NDIA

WHO WE ARE

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA engages thoughtful and innovative leaders to exchange ideas, information, and capabilities that lead to the development of the best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA's membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who form a vigorous, responsive, and collaborative community in support of defense and national security. For more than 100 years, NDIA and its predecessor organizations have been at the heart of the mission by dedicating their time, expertise, and energy to ensuring our warfighters have the best training, equipment, and support. INTEGRATED PROGRAM MANAGEMENT

WHO WE ARE

The Integrated Program Management Division promotes a strong industry-government working relationship to address disciplined program performance management methodologies for planning and executing programs to optimize outcomes. Disciplined program performance management methodologies include earned value management. The IPMD initiates and leads program management improvement initiatives with the DoD and other federal agencies for the mutual benefit of the industrial base and the government to understand and adapt to changes in the procurement environment.

OUR OBJECTIVES

- Collaborate with key stakeholders. The Division proactively engages and participates with government, industry executive leadership, industry groups, academia, and other entities to foster the advancement of IPM.
- Provide an open forum for industry, defense, civilian agency leaders, and educators to promote IPM best practices.
- Facilitate interaction with government policymakers to foster a better understanding of their mission through first-hand information on current topics such as impending policy, leadership, regulatory, or process changes that can affect programs.
- Broaden professional networks with industry leaders, organization leaders from a variety of sectors such as civilian agencies and DoD services, and other related program management disciplines such as systems engineering.
- Solicit advice from experts while sharing program management best practices with industry and government counterparts.
- Contribute to industry guides and white papers with working groups.

HARASSMENT STATEMENT

NDIA is committed to providing a professional environment free from physical, psychological and verbal harassment. NDIA will not tolerate harassment of any kind, including but not limited to harassment based on ethnicity, religion, disability, physical appearance, gender, or sexual orientation. This policy applies to all participants and attendees at NDIA conferences, meetings and events. Harassment includes offensive gestures and verbal comments, deliberate intimidation, stalking, following, inappropriate photography and recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome attention. Participants requested to cease harassing behavior are expected to comply immediately, and failure will serve as grounds for revoking access to the NDIA event.

EVENT CODE OF CONDUCT

NDIA's Event Code of Conduct applies to all National Defense Industrial Association (NDIA), National Training & Simulation Association (NTSA), and Women In Defense (WID) meeting-related events, whether in person at public or private facilities, online, or during virtual events. NDIA, NTSA, and WID are committed to providing a productive and welcoming environment for all participants. All participants are expected to abide by this code as well as NDIA's ethical principles and practices. Visit [NDIA.org/CodeOfConduct](https://www.ndia.org/CodeOfConduct) to review the full policy.

REAL-TIME Q&A

Sli.do is an audience engagement platform that allows users to crowd-source top questions to drive meaningful conversations and increase crowd participation. Participants can up-vote the questions they would most like to hear discussed. Simply tap the thumbs-up button to up-vote a question. Top questions are displayed for the moderator and speaker to answer. Ask your question in sessions by going to Sli.do! Scan QR code to access Sli.do

IPMD BOARD MEETING RECAP

ZOOMGOV (VIRTUAL)

The NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

BIOGRAPHIES

IVAN BEMBERS

*National Reconnaissance Office (NRO) Earned Value Management (EVM) Focal Point
Cost and Acquisition Assessment Group (CAAG)*

Mr. Ivan Bembers is the National Reconnaissance Office (NRO) Earned Value Management (EVM) Focal Point in the Cost and Acquisition Assessment Group (CAAG). He is responsible for leading effective use of Earned Value Management (EVM) across the agency, facilitating Integrated Baseline Reviews, implementing

agile and EVM integration best practices, performing independent assessments, as well as conducting EVM system implementation reviews. Over the last several years, he has led the development and completion of new research standardizing enterprise schedule analysis methods with data science for early warning analysis of program schedule delays requiring critical decision points for program recovery, as

well as improved independent schedule risk assessment methods. He has experience serving in EVM leadership roles across the US Intelligence Community for over 20 years. He is a recipient of the 2021 Defense Acquisition Workforce Individual Achievement Award for EVM and the 2021 Intelligence Community Resource and Financial Management Excellence in Innovation Performance Management Award.

KEVIN CARNEY

*Program Analyst
Office of Project Controls and Policy, U.S Department of Energy*

Mr. Kevin Carney is a Program Analyst for the Department of Energy's Project Controls and Policy Division (PM-30). He supports the deployment of EVM policies and assessment methods and is responsible for reviewing contractor's EVMS plans and verifying initial and continuing compliance with Industry standards. He has led the development of numerous policies evaluating

contractor effectiveness, to include manufacturing, quality, EVMS and other business system reviews.

Carney has over 35 years of professional experience in both the private and public sector. He has worked in numerous assignments in both chemical processing and automotive industries, supporting both manufacturing operations and program management. In the public sector he has worked for the Defense Contract Management Agency (DCMA) before his

current work with the Department of Energy (DOE). He holds a Bachelor of Science in Industrial Engineering and a Masters of Science in Engineering Management from the University of Tennessee. Carney is a certified Acquisition Professional in the DAWIA Systems Planning, Research, Development, and Engineering, as well as DAWIA Level II certified in Production, Quality, and Manufacturing.
