Logistics
COMMAND

INDUSTRIAL SUPPLY INTEGRATION (ISI)

- ✦ Ensuring the **RIGHT ITEMS** are available at the **RIGHT TIME AND PLACE**
- ✦ Leverages data analytics, technology, and best practices to achieve cost savings by eliminating wasted time materials
- ✦ Lower USMC financial risk by allowing DLA to purchase material ahead of production via Defense Working Capital Fund
- ✦ DLA takes procurement actions ahead of funded requisitions
- ✦ Introduction of new forecasting and supply planning capabilities; formalization of improved readiness through DLA investments in hard-to-procure items
- ✦ **Annual Warehouse Labor Savings:** Approximately \$22.5 million
- ✦ **Over-Procurement Avoided (CY 2023):** Nearly \$4.5 million

Success is dependent on our ability to provide an accurate, data-driven forecast
