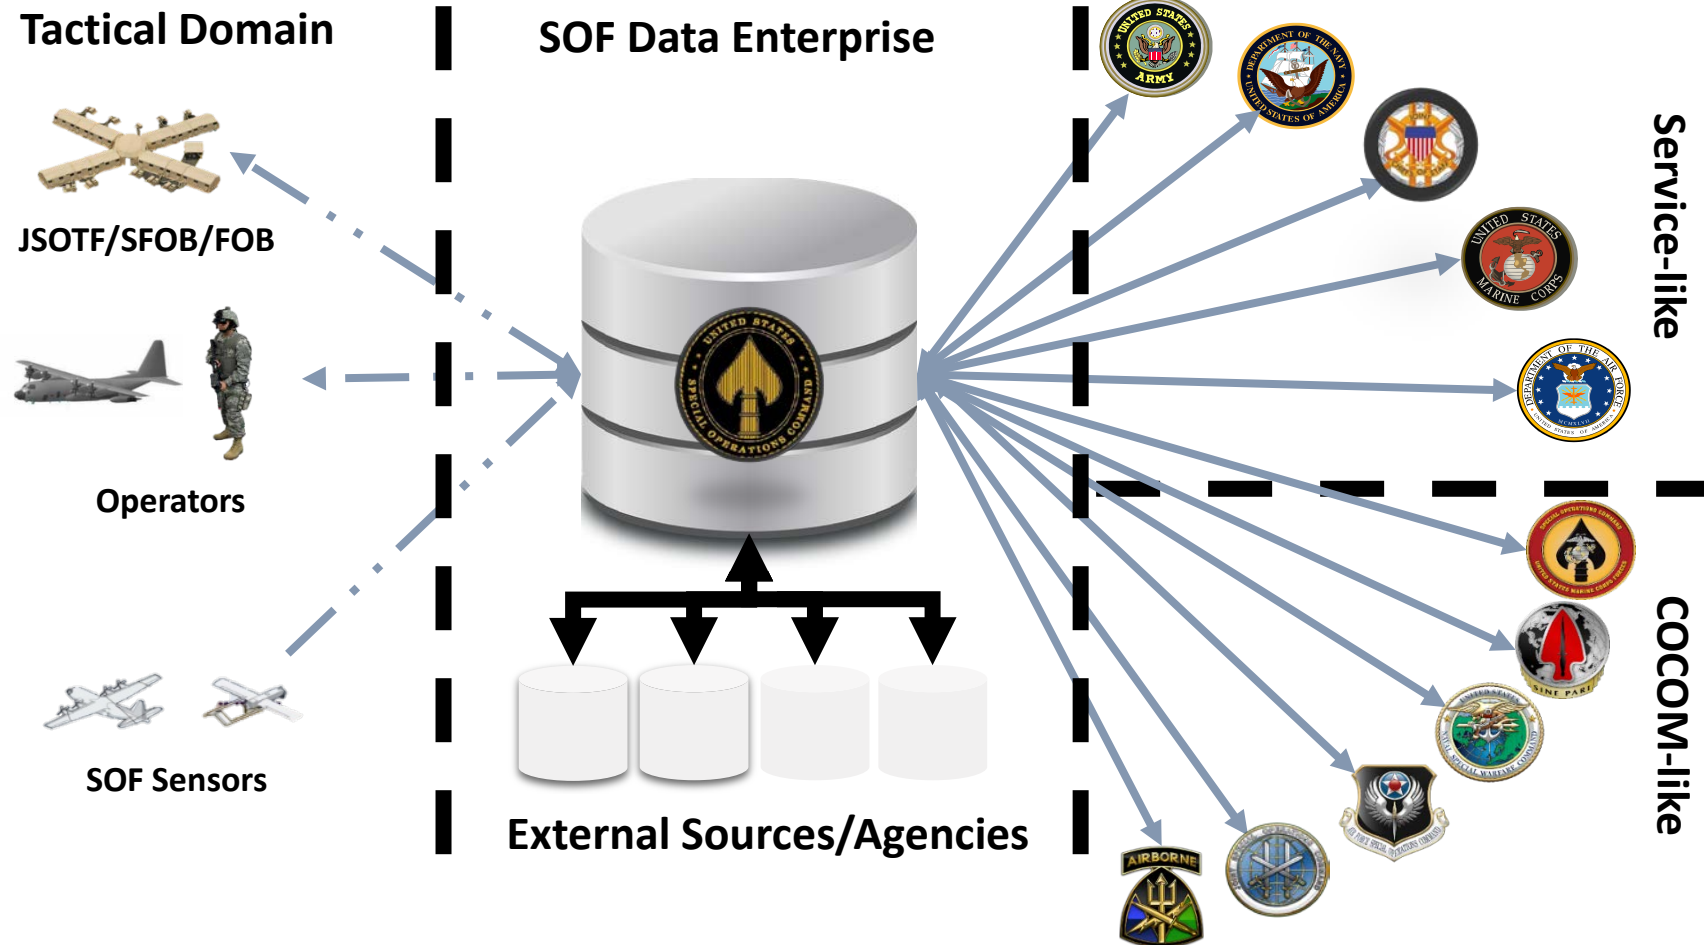

Silent Dagger

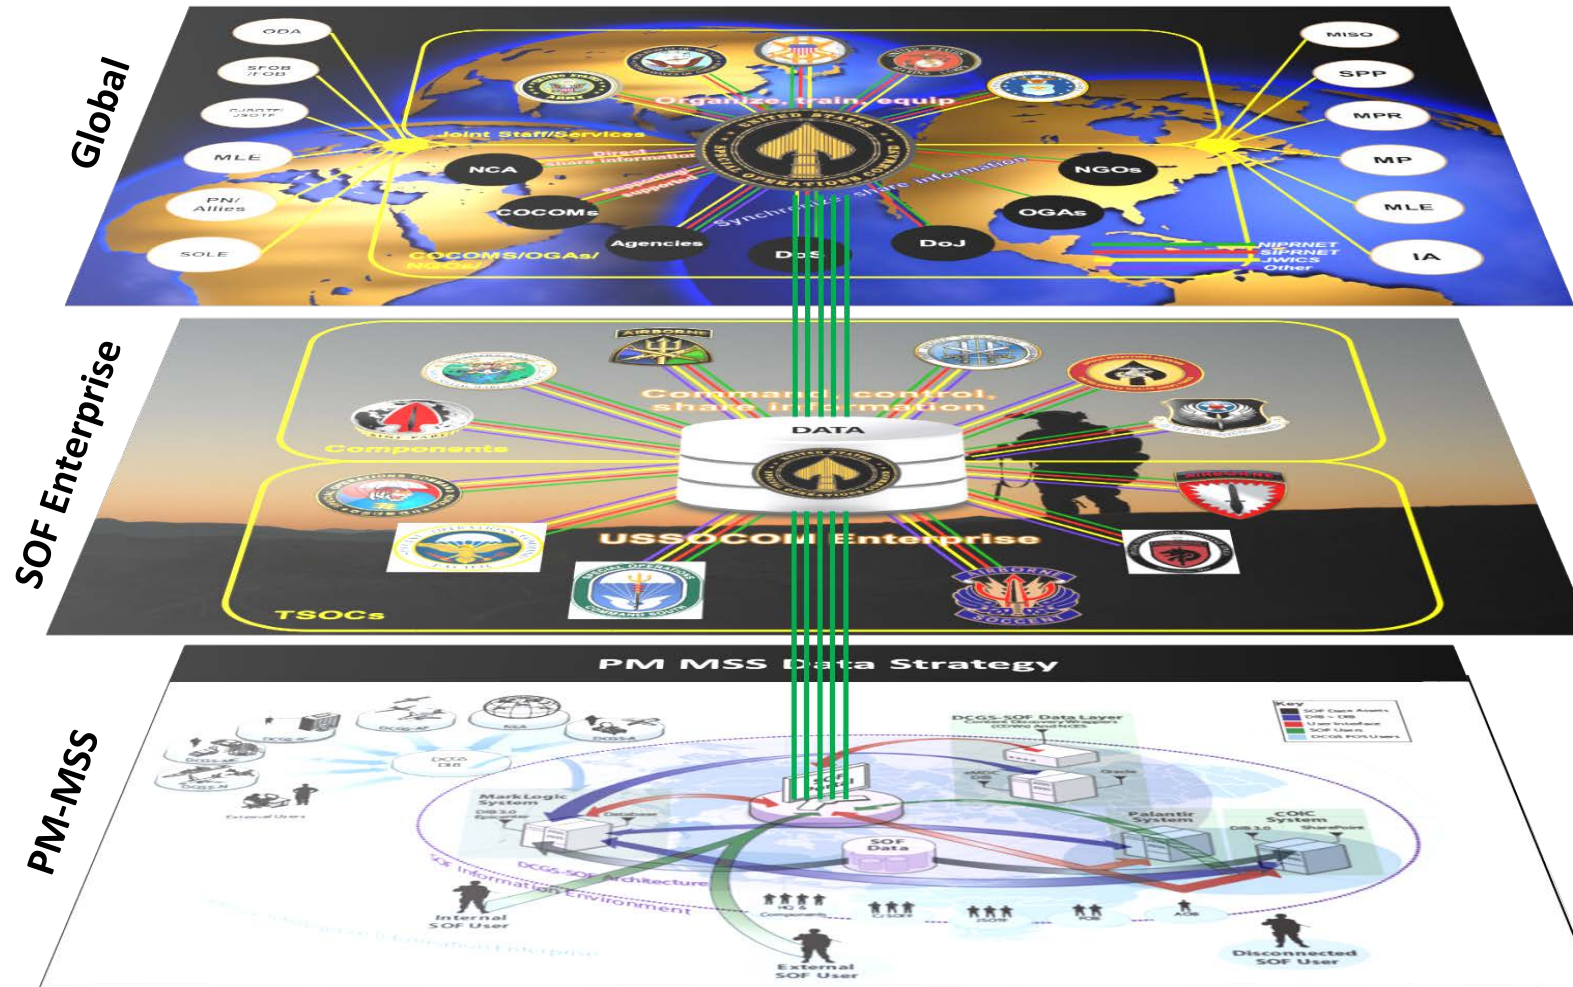

# Data Management and Exploitation Concept

## Operational View

# Data Management and Exploitation Concept

## Global SOF Information Exchange

# Capability Insertion Opportunities

- Integration & Fielding of Advanced Analytics
- Solutions Framework for Data Management and Exploitation
- FMV PED Automation and Analysis, Incorporate Machine Learning and AI Capabilities
- Partner with Academia, National Labs and OGA on Technology Insertion Points
- Modernization of HPC Infrastructure for Imagery Processing and 3D Data Production
- Standards & Interoperability across Systems
- SRSE BAA, Exercise Participation, SOFWERX Event, TILO Discussions
