# CYBERSECURITY
## DIVISION MEETING

June 10, 2024  |  Alexandria, VA  |  NDIA.org/Events

## NDIA
### WHO WE ARE

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA engages thoughtful and innovative leaders to exchange ideas, information, and capabilities that lead to the development of the best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA's membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who form a vigorous, responsive, and collaborative community in support of defense and national security. For more than 100 years, NDIA and its predecessor organizations have been at the heart of the mission by dedicating their time, expertise, and energy to ensuring our warfighters have the best training, equipment, and support. Division Co-Chair

## Who We Are

The division's primary objective is to contribute to U.S. national security by promoting communication and interaction between the industry, government and military on cybersecurity and cyber defense policy, legislation, requirements and technology.

The Cybersecurity Division's charter is to facilitate industry, government, and academia interaction in policy, legislative, legal and technical areas directly related to protecting cyber assets and maintaining access to the cyber domain. Such interaction is intended to promote the development of a secure, resilient, and reliable cyber domain for the United States and its allies, and to provide for an exchange of information and views between industry, academia, government and military representatives. The effective cooperation between these groups is essential to establish and maintain U.S. superiority in the cyber domain.

# Welcome to the Cybersecurity Division Meeting

On behalf of the Cybersecurity Division at the National Defense Industrial Association, welcome to this Spring meeting of the division. Cybersecurity continues to be an issue that can be overwhelming for those who are working to protect important data and networks, and for those working to offer goods and services to achieve that objective.

As we use this occasion to mark a new cadence of meeting with a focus on cyber at NDIA, we hope that you find this a great opportunity to meet and engage with policy and decision makers and gather with likeminded NDIA members to discuss cyber-related issues. We've aligned our focus in the Division around legal and policy issues, software assurance, cyber-

supply chain risk management and cyber standards in an effort to best face the seemingly endless flow of threats and the efforts to counter them.

We hope that you will use this opportunity to engage in the work of the Cybersecurity Division and reach out to others to join in this effort. We know that there is tremendous interest in the threats, the solutions put in place to mitigate those threats, and knowing about and understanding the compliance requirements that are established in an effort to address these threats in the federal public sector.

Thank you again for joining this meeting of the Cybersecurity Division.

**Event Code of Conduct**

NDIA's Event Code of Conduct applies to all National Defense Industrial Association (NDIA), National Training & Simulation Association (NTSA), Emerging Technologies Institute (ETI), and Women In Defense (WID) meeting-related events, whether in person at public or private facilities, online, or during virtual events. NDIA, NTSA, ETI, and WID are committed to providing a productive and welcoming environment for all participants. Visit NDIA.org/CodeOfConduct to review the full policy.

**Harassment Statement**

NDIA is committed to providing a professional environment free from physical, psychological and verbal harassment. NDIA will not tolerate harassment of any kind, including but not limited to harassment based on ethnicity, religion, disability, physical appearance, gender, or sexual orientation. This policy applies to all participants and attendees at NDIA conferences, meetings and events. Harassment includes offensive gestures and verbal comments, deliberate intimidation, stalking, following, inappropriate photography and recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome attention. Participants requested to cease harassing behavior are expected to comply immediately, and failure will serve as grounds for revoking access to the NDIA event.

**Antitrust Statement**

The NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.
