Medium Armor Kits

Heavy Armor Kits

# Integrated PPBE Timeline

- Legend**
- **PPBE:** Planning, Programming, Budgeting, and Execution. (AR 1-1)
  - **SPAR:** Strategic Portfolio Analysis Review
  - **POM:** Program Objectives Memorandum
  - **BES:** Budget Estimate Submission

**We simultaneously work all four phases of PPBE**

## Thoughts from my foxhole...

- My own views and do not necessarily represent the views of the Department of Defense or the Army.
- My Mission: Prioritize the allocation of resources against approved materiel requirements to modernize and equip the Army's Sustainment, Transportation, and Conventional Munitions portfolios ... in accordance with the National Defense Strategy ... enabling dominant capabilities that support the Army of 2030 and beyond.
- Where my head is ... FY30 and beyond ... where my pen is ... FYs 26-30
- Fiscal Environment:
  - As always... extremely difficult ... risk informed resourcing decisions ...
- Criticality of TWV Fleets:
  - Mobility in Large Scale Combat Operations
  - Sustaining the Force in Large Scale Combat Operations
  - End Item Interchange (formerly known as Data Interchange) ... 'what TWVs carry'
  - Long term affordability and sustainability ...
- Exciting Times:
  - Common Tactical Truck
  - LVAD (Low Velocity Air Drop) FMTV
  - BISON
- Thank you for the opportunity to engage ...
