WHO WE ARE

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA engages thoughtful and innovative leaders to exchange ideas, information, and capabilities that lead to the development of the best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA's membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who form a vigorous, responsive, and collaborative community in support of defense and national security. For more than 100 years, NDIA and its predecessor organizations have been at the heart of the mission by dedicating their time, expertise, and energy to ensuring our warfighters have the best training, equipment, and support. LOGISTICS MANAGEMENT DIVISION

WHO WE ARE

Through NDIA's Logistics Management Division, government and industry exchange views and information on all matters relating to logistics support for major Defense Department systems and materiel items. It provides the government with collective industry viewpoints, recommendations and advice on government logistics-support concepts, policies, plans, programs, requirements, technologies, problems, implementation or impact of pending legislation, regulations and procedures. The division conducts special studies, analyses and advisories, as requested, and encourages mutual understanding and effective working relationships between government and industry to ensure efficient and reliable logistics-support concepts and systems that meet government requirements at reasonable costs.

WELCOME TO THE 36TH ANNUAL NATIONAL LOGISTICS FORUM

Welcome to NDIA's 36th Annual National Logistics Forum – the premier gathering of Department of Defense and commercial executives focused on the full spectrum of logistics support to our nation's warfighters, now and in the future. This is our first forum since 2018 and, as in the past, it provides the opportunity for industry and government stakeholders to engage in candid dialogue about the issues and challenges of maintaining global military readiness and to place and sustain forces anywhere necessary in the world. The theme, "Strengthening the Logistics Kill Chain," reflects the increasingly critical role of readiness and sustainment when facing the rise of near-peer competitors. In an era of Great Power competition, U.S. military forces, and those of our allies, must be prepared to operate in a contested logistics environment. This contested environment will stretch from the tactical edge of the battlefield all the way back to industrial base. We need to continue forging a culture of innovation now to be prepared to prevail in the next conflict and be ready to quickly adjust as the enemy responds to our logistics operations.

The COVID-19 pandemic has highlighted – and exacerbated – the fragility of our critical supply chains and of our industrial base. The military services and agencies rely heavily on their industry

partners to sustain and improve U.S. combat readiness. Defense-facing commercial companies have an equally important reliance on the DoD to remain healthy. This interdependence drives the need for the frank and open discussions between DoD and industry senior executives that this forum enables. To ensure effective operational sustainment of our defense forces today, and deliver the innovation essential for successful logistics in the future, this forum will examine the state of our supply chain. We will also discuss government and industry actions that should be taken to improve logistics capabilities, readiness, and supply chain outcomes.

We have assembled the most in-the-know DoD and industry senior executives to address issues of intense concern to you and your activities, companies and firms – all in one day! I encourage you to take full advantage of this exceptional opportunity to participate in the dialog and remain with us throughout the day. You can influence the future of national defense logistics. Thank you for being here and taking part in this critical discussion.

Sincerely,

Alan F. Estevez

HARASSMENT STATEMENT

NDIA is committed to providing a professional environment free from physical, psychological and verbal harassment. NDIA will not tolerate harassment of any kind, including but not limited to harassment based on ethnicity, religion, disability, physical appearance, gender, or sexual orientation. This policy applies to all participants and attendees at NDIA conferences, meetings and events. Harassment includes offensive gestures and verbal comments, deliberate intimidation, stalking, following, inappropriate photography and recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome attention. Participants requested to cease harassing behavior are expected to comply immediately, and failure will serve as grounds for revoking access to the NDIA event.

EVENT CODE OF CONDUCT

NDIA's Event Code of Conduct applies to all National Defense Industrial Association (NDIA), National Training & Simulation Association (NTSA), and Women In Defense (WID) meeting-related events, whether in person at public or private facilities, online, or during virtual events. NDIA, NTSA, and WID are committed to providing a productive and welcoming environment for all participants. All participants are expected to abide by this code as well as NDIA's ethical principles and practices. Visit [NDIA.org/CodeOfConduct](https://www.ndia.org/CodeOfConduct) to review the full policy.

INDUSTRY PARTNER EXHIBIT HALL

NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

BIOGRAPHIES

AUDREY BRADY

Vice President, F-35 Global Sustainment
Lockheed Martin Corporation

Audrey S. Brady has more than twenty-five years' experience in aerospace with a solid technical foundation, strengthened by operations, supply chain, and program management leadership, as well as proven results for military and commercial customers.

Audrey currently serves as the Vice President of F-35 Global Sustainment with responsibility for leading the teams who support and deliver overall F-35 mission readiness for the warfighter. Prior to this role, Audrey served as the Vice President of F-35 Training & Logistics for Lockheed Martin Rotary and Mission Systems (RMS). In this role, she was responsible for leading all aspects of development, production and sustainment for F-35 training products that are currently in use by 14 customers at 21 operational bases worldwide.

Previously, Audrey served as the Vice President of Sikorsky Commercial Systems and Services for Lockheed Martin's RMS. She was responsible for the overall strategic leadership for all aspects of the Sikorsky commercial market segment including the entire lifecycle in market assessment, product development, engineering design,

sales and marketing, manufacturing and delivery, FAA certifications, aftermarket services including performance-based logistics contracts, government affairs and customer relationships.

Earlier in her career, Audrey served as the general manager of Sikorsky's Coatesville, Pennsylvania Operations responsible for operational execution including final assembly and flight operations for S-92®, S-76®, CMHP, S-70i and the completion center for all commercial aircraft. She was responsible for driving engagement, accountability and compliance throughout the organization; ensuring excellence in execution; and enhancing operational and financial performance.

Prior to assuming the general manager position, Audrey was appointed director of the S-92 program responsible for the development and execution of the S-92 product line which serves as the baseline for the presidential helicopter known as the VH-92, establishing and meeting all financial, schedule, and technical requirements.

Audrey has also served as director of Sikorsky Connecticut Final Assembly and Flight Operations where she partnered with the Defense Contract Management

Agency (DCMA) and Government Flight Representative (GFR) to produce and deliver Black Hawk and Naval Hawk aircraft to the U.S. military and multiple foreign customers.

Beginning her career as an aero-thermal engineer after graduate school at Pratt & Whitney in 1996, Audrey has held positions of increasing responsibility in engineering, operations and corporate supply chain. One of her engineering roles included working on the exhaust nozzle for the F-35 engine.

Audrey is a recognized leader in talent development and diversity and inclusion where she proactively invests significant time coaching and developing next generation leaders. She makes it a priority volunteering to inspire students to pursue careers in the Science, Technology, Engineering and Math (STEM).

Audrey holds a Bachelor of Science degree in Mathematics and Mechanical Engineering from Trinity College, a Master of Science degree in Mechanical Engineering from Stanford University and a Master of Business Administration from Carnegie Mellon University. She also obtained her private helicopter pilot's license in February, 2017.

LIEUTENANT GENERAL TOM MILLER, USAF

Commander
Air Force Sustainment Center

Lt. Gen. Tom D. Miller is the Commander of the Air Force Sustainment Center, Air Force Materiel Command, Tinker Air Force Base, Oklahoma. As the AFSC Commander, he leads 40,000 total force Airmen at 26 locations around the globe,

comprised of three air logistics complexes which are the Air Force's depots, three air base wings that provide installation support, and two supply chain wings providing global supply chain support.

He has served in a variety of leadership positions and has commanded maintenance squadrons in the U.S. and

Iraq, a maintenance group in Afghanistan, a nuclear wing, an Air Logistics Complex, and has served on the Air Staff and the Joint Staff. Prior to his current position, Lt. Gen. Miller was the Director of Logistics, Engineering, and Force Protection for Air Combat Command.

BIOGRAPHIES

GEN STEVE LYONS, USA (RET)

Senior Fellow, Institute for Defense and Business, The University of North Carolina at Chapel Hill
Senior Mentor, National Defense University

General Steve Lyons retired from the U.S. Army in 2021 after over 38

years of service culminating as the 13th commander of US Transportation Command (TRANSCOM). TRANSCOM is one of 11 DoD combatant commands responsible for deploying and sustaining military forces globally, providing humanitarian assistance, and integrating the Department's multibillion-dollar joint deployment and distribution enterprise.

A native of Rensselaer New York, General Lyons was commissioned a Second Lieutenant in the U.S. Army upon graduation from Rochester Institute of Technology (RIT) in 1983. He began his career in Germany during the Cold War and subsequently held a wide range of leadership assignments that included command of troops at every level including multiple combat deployments such as Panama, Bosnia-Herzegovina, Iraq, Afghanistan. As a battalion commander

in 2003, he led more than 1,200 Soldiers as part of the 3rd Infantry Division ground assault to liberate Baghdad. He subsequently spent more than 40 months deployed to the U.S. Central Command area of responsibility in support of Operation Iraqi Freedom and Operation Enduring Freedom, Afghanistan. He has over nine years of experience in joint assignments.

General Lyons' flag officer assignments include the Afghanistan International Security Assistance Force (ISAF) C/J-4 (2009-2011), Headquarters Department of the Army Staff, Commander 8th Theater Sustainment Command (Indo-Pacific), Commander U.S. Army Combined Arms Sustainment Command, Deputy Commander TRANSCOM, and Joint Staff Director of Logistics (J4). As TRANSCOM commander he oversaw the largest noncombatant evacuation airlift operation in U.S. history resulting in the successful evacuation of 124,000 Afghans within two weeks' time.

He holds two masters degrees, one from the Naval Postgraduate School in Logistics Management; and the second from the Industrial College of the Armed Forces in National Resource Strategy.

His awards include the Defense Distinguished Service Medal, Bronze Star, and the Master Parachutist Badge. He is the recipient of the National Defense Transportation Association 2021 distinguished leader award and has been inducted into the Hall of Fame at the Naval Postgraduate School and U.S. Army Materiel Command.

Upon retirement he and Maureen, his wife of 32 years, settled in Davidson, North Carolina. He is currently a senior fellow for the Institute for Defense and Business at UNC Chapel Hill and senior mentor for the National Defense University Capstone, Keystone, and Pinnacle programs.

DLA LAND & MARITIME SUPPLIER CONFERENCE & EXHIBITION

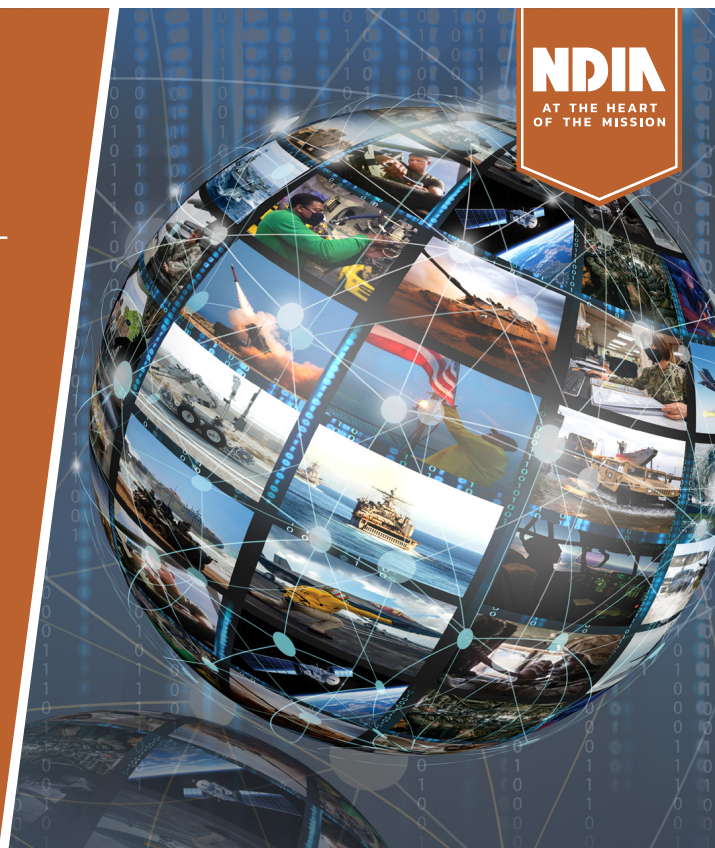

Register Today

Don't miss out on this two-day event hosted by the National Defense Industrial Association (NDIA) and the Defense Logistics Agency, (DLA) Land and Maritime.

This is the premier forum for current and potential vendors to discuss future logistics support strategies, challenges and to streamline efforts to better support the warfighter. NDIA and DLA invites you to expand the opportunity for your business, work smarter and help build innovative ways of doing business between service partners and industry.

Join us and work towards our shared event goal of improving alliances and reforming business processes that continually improve warfighter readiness.

April 6 – 7 | [NDIA.org/DLA22](https://www.ndia.org/DLA22) | Columbus, OH

AWARD RECIPIENTS

THE LOGISTICIAN EMERITUS AWARD

The Logistician Emeritus Award is presented to an individual who has demonstrated outstanding competence and has made a substantial contribution in the field of national security logistics while serving in a governmental position. The award was established by the Logistics Management Division in 1980 as a means of recognizing deserving individuals.

2021	GEN Gustave Perna, USA (Ret)
2019	Maj Gen James Hawkins, USAF (Ret)

GEN GUSTAVE PERNA, USA (RET)

Former Chief Operating Officer of the Federal COVID-19 Response for Vaccine and Therapeutics

General Gustave Perna distinguished himself over the course of 40 years of exceptional service to the U.S. Government and the Department of Defense, culminating as Chief Operating Officer of the nation’s response to the COVID-19 pandemic. In this position, General Perna developed the strategy and oversaw the execution of the logistical support for the federal government’s

distribution of the vaccines developed to help battle the COVID-19 pandemic. Prior to this, he served as the Chief Operating Officer of Operation Warp Speed, an effort to develop and produce an effective COVID-19 vaccine. General Perna’s efforts were critical and highly effective in helping our nation through one of its most challenging times in modern history.

General Perna’s vast logistics experience, relentless drive and highly effective leadership during this period, as well as throughout multiple other highly demanding assignments during his esteemed military career, has ensured a strong national defense and provided enduring benefits for our nation.

MAJ GEN JAMES HAWKINS, USAF (RET)

Consultant
Institute for Defense Analysis

In recognition of his substantial contribution to the field of national security logistics while serving in a government position, the National Defense Industrial Association presents its 2019 Logistician Emeritus Award to Major General James Hawkins, USAF (Ret).

Major General James Hawkins has distinguished himself over the course of 50 years of exceptional service to the U.S. Government and the DoD, culminating in nearly 10 years as a member of the Senior Executive Service while assigned as the Deputy Director for Strategic Logistics on the Joint Staff. His leadership, managerial

skills, and unparalleled dedication, both as a civilian and during 36 years in uniform, have enabled him to support combat operations, develop hundreds of exceptional leaders in his wake and provide strategic guidance to the DoD for a generation.

PAST RECIPIENTS OF THE LOGISTICIAN EMERITUS AWARD INCLUDE:

2018	GEN Ann Dunwoody, USA (Ret)
2017	Hon. Alan Estevez
2016	LTG Kathleen Gainey, USA (Ret)
2015	Randy T. Fowler, Former DASD Material Readiness
2014	MG Kevin Leonard, USA (Ret)
2013	Debra Tune, OASAF (IE&L) (Ret)

2012	Gen Duncan McNabb, USAF (Ret)
2011	VADM Justin McCarthy, USN (Ret)
2010	LTG Robert Dail, USA (Ret)
2009	LTG C.V. Christianson, USA (Ret)
2008	LTG John J. Cusick, USA (Ret)

VISIT OUR WEBSITE AT [NDIA.ORG/DIVISIONS/LOGISTICS/AWARDS](https://www.ndia.org/divisions/logistics/awards) FOR A FULL LISTING OF PAST AWARD RECIPIENTS.

EDWARD M. GREER AWARD

The Greer Award is presented annually to an industry individual in recognition of noteworthy contributions or meritorious service to the DoD in the area of integrated logistics support engineering and its implementation in maintenance and product support. The award was established in 1956 by Greer Hydraulics, Inc. to stimulate thought and develop programs which will benefit industry and the public. The award program encourages solutions to troublesome maintenance problems or to the development of integrated logistics support planning techniques to be employed in their solution. The award is presented in honor of its originator, Edward M. Greer.

2021	Maj Gen H. Brent Baker, Sr., USAF (Ret)
-------------	---

MAJOR GENERAL HOWARD BRENT BAKER, USAF (RET)

Vice President, Worldwide Federal Aerospace and Defense
PTC, Inc.

In recognition of his substantial contribution to the Department of Defense in the area of integrated logistics support engineering and its implementation in maintenance and product support, the National Defense Industrial Association presents its 2021 Edward M. Greer Award to Major General H. Brent Baker Sr., USAF (Ret).

Maj Gen Baker has influenced logistics on a personal as well as institutional level throughout his career. His notable contribution is marked by his having mentored a generation of airmen and DoD leaders, as well as civilian counterparts, on how to work with logistics effectively.

For his unwavering leadership and support of a strong national defense and on behalf of our service men and women and their families, the National Defense Industrial Association proudly presents the 2021 Edward M. Greer Award to Major General H. Brent Baker Sr., USAF (Ret).

PAST RECIPIENTS OF THE EDWARD M. GREER AWARD INCLUDE:

2018	BG Barbara Doornink, USA (Ret)
2017	Perri Widener, Integrated Logistics, The Boeing Company
2016	Dinesh Verna, Stevens Institute of Technology
2015	Karl Voepel, Leidos Corp.
2014	Kevin Cody, ManTech International
2013	Mark Schroeder, Raytheon Company

2012	Gustavo M. Urzua, Globemaster III Integrated Sustainment Program
2011	Denise Richards, SPL0 Production Programs
2009	Joe Davis, Saddle Butte Systems
2008	George Pearl, SAIC
2007	Eric Stange, Accenture National Security Services
2006	LTG John J. Cusick, USA (Ret)

VISIT OUR WEBSITE AT [NDIA.ORG/DIVISIONS/LOGISTICS/AWARDS](https://www.ndia.org/divisions/logistics/awards) FOR A FULL LISTING OF PAST AWARD RECIPIENTS.

DOD AWARD FOR SUPPLY CHAIN OPERATIONAL EXCELLENCE

The DoD Award for Supply Chain Operational Excellence provides a showcase for innovative management and technology tools, which are used to improve our supply chain efficiency and effectiveness in order to enhance our support to the warfighter. The award honors organizations that have made exceptional progress through innovative development or adoption of the best supply chain practices.

DEFENSE LOGISTICS AGENCY (DLA), DLA AVIATION

Pacer Phoenix TF33 Sustainment Plan

DLA Aviation, in coordination with the U.S. Air Force, Pratt and Whitney and commercial enterprise, made significant strides in an effort to improve weapon system readiness and strengthen industrial supply chains to sustain the Commercial Engine Replacement Program and the engine through year 2030.

This effort leveraged cutting-edge industry expertise to develop cost-effective, innovative solutions to warm inactive

supply sources to improve Material Availability and reduce Order Response Time. Through this program, some of the U.S. Air Force's highest demand legacy systems, including the B-52 Stratofortress, E-3 Sentry, and E-8 JSTARS aircraft, will continue to be sustained well beyond their expected lifetimes.

Through both established and new initiatives, DLA Aviation endeavored tirelessly throughout the fiscal year (FY) to live up to its motto of "Warfighter Always." Tracking performance through focused metrics, DLA Aviation achieved a long list of truly impressive accomplishments in FY 2021.

PAST RECIPIENTS OF THE DOD AWARD FOR SUPPLY CHAIN OPERATIONAL EXCELLENCE INCLUDE:

2018	Naval Supply Systems Command NAVSUP Weapons Systems Support Logistics Cell
2017	448th Supply Chain Management Wing, Air Force Sustainment Center, Air Force Materiel Command, United States Air Force
2015	635th Supply Chain Operations Wing, Air Force Sustainment Center, Air Force Materiel Command, United States Air Force and Supply Management Unit, 3d Supply Battalion, 3d Marine Logistics Group, United States Marine Corps

2014	Marine Corps Logistics Command (MARCORLOGCOM) Inventory Planning and Analysis Branch
2013	Army Materiel Command
2012	Air Force Sustainment Center, 448th Supply Chain Management Wing, Tinker Air Force Base, Oklahoma
2011	Supply Management Unit, 2nd Supply Battalion
2010	U.S. Air Force Global Logistics Support Center

VISIT OUR WEBSITE AT [NDIA.ORG/DIVISIONS/LOGISTICS/AWARDS](https://www.ndia.org/divisions/logistics/awards) FOR A FULL LISTING OF PAST AWARD RECIPIENTS.

GEN WILLIAM G. T. TUTTLE, JR., USA (RET) AWARD FOR BUSINESS ACUMEN IN DEFENSE AND GOVERNMENT

The GEN William G. T. Tuttle, Jr., USA (Ret) Award for Business Acumen in Defense and Government is an annual award established at the Institute for Defense and Business (IDB) in Chapel Hill, NC to recognize an exceptional business application in defense and government. The Tuttle Award is presented to an IDB Alum for demonstrating the best return on investment to his or her organization by successfully applying the lessons learned in an IDB education program. This year is the first year this award is presented at the National Logistics Forum.

IDB's education and training courses are developed to provide interaction between the military/government, private sector, and academic communities. These courses provide a dynamic and unique educational experience that includes the application of innovative business practices in the challenging environment of the defense enterprise. The nature of IDB programs is to be a true investment that equips and motivates graduates to share the business principles learned in class with their team and apply them for the betterment of the organization.

ANDREW ROCK

Fleet Readiness Center East
Department of the Navy

Mr. Andrew J. Rock's leadership was key to FRC East's Maintenance, Repair, and Overhaul (MRO) Production Department V-22 Integrated Program Team's (IPT) increased readiness.

As a result, they developed and embraced improved processes and demonstrated exceptional performance in exceeding their

fiscal year (FY) 21 mission goals. Mr. Rock's commitment to mentoring his subordinates and creating a team atmosphere has created a positive environment that continues to allow the team to thrive. Prior to FY 21, V-22 cycle times (CT) for Planned Maintenance Interval (PMI) events were unpredictable and too long across the enterprise.

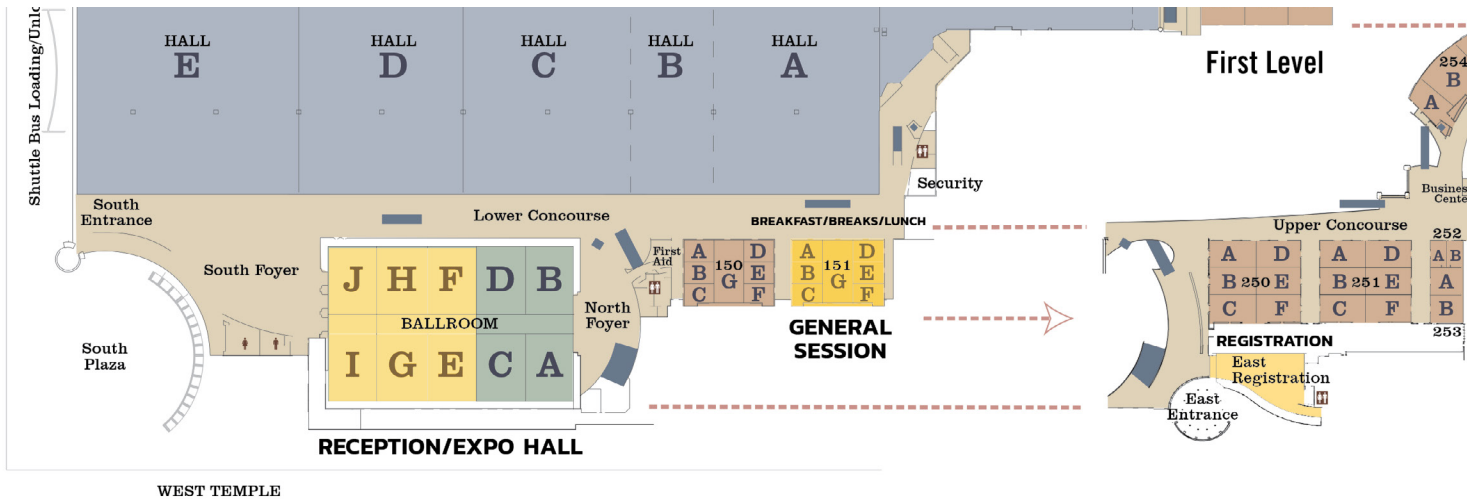

The phenomenal success in FY21 can be attributed to Mr. Rock's effective, motivational, and superior leadership. By empowering and supporting the PCCs to continuously review work orders to improve accuracy, FRC East ensures on time or early delivery and optimized employee utilization.

2019	U.S. Air Force, Logistics IT Transformation Team
2018	U.S. Coast Guard, CAPT Matthew Lake
2017	McAlester Army Ammunition Plant, COL Sean Herron and COL Joseph Blanding
2016	U.S. Coast Guard, National Industrial Enterprise Workforce

2015	DLA USTRANSCOM Support Division, Col Emily Buckman, USAF (and team)
2011	COMPACFLT N4 Future Plans Division, LCDR Cielo Almanza, SC, USN
2010	Logistic Sustainment Division, USTRANSCOM, Michael Hansen
