Project Lead Joint Services

Key Objectives

1. Increase manufacturing safety and readiness to meet current & future requirements
2. Isolate energetic mass from people
3. Ensure graceful degradation and resilient operations
4. Improve flexibility, maintainability and sustainability
5. Reduce cost of operations
6. Secure supply chains

Mission

Enable the acquisition and manufacturing of munitions for the Joint Services

Recent Accomplishments

- ❑ CONUS Based TNT Facility (Graham, KY)
- ❑ Iowa AAP Line 3A increased production from 10K/month to 35K/month
- ❑ RFAAP Industry Days 1 & 2
- ❑ Groundbreaking Ceremony for the 6.8mm Facility at LCAAP on 05 February 2025
- ❑ Capacity increase from 24K to 36K/month at NEPA, including an increase from 12K to 16K/month at SCAAP
- ❑ Construction MATOC Industry Day

Focus Areas

- ❑ RFAAP Competition
- ❑ Quad City Cartridge Case Facility New Property Management & Operations Contract
- ❑ 155mm Artillery LAP
- ❑ IMX-104 Expansion Market Research
- ❑ RDT&E Efforts at the GOCOs
- ❑ Direct Funded PWS
- ❑ Helene Supplemental Funding (RFAAP Flooding)

- Government Owned Contractor Operated
- Contractor Owned Contractor Operated
