

# MARINE CORPS SYSTEMS COMMAND

---

Building and Delivering the  
Future Marine Corps Force

February 23, 2023

**BGen David C. Walsh**  
Commander,  
MARCORSYSCOM

## MARCORSYSCOM'S MISSION

Equip our Marines with the most capable ground and information technology weapon systems in order to maximize their expeditionary readiness and combat effectiveness in all domains.

# How Marines (will) Fight

# CAPABILITIES AND CHARACTERISTICS

**C2:** Secure, resilient communication capabilities that remain functional as Stand-in forces move along the competition continuum

**Logistics:** Capabilities designed for long-haul distributed operations in contested environments with limited outside support

**Sensor Networks:** Sensor networks continuously find adversary targets in a degraded C2 environment

**Fire support:** Long-range precision fires and organic precision fires for Infantry battalions

**Supporting Joint Force:** Globally-integrated and persistently engaged structures and systems supporting the Naval and joint forces

# Increasing lethality for the Warfighters across all domains

HIMARS

GBASM/NMESIS

ULTV

JLTV

HFR II

MCWS-X

NOTM-GCV

# OPERATIONAL ASSOCIATED CHALLENGES

MARINE CORPS SYSTEMS COMMAND

# Commander's Priorities

## PEOPLE

Attract, develop, and retain the most talented and best performing acquisition professionals

## PARTNERS

Build and maintain collaborative relationships with the FMF and key stakeholders through trust, transparency, and regular communication

## PROGRAMS

Empower program managers to accelerate delivery of capabilities through disciplined, agile execution and balanced risk management
